O. K. S E E D S

(Trade Mark) (Trade Mark)

WITHIN THE PAGES OF THIS CATALOGUE YOU WILL FIND EVERYTHING YOU NEED IN DEPENDABLE SEEDS TO GROW A SATISFACTORY AND SUCCESSFUL GARDEN.

When Springtime comes and you begin to plow and sow for the expected harvest what seeds will you use? If you want seeds that will grow, that will make you a good garden, that will supply your table through the year with tender, delicious vegetables, and make glad harvests in your fields, buy and plant the O. K. SEEDS. There is a vast difference in seeds, the same as there is in farm stock. What is not bred in the seed cannot come out in the crop. There are many "scrub" seeds on the market as there are many scrub animals on farms. But O. K. SEEDS are thoroughbred seeds. Some others are as good but there is also a chance that they may not be as good. In any event they cannot be any better. Then why take chances?

How To Order If you have the order sheet and return envelope sent with this catalogue, use them. If you send cash with order you can register it for safety. (All postmasters and carriers will register letters). Or send by Post Office or Express Money Order, Bank Draft or Check. Postage Stamps, 2c and 5c; may be sent for small amounts. Canadian customers may send their currency or postage stamps. Be sure to sign name and address clearly. If you changed address give both former and present.

FREE DELIVERY—The prices in this catalogue include delivery, or prepayment by Parcels Post, and to including the 4th zone on pkts., ozs., $\frac{1}{4}$ lb., 1 lb., and up to 5 lbs., unless stated to the contrary. Beyond the 4th zone, be sure to send the excess postage. See next page.

Send No Money with your order, if you prefer. But just send your order in and tell us when to fill it. We will send it at that time and you can pay the price of the goods to the Postman, plus only the post-office fee to return the money. We will pay the postage as explained in the paragraph above. Understand, if you prefer to pay when delivered you need not send any money at all. We make these terms because some people may not be flush with money at the time the catalogue arrives and may not need the things for weeks, or a month or more. As a consequence the order may be de-

ferred, perhaps the season will get late and the catalogue may be lost, thus operating to our mutual disadvantage.

So make out your order now; send it in without payment, if you prefer. Tell us when to send and dismiss the matter from your mind.

SHIPMENTS BY FREIGHT AND EXPRESS—Garden seeds, Farm seeds, and seed potatoes over 5 lbs. do not include prepayment of transportation but will be sent by freight or express at cost of purchaser. Except if you prefer shipment by parcels post, calculate the postage, (see explanation under the map) and send it extra. But send no money at all if you select "pay on arrival" terms.

Don't order shipments to "Stops" or a station where there is no agent, unless you send full payment and enough more to pay the transportation.

Safe Arrival Guaranteed We guarantee safe arrival of all shipments in good condition. In case any shipment shows damage on arrival, be sure to have the mail carrier or freight or express agent give you a statement to that effect which send to us, or in the case of freight or express shipments make your claim to the delivering agent at once.

\$1.25 worth of seeds in pkts., ozs. & $\frac{1}{4}$ lbs. for --- **\$1 00**

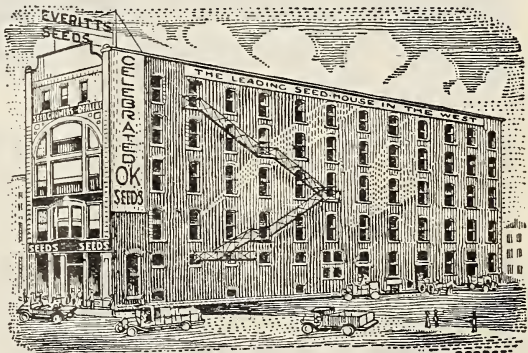

This is our free seed offer for 1927: send \$1.00 and select in pkts., ounces and quarter pounds to the value of \$1.25 and for each additional dollar sent for seeds in packets, ounces and quarter pounds, select 25c worth more of seeds. Don't include larger quantities than $\frac{1}{4}$ lbs. on this offer.

Parcel Post Map

How to Calculate Postage

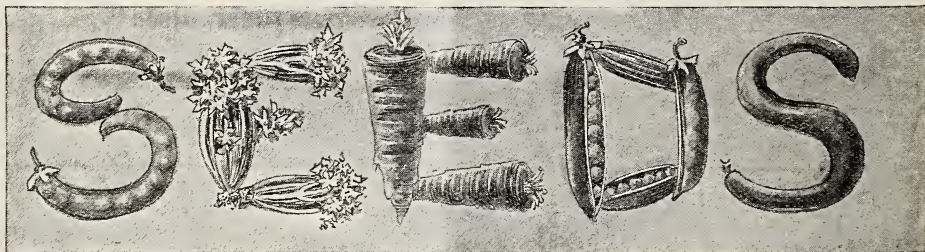

By the map above you can determine the zone your post office is in. (The numbered circles will tell.) Then when you know the weight of goods ordered you can figure the postage by the below table:

	Zone 1	2	3	4	5	6	7	8
For the first pound or less the postage is	7c	7c	8c	9c	10c	11c	13c	14c
For each additional pound or fraction of a pound add	1c	1c	2c	4c	6c	8c	10c	14c

Packages up to 70 lbs., are available for Zones 1, 2 and 3. Beyond 3rd zone 50 lbs., is the limit.

Read This Carefully At the prices quoted we deliver seeds of Vegetables, Flower, and Farm, in Pkts., ozs., and lbs., up to 5 lbs., to and including the 4th zone. Also at prices quoted, we deliver all Bulbs, Roots, Perennials, Roses and shrubs to and including the 4th zone. On fruit trees and fruit plants there will be an extra charge, see pages 52 and 53, except Strawberry plants up to 500 will be delivered at prices. Vegetable seeds, Farm seeds and seed Potatoes, more than 5 lbs., we do not deliver at prices. Poultry feed and supplies, Insecticides, Fertilizer, etc., be governed by terms made in their departments. When beyond the 4th zone, calculate the postage to destination and then deduct the postage to the 4th zone. The balance, customer is to pay extra beyond the catalogue prices.

GENERAL LIST OF VEGETABLE

Our list of varieties is not the longest, but it embraces the best. You can select from the following pages without danger of making a mistake, by first reading the dependable descriptions to select what you want as regards season, color, qualities, etc.

Artichoke

Culture Sow early in hotbed, or outdoors in May. Transplant to rows 3 feet apart and 2 feet apart in row. It is hardy in the north. One oz. of seed will sow 25 feet of row for plants.

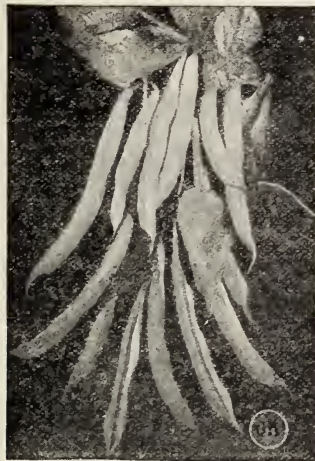

Green Globe The unripe flower heads are used and when properly prepared are delicious. Pkt. 10c; oz., 40c.

Asparagus

Asparagus is the first vegetable to come in the spring and is very popular with those who know its value. Every garden should have a generous supply and when properly set and cared for will last a lifetime. Plant in rich dirt, 10 inches deep and 1½ feet apart. Place plants in the trench 6 to 8 inches apart, spreading roots out flat. Then cover with about three inches soil and fill up as the stalks grow. 100 plants for average family.

New Washington (Rust Resistant). Everybody should renew old beds with this. Recommended by the U. S. Government at Washington. This variety produces large, straight, white shoots of excellent quality. It is nearer being rust-proof than any other variety. Pkt. 10c; oz., 25c; ¼ lb., 75c. Strong roots, doz., 35c; 50 for \$1.25; 100 for \$2.50.

Plant Plenty of Beans

Wonder Wax

Culture Beans will grow on almost any kind of soil. Well rotted manure is best. Plant late enough in the season so the ground is warm and dry although some plant earlier and risk a frost, for the sake of earliness. Plant in rows 15 inches to 2 feet apart, and thin to 3 to 6 inches apart. Cover $1\frac{1}{2}$ to 2 inches deep. Lima Beans should not be planted until the latter part of May. A quart of large Lima Beans plants 100 hills of the smaller sorts, 200 hills. Ask for prices in larger quantities than quoted.

Dwarf Yellow or Wax Podded

Wonder Wax (Flat Pod) Is a wonderfully heavy yielder, stringless and tender—fills every need for home and market, slim, flat, plump, handsome and meaty pods. This is the earliest wax-podded bean. In bearing for a long season. Brings highest market prices. $\frac{1}{4}$ lb., 15c; $\frac{1}{2}$ lb., 25c; 1 lb., 45c; 3 lb., at 40c.

Kidney Wax (Flat Pod) A very popular, early variety. Pods large, $5\frac{1}{2}$ to 6 inches long, straight and flat, fleshy, brittle, fine grained and stringless. Very attractive. $\frac{1}{4}$ lb., 10c; $\frac{1}{2}$ lb., 18c; 1 lb., 32c; 3 lbs., at 30c.

Davis White Wax (Flat Pod) Early Mammoth Pods. $6\frac{1}{2}$ to 7 inches long, slightly stringy. A market gardeners favorite. $\frac{1}{4}$ lb., 10c; $\frac{1}{2}$ lb., 18c; 1 lb., 32c; 3 lbs., at 30c.

Imp. Golden Wax (Flat Pod) Very early and quite productive; seed white, much mottled brown. $\frac{1}{4}$ lb., 10c; $\frac{1}{2}$ lb., 18c; 1 lb., 32c; 3 lbs., at 30c.

Black German Wax (Round Pods) A standard sort. Early, pods fleshy, stringless, attractive, about 5 inches long. $\frac{1}{4}$ lb., 10c; $\frac{1}{2}$ lb., 18c; 1 lb., 32c; 3 lbs., at 30c.

Dwarf Green Pods

Burpee's Stringless Green Pods

(Round Pod) Early, hardy, vigorous and productive. Pods large, 5 inches long, round and crease backed, dark green in color; strictly stringless, tender and brittle. One of the best for market. $\frac{1}{4}$ lb., 10c; $\frac{1}{2}$ lb., 18c; 1 lb., 32c; 3 lbs., at 30c.

Bountiful (Flat Pod) An early variety of sturdy, upright growth. Free from rust and mildew. It bears continually for several weeks. Pods are seven to eight inches long, straight, flat, brittle and stringless. $\frac{1}{4}$ lb., 10c; $\frac{1}{2}$ lb., 18c; 1 lb., 32c; 3 lbs., at 30c.

Pole, Climbing and Cornfield Beans

Kentucky Wonder (Round Pod) The most popular green-podded climbing, or corn-hill bean, early and wonderfully productive. Bears until frost. Pods, 8 to 9 inches long in clusters. The returns from an acre of corn can be doubled by planting this bean in the corn hills. $\frac{1}{4}$ lb., 10c; $\frac{1}{2}$ lb., 18c; 1 lb., 32c; 3 lbs., at 30c.

Golden Cluster Wax (Flat Pods) Unsurpassed in Wax Pole Beans. Pods 6 to 7 inches long, in clusters. Flesh thick and stringless. Beans white, $\frac{1}{4}$ lb., 12c; $\frac{1}{2}$ lb., 20c; 1 lb., 35c; 3 lbs., at 32c.

Lazy Wives (Flat Pods) Borne in such large clusters that a mess can soon be gathered, hence the name. Pods long, broad, fleshy, stringless. Beans white. $\frac{1}{4}$ lb., 10c; $\frac{1}{2}$ lb., 25c; 1 lb., 40c; 3 lbs., at 35c.

Horticultural or Cranberry—October Bean (Flat pods) An old well known standard sort. Stringless and of good quality; color dark green, splashed with bright red. $\frac{1}{4}$ lb., 10c; $\frac{1}{2}$ lb., 18c; 1 lb., 32c; 3 lbs., at 30c.

Don't Forget

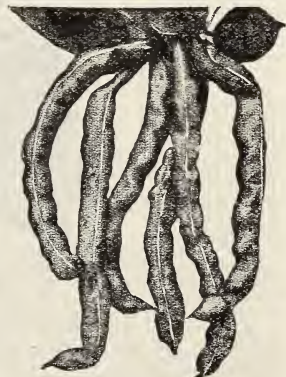

When you buy your seed beans. No difference how fertile your ground is, the simple application of this inoculant will multiply the bacteria in the soil, attracts nitrogen from the air, increases the crop and improves the soil. Pkg., 20c. For Beans, Peas and Sweet Peas. Directions for using with each package. Don't forget to use inoculant.

Full Measure (Round Pod) A fine early stringless, high quality bean. Pods straight, 6 inches long, very fleshy, round, crease backed and showing depressions around the beans. $\frac{1}{4}$ lb., 10c; $\frac{1}{2}$ lb., 18c; 1 lb., 32c; 3 lbs., at 30c.

Giant Stringless (Round Pod) an extremely productive, handsome and tender variety. Fully stringless. Pods slightly longer than Burpee's. $\frac{1}{4}$ lb., 10c; $\frac{1}{2}$ lb., 18c; 1 lb., 32c; 3 lbs., at 30c.

Imp. Early Red Valentine (Round Pod) A very hardy, early productive standard sort, slightly stringy but splendid quality. $\frac{1}{4}$ lb., 10c; $\frac{1}{2}$ lb., 18c; 1 lb., 32c; 3 lbs., at 30c.

Bush Kentucky Wonder (Flat Pod) Resembles the popular Pole Ky., Wonder, with pods 6 to 7 inches long, flat and irregular in shape. Nearly stringless and of very splendid flavor, seeds brown. $\frac{1}{4}$ lb., 12c; $\frac{1}{2}$ lb., 20c; 1 lb., 35c; 3 lbs., at 32c.

Kentucky Wonder

Cut Short or Corn Hill (Flat Pods) A well-known hardy late and productive sort. Green Pods $3\frac{1}{2}$ to 4 inches long, straight and flat. Some strings. One of the best for planting in corn. $\frac{1}{4}$ lb., 10c; $\frac{1}{2}$ lb., 18c; 1 lb., 32c; 3 lbs., at 30c.

Kentucky Wonder Wax (Round Pod)—One of the earliest of the pole wax sorts. Pods 8 to 9 inches long, thick, crease backed, very fleshy, brittle, but has some strings. $\frac{1}{4}$ lb., 12c; $\frac{1}{2}$ lb., 20c; 1 lb., 35c; 3 lbs., at 32c.

Burgher's Stringless (Round Pod) Also called white seeded Kentucky Wonder. Very long, fleshy, stringless pods. Highly recommended. $\frac{1}{4}$ lb., 12c; $\frac{1}{2}$ lb., 20c; 1 lb., 35c; 3 lbs., at 32c.

Yard Long or French Asparagus

An attractive, curious and good Pole Bean. Pods sometimes grow to be a yard long. Our customers have reported 37 inches, 36 inches, $34\frac{1}{2}$ inches, 34 inches, 33 inches, 32 inches, etc. The whole pod and beans are tender and with a delicious Asparagus flavor. Price, Pkt., 10c; 3 for 25c; 15 for \$1.00; $\frac{1}{4}$ lb., 35c; $\frac{1}{2}$ lb., 60c; 1 lb., \$1.00.

SOME REPORTS—Nina Cook, Parrish, Ala. and Beatrice Williams Ashboro, N. C. reported pods, 37 in long; Mrs. G. Boswell, McIver, N. C., 36 inches; Mrs. John Curry, Garfield Ky., $34\frac{1}{2}$ inches; Mrs. C. A. Townsend, Aspen Va., 33 inches; Leonard Hall, Boles, Ky., 32 inches. See these people praised its productiveness and good table qualities.

Lima Beans

Henderson's Early (Bush). A vigorous, hardy small type of Bush Lima; much in favor with family gardeners and canners. Also much raised as a field crop for dry beans. A surprising crop can be grown on a small space. $\frac{1}{4}$ lb., 15c; $\frac{1}{2}$ lb., 25c; 1 lb., 40c; 3 lbs., at 35c.

I have planted O. K. Seeds since 1885 and find none better. Stringless Green Pod beans are the best we can get and do well here. The 10 to 1 corn I got does well and all the other of your seeds that I used. O. King, Meridian, Ohio.

The seeds purchased from you for 1925 were cucumbers, lettuce, sweet corn, radishes, and beets. To our experience there is no better on the market than what can be bought from your store. Walter J. Davis, Exchange, W. Va.

Wish to say that your seeds were all very satisfactory. The wonder beet surely bears the right name, for I never raised such beets, and did not see their equal any place for size. Also the cucumbers, king of picklers, were a great yielder. You can count on me for a regular customer and will be looking for your next catalogue. I. M. Frank, Cherrytree, Pa.

Burpee's Imp. (Bush). Both beans and pods larger than the old type; averages one more bean to the pod; $\frac{1}{4}$ lb., 15c; $\frac{1}{2}$ lb., 25c; 1 lb., 40c; 3 lbs., at 35c.

Fordhook (Bush) Preferred by many particularly by market gardeners. Very thick white beans. $\frac{1}{4}$ lb., 15c; $\frac{1}{2}$ lb., 25c; 1 lb., 40c; 3 lbs., at 35c.

King of the Garden (Pole) An improved strain of large, white Lima. $\frac{1}{4}$ lb., 15c; $\frac{1}{2}$ lb., 25c; 1 lb., 40c; 3 lbs., at 35c.

Dreer's Improved or Challenger (Pole) Plants very vigorous, very hardy, late and productive. Pods contain 4 to 5 very thick, medium sized beans of excellent quality. $\frac{1}{4}$ lb., 15c; $\frac{1}{2}$ lb., 25c; 1 lb., 40c; 3 lbs., at 35c.

Small Lima, or Sieva (Pole) Beans small and white on the order of Henderson's Bush Lima. Plant of large growth, very early, and productive. $\frac{1}{4}$ lb., 10c; $\frac{1}{2}$ lb., 25c; 1 lb., 40c; 3 lbs., at 35c.

Bush, Shell, Field Beans

Large White Marrow Large, oval-shaped, white beans, grown as a field crop for baking. $\frac{1}{4}$ lb., 10c; $\frac{1}{2}$ lb., 16c; 1 lb., 30c; 3 lbs., at 25c.

Navy or Pea Bean A small round, white bean, extensively grown as a field crop. $\frac{1}{4}$ lb., 10c; $\frac{1}{2}$ lb., 16c; 1 lb., 30c; 3 lbs., at 25c.

Red Kidney The beans are deep red in color. Much raised as a field crop. $\frac{1}{4}$ lb., 10c; $\frac{1}{2}$ lb., 16c; 1 lb., 30c; 3 lbs., at 28c.

OUR BEAN COLLECTION

Egg Plant

Culture Plant seed early in house or hot-bed. Set in open ground when warm. Set 2 feet apart each way. They must have rich soil and as warm as possible, although do very well on any good rich soil. One pkt. will make about 200 plants; one oz., about 1,000 plants.

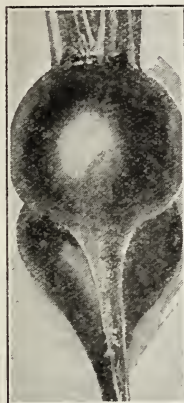

Black Beauty This is the 'earliest variety size. The color is jet black and very attractive. A dwarf kind. All gardeners for home and market who want an early egg plant are coming to grow it. Pkt., 10c; oz., 40c.

New York Imp. Purple A popular old variety. Grows to great size and fine quality. Bear until frost. Pkt., 10c; oz., 40c.

The seeds I bought from you were just fine. The sweet corn was fine and the Canners Supreme pumpkins were the best we ever raised. Had early wonder Cabbage, King of Picklers Cucumbers, Golden Champlain Muskmelons and New York, Wayahead Lettuce, Peppers, Radishes, and Tomatoes. They were all of the best. Mrs. Ella Rose, R. F. D. No 5, Anderson, Ind.

Sweet, Tender Table Beets

Culture For best results, select a deep, rich loam and fertilize with well decomposed manure. Sow 14 to 16 inches apart, cover 1 inch. Thin to 4 to 5 inches apart. Or sow in beds and transplant to garden. Plant as soon as ground is fit in Spring for early. For Autumn, plant May and June; for Winter, about July 1st, according to variety. One pkt. will make about 250 plants. One oz., about 800 plants, 7 lbs. per acre.

Early Wonder

An Improvement, by Selection, of Crosby's Egyptian As a variety to bunch for the market, it has no equal. Color is a rich dark red, small top, single tap root and a fine keeper. It merits a place in every garden, private or for market. Pkt. 8c; oz., 15c; ¼ lb., 35c; lb., \$1.00.

My Early Wonder beets were wonderful. Every seed planted produced a beet of excellent quality. The Swiss Chard was fine also. The Harris Early Pepper was extra—Mrs. Grace S. Hadlock, Elk City, Kansas.

Nuttings Early Gem This new beet will be esteemed on account of its desirable, smooth beautiful appearance and unexcelled quality for the table. The color of the skin and flesh is bright red. Solid and crisp, if planted late, it makes a good Winter beet. Pkt., 8c; oz., 15c; ¼ lb., 35c; lb., \$1.00.

Crosby's Egyptian The first to produce edible roots. Plant for first crop. Roots globe-shaped, skin blood red, flesh red, slightly zoned, small top. The Crosby strain is also a great favorite for forcing. Pkt., 5c; oz., 10c; ¼ lb., 20c; lb., 65c.

Detroit Dark Red One of the best deep red turnip beets, not only for market gardeners but also for home use and canning. Its early maturity, and the splendid shape and color of the root make it popular everywhere. Remains in good condition a long time. Pkt., 5c; oz., 10c; ¼ lb., 25c; lb., 85c; 3 lbs., at 75c.

Crimson Globe Especially on light soil this most handsome beet will be appreciated by all who try it. The skin and flesh are both very dark. Quality the finest. Has a small top. Season late. A good keeper. Pkt., 5c; oz., 10c; ¼ lb., 25c; lb., 85c.

Extra Early Eclipse Round, very early, good size, very tender. Has small top, bright red flesh. The O. K. strain is unexcelled. Pkt., 5c; oz., 10c; ¼ lb., 20c; lb., 65c.

Long Blood Red Late. Good quality. For winter use or for stock, it can be planted as late as July or August. Pkt., 5c; oz., 8c; ¼ lb., 20c; lb., 65c.

Edman's Blood Turnip A fine second early. Roots nearly round. Dark Red. Pkt., 5c; oz., 8c; ¼ lb., 20c; lb., 65c.

Mangels and Sugar Beets

Mammoth Long Red If your soil is fairly deep this is the one to plant. Grows as much as 2 feet long, much above the ground. Makes a great yield, as much as 60 tons to the acre. Pkt., 5c; oz., 8c; ¼ lb., 16c; lb., 50c; 5 lbs., at 40c.

Golden Tankard This variety grows almost entirely on top of the ground. Shape oval, color deep yellow; quality good; productive, early, easily harvested. Pkt., 5c; oz., 8c; ¼ lb., 16c; lb., 50c; 5 lbs., at 40c.

Champion Yellow Globe The best yellow globe mangel. Heavy yielder and has high feeding value. Pkt., 5c; oz., 8c; ¼ lb., 16c; lb., 50c; 5 lbs., at 45c.

Danish Sludstrup Mangel This variety from Denmark was awarded the highest certificate for the best mangel in that country. It excels other mangels in weight of crop that can be produced per acre. Color is distinct, being reddish-yellow. Root large. It is easy to harvest because it grows more than half above the ground and has small tap root. Pkt., 5c; oz., 10c; ¼ lb., 25c; lb., 75c;

Klein Wanzeleben Sugar This is not profitable to grow for stock, as it is small and roots deep in the soil. Only recommended for making sugar. Pkt. 5c; oz., 10c; ¼ lb., 20c; lb., 60c.

Lucullus

This is one of the best and most productive garden plants for greens. Sow seed in spring in rows about 20 in. apart and thin to 12 in. apart. It will grow about 15 in. high. One sowing will keep you supplied all summer, until killed by frost, but the leaves must be cut off so new and tender ones will come. With protection it will stand over winter and be ready to use in the spring. The cooked greens are finer flavored than spinach. The heavy ribs may be boiled and served in melted butter or milk dressing when they are as delicious as asparagus. This vegetable is so easily grown and so good that it will be a surprise if it is not soon found in every garden. Will make lots of green feed for poultry. Pkt., 5c; oz., 10c; ¼ lb., 25c; lb., 85c.

Broccoli

Culture Sow the seed in May. Plant in garden late in June or early in July, in rich, mellow soil. Set 18 inches by 2 feet.

Large White Heads compact and very certain to head. Delicious. Color white. Pkt., 10c; oz., 40c.

Everitt's Selected American Grown Cabbage Seed

Culture Cabbage will succeed on any land that will grow good corn. The richer the soil the bigger will be the crop. Sow seed in hot bed or house for early, in beds for late or main crop. Early kinds set 18 inches apart. The late and large kinds in rows 2 to 3 feet apart and 2 to 3 feet in rows. Do not follow cabbage or turnips with cabbage. For early set the plants out as early as ground will permit. For late set plants about middle of June in latitude of Indianapolis. One Pkt., will make about 300 plants, one oz. about 2,000 plants, one-quarter lb. for one acre.

EARLY AND MIDSEASON

Early Jersey Wakefield The most widely known and popular early variety for home and market, heads pointed and very solid. Pkt., 5c; oz., 15c; ¼ lb., 50c; lb., \$1.75.

Charleston Wakefield Only about one week later than early Jersey Wakefield, but the pointed heads are fully ½ larger. Pkt., 5c; oz., 15c; ¼ lb., 50c; lb., \$1.75.

Early Winnigstadt True Stock. Medium early, short stemmed, pointed heads, solid, very productive. The kind mother raised in her garden and liked. Pkt., 5c; oz., 15c; ¼ lb., 50c; lb., \$1.75.

Early Flat Dutch This desirable cabbage comes just at a time when there is an excellent demand for the flat head varieties and when the market usually pays the highest price. Pkt., 5c; oz., 20c; ¼ lb., 65c; lb., \$2.25.

Copenhagen Market The earliest of the solid round head varieties. Stem short, heads are large, round and solid, of an upright growth with few leaves. A very profitable kind to grow. Pkt., 5c; oz., 20c; ¼ lb., 65c; lb., \$2.25.

All Head Early Another of our Specialties. It is as early as any summer cabbage and makes such large, uniform, handsome, solid heads that it competes with the later fall varieties. Unsurpassed in eating qualities. For Fall and Winter should be sown late. Pkt., 5c; oz., 18c; ¼ lb., 60c; lb., \$2.00.

LATE VARIETIES

Everitt's Premium Flat Dutch A justly popular and esteemed variety; extensively cultivated for market and family use. Heads large, flattened and very firm, has a medium stem and is very hardy. Excellent for slaw and famous for kraut. Practically 99 of 100 plants will head of our Premium Stock. Pkt., 5c; oz., 15c; ¼ lb., 50c; lb., \$1.75.

Surehead Selected Stocks "All Head and sure to head" Heads are large round and flattened, very hard and fine-grained; splendid keeper. A universal favorite for main crop. Pkt., 5c; oz., 18c; ¼ lb., 65c; lb., \$2.00.

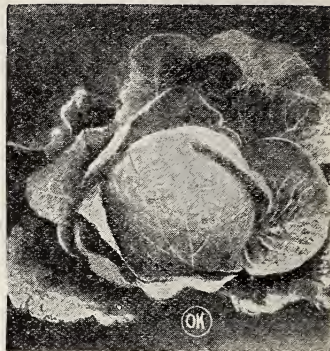

Danish Winter Ballhead For late Winter and Spring, this one is hardly excelled. Thrives very well on thin soil and in adverse seasons. It is well and favorably known on nearly all markets and is sought after in March and April when it comes out of the pits as fresh as when put in. Pkt., 5c; oz., 18c; ¼ lb., 65c; lb., \$2.00.

Golden Acre Cabbage

Cabbage Specialty for 1927. The Earliest Cabbage. Market gardeners and private gardeners who plant this cabbage cannot praise it high enough on account of its earliness and solid heads, weighing 4 to 5 lbs. usually and sometimes 10 lbs. The plants are very short stemmed and the heads rest almost on the ground. It is very vigorous in growth and sure to yield good crops even in bad seasons. It matures before early Jersey Wakefield. Pkt., 10c; 3 for 25c; ¼ oz., 20c; oz., 60c; ¼ lb., \$2.00.

It is very vigorous in growth and sure to yield good crops even in bad seasons. It matures before early Jersey Wakefield. Pkt., 10c; 3 for 25c; ¼ oz., 20c; oz., 60c; ¼ lb., \$2.00.

Large Late Drumhead A favorite winter cabbage; recommended for its fine, large, deep, heavy and solid long-keeping heads on short stems. Can be kept in good condition till late in the spring. This is another of our Specialties. Pkt., 5c; oz., 15c; ¼ lb., 60c; lb., \$1.75.

Cabbage Plants We can supply leading varieties of cabbage plants beginning March 20. Send for our list and prices. FROST-PROOF CABBAGE PLANTS—See page 64

Savoy Cabbage

Perfection Drumhead The best Winter keeper of the Savoy; heads late, round, compact and solid; Pkt., 10c; oz., 25c; ¼ lb., 75c.

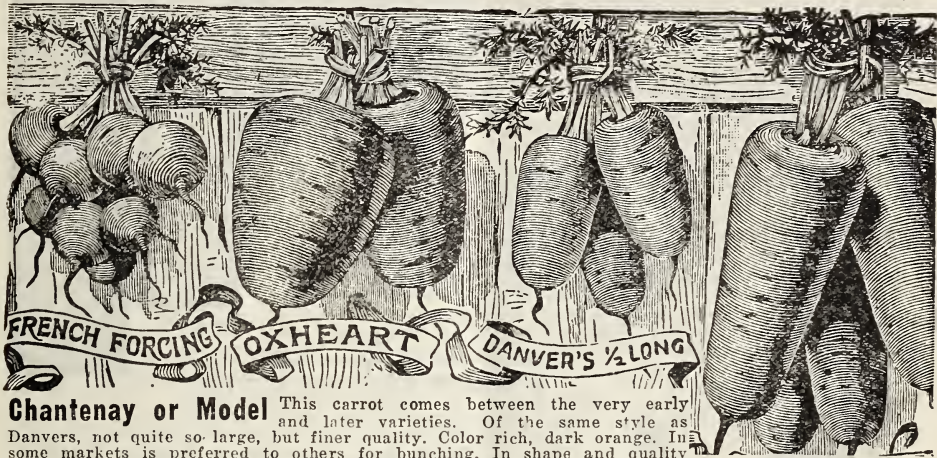

Pe-Tsai or Cabbage Celery

It is a species of Cabbage with a fine delicate flavor, as tender as head lettuce, and in great demand for numerous dishes such as salads and cold slaw, or it may be cooked quickly. The culture, storing for winter, etc., are the same as for late Cabbage. It cannot be grown successfully as a spring crop. For fall crop, seed should be sown in August. Pkt. 6c; ½ oz., 12c; oz., 20c; ¼ lb., 75c.

HEALTH GIVING TABLE CARROTS

Culture This delicious and nutritious vegetable is not appreciated as it should be. Properly cooked, it is a great delicacy. A sandy soil is best, but any good rich soil will produce good crops. Sow in early spring in rows 15 to 18 inches apart and thin to 3 to 4 inches, according to size of variety. Cover the seed half an inch and give good cultivation throughout the season. They may be eaten either when a half inch or so in diameter, or when fully grown. One pkt. will sow about 40 feet; one ounce, 150 feet.

Chantenay or Model This carrot comes between the very early and later varieties. Of the same style as Danvers, not quite so large, but finer quality. Color rich, dark orange. In some markets is preferred to others for bunching. In shape and quality this leaves nothing to be desired in a medium season carrot. Pkt., 5c; oz., 10c; 1/4 lb., 25c; lb., 90c.

CHANTENAY

Selected Danvers Half Long The most largely grown of all for table. Color, rich, dark orange, very smooth, cylindrical, very handsome; easily harvested. It is a heavy yielder and profitable to raise for poultry and other stock. Pkt., 5c; oz., 10c; 1/4 lb., 25c; lb., 90c.

Ox Heart also called GUERANDE. It is very early, short, thick and extra fine quality. It is also very popular as an early bunching kind for market. Deep orange color. Finely adapted to shallow, hard soils. Pkt., 5c; oz., 10c; 1/4 lb., 25c; lb., 90c.

Half Long Nantes Grows 6 to 8 inches long. Skin, rich orange color and smooth. For table very fine and free from woody fiber. Pkt., 5c; oz., 10c; 1/4 lb., 25c; lb., 90c.

Rubicon The best in shape, finest quality carrot. This fine carrot is earlier than the famous Danvers and about the same size. The flesh is deep red orange color of the finest quality. An ideal kind for bunching for market and the home garden. Pkt., 5c; oz., 10c; 1/4 lb., 30c; lb., \$1.00.

Imp. Long Orange This is the old standard late variety. If it is a matter of keeping for late spring, sow Long Orange. It is a very heavy producer. Profitable to grow for chickens and stock. Give deep, light soil. Pkt., 5c; oz., 10c; 1/4 lb., 25c; lb., 90c.

CARROTS FOR STOCK FEEDING

White Belgian and Yellow Belgian

These are stock carrots. They differ only in color of skin. Ten to 15 inches long, very large and productive. Can be pulled by hand. Either kind, pkt., 5c; oz., 10c; 1/4 lb., 20c; lb., 75c.

French Forcing OR EARLY SCARLET— One of the earliest, small round root. For garden as well as under glass. Pkt., 5c; oz., 10c; 1/4 lb., 25c; lb., 90c.

Imp. Short White Shorter and thicker than the Belgian. Productive. Easily harvested. Pkt., 5c; oz., 10c; 1/4 lb., 20c; lb., 75c.

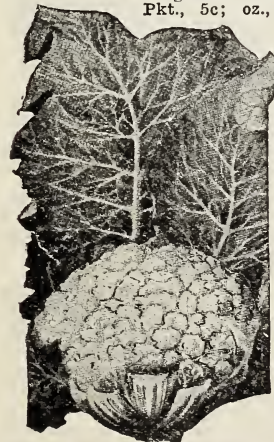

Cauliflower

Culture Treat similar to cabbage. Ground should be rich. Cauliflowers make their best growth in the cool, moist days of Fall. One oz. will produce about 2,000 plants; one packet about 300 plants.

Early Snowball For forcing or growing in open ground, it is the acknowledged leader. It has short outer leaves and can be planted 2 feet apart. Is early, solid, pure white and is sure to head. Pkt., 10c; 1/2 oz., \$1.10; oz., \$2.00.

Dwarf Erfurt Our stock of this variety is almost as early as the Snowball, heads are larger and creamy white. Has many friends and by some is even preferred to the above variety for forcing and outdoor growth. Pkt., 10c; 1/2 oz., \$1.10; oz., \$2.00.

Dry Weather This variety is of vigorous and dwarf growth and produces stone-hard and snow-white heads. As indicated by the name, it is a leading type for dry weather districts, being a sure header when other sorts fail, sometimes on account of the weather. The large leaf development (see illustration) protects the head from the hot sun. Pkt., 10c; 1/2 oz., \$1.10; oz., \$2.00.

Dry Weather Cauliflower

POP CORN

Culture The same as for sweet corn except the same amount of seed will plant about twice the space. Three quarts will plant an acre.

Besides the satisfaction derived from a supply of good pop corn in the house to pop and eat and entertain your friends in the long winter evenings, it can be made a very profitable crop. Let the boys raise an acre of it to sell through the grocery stores, or otherwise for their own spending money. Be sure to obtain a good variety.

White Rice A standard variety saleable on all markets. Very prolific. Pkt., 5c; $\frac{1}{4}$ lb., 10c; lb., 25c; 5 lbs., at 20c.

Queen's Golden The largest eared, largest grained variety. While the grains are yellow it pops perfectly white. Very productive. Pkt., 5c; $\frac{1}{4}$ lb., 10c; lb., 25c; 5 lbs. at 20c.

Japanese Hulless A splendid variety recently introduced. Coming to be much in demand by poppers. Used exclusively in many sections where known. Yields and commands 50 to 100 per cent better price per pound from poppers than the oil varieties. Bears 2 to 5 ears to stalk. Pkt., 5c; $\frac{1}{4}$ lb., 10c; lb., 30c; 5 lbs., at 25c.

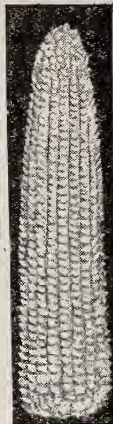

Baby Golden A yellow dwarf variety. Bears several small chubby ears to stalk. Makes a wonderful reputation wherever offered. Easily brings double the price of White Rice. Pkt., 5c; $\frac{1}{4}$ lb., 15c; lb., 50c.

Baby Golden

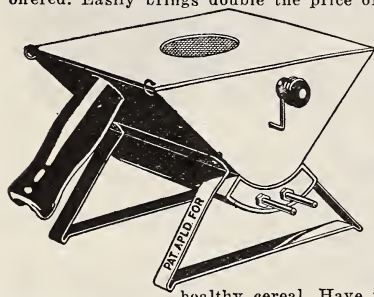

Jap. Hulless

White Rice

Queen's Golden

Healthy cereal. Have it daily like you do toast. A child can operate the popper and delights to do so. By Parcel Post 25c extra.

OUR POP CORN COLLECTION

One pkt. each, worth 20c. Special Price 15c.

Here's Good News for Every Family Having Electricity in the House

WONDER ELECTRIC CORN POPPER

Pops Corn, Roasts Coffee and Peanuts, Toasts Cereals, Etc.

You can now pop corn anywhere there is an electric light fixture, without bending over a hot stove, and this new way we have found, pops corn that was not considered good by the old way. No chance of scorching, no waste. Popcorn is a

\$1.50

Brussel Sprouts

Culture Related to the cabbage family and produces a great number of small beads on the main stem. Plant the seeds in moderately rich soil, in hills 2 feet apart each way. Leave only one plant to a hill. They are a great delicacy. Prepare like cabbage. One packet will give about 500 plants; one ounce about 2,500 plants.

Imp. Dwarf Market The favorite variety in most parts of the country. Grows about 20 inches high with sprouts 2 inches in diameter around the stem. Delicate flavor. A sure cropper. Pkt., 8c; oz., 20c; $\frac{1}{4}$ lb., 65c.

Paris Market Taller than above. Most excellent and a sure cropper. Pkt., 8c; oz., 20c; $\frac{1}{4}$ lb., 65c.

Chicory

Culture The roots, dried and ground, are used as a substitute for coffee, also very palatable when cooked. Sow early in the Spring in rows 18 inches apart and thin to 6 inches between plants. The plants are perennial and spread from the roots.

Large Rooted The dried roots are roasted and mixed with coffee or used as a substitute. Pkt., 5c; oz., 20c; $\frac{1}{4}$ lb., 65c.

Witloof (French Endive.) Delicious new salad plant that should be in every garden. Seed when sown in May or June form long, parsnip-shaped roots, which placed in sand in a warm, dark place, they make growth of lettuce-like leaves which are cut and served as a salad. Pkt., 5c; oz., 20c; $\frac{1}{4}$ lb., 65c.

Collards

Culture Sow as for cabbage in June, to August for succession. When a month old, transplant in rows a foot apart each way and cultivate well. One oz., will make about 2000 plants.

Georgia Bears large bunches of leaves which are used as greens. It also furnishes green forage for stock or poultry. As fast as the leaves are pulled, new ones make their appearance. Pkt., 5c; oz., 10c; $\frac{1}{4}$ lb., 30c.

Corn Salad

Culture Sow in early Spring also August, September, October, treat like lettuce, except it may be planted closer, as it is smaller. It may be carried through the winter in cold frames or by covering with leaves or litter. Used as salad. One oz., to 100 feet of row.

Large Round Leaved The well-known variety. Ready to use in 4 to 5 weeks. Pkt., 5c; oz., 15c; $\frac{1}{4}$ lb., 50c.

Cress

Culture Plant thickly in drills 6 to 8 inches apart. Picked for its piquancy. It makes an appetizing salad and is used for garnishing. One oz. to 100 feet of row. Grows in the cool season best. Sow often as it goes to seed.

Fine Curled (Pepper Grass) Pkt., 5c; oz., 10c; $\frac{1}{4}$ lb., 30c.

Water Cress Must be grown by water—along the banks of ponds or streams. Seed should be started in bed and transplanted to where wanted. Pkt., 10c.

TASTY CELERY

Culture Plant seed in house or hot bed for early plants. For main, late crop, it can be sown early in open ground. When 3 inches high transplant to 4 inches apart. When well rooted transplant again to permanent place, on surface or in trenches. Set plants 8 to 10 inches apart. One pkt. will produce about 800 plants. One ounce about 4,000.

Golden Self-Blanching Our strain of this variety is unexcelled. Plants compact and stocky, with yellowish-green foliage, of a fine nutty flavor. Attains a good size and when blanched is of a handsome golden yellow color. Pkt., 8c; oz., 30c; ¼ lb., \$1.00.

White Plume The earliest and most easily blanched celery in cultivation, hence its popularity. Foliage light green shading to nearly white at tips. Blanching silvery white. An excellent autumn variety. Pkt., 7c; oz., 25c; ¼ lb., 85c.

Winter Queen This grand variety grows stout, thick and heavy, with more heart than most other kinds. It bunches up handsomely, presenting an attractive appearance when offered for sale, while it has that sweet, nutty quality so much desired in celery. Pkt., 8c; oz., 30c; ¼ lb., \$1.00.

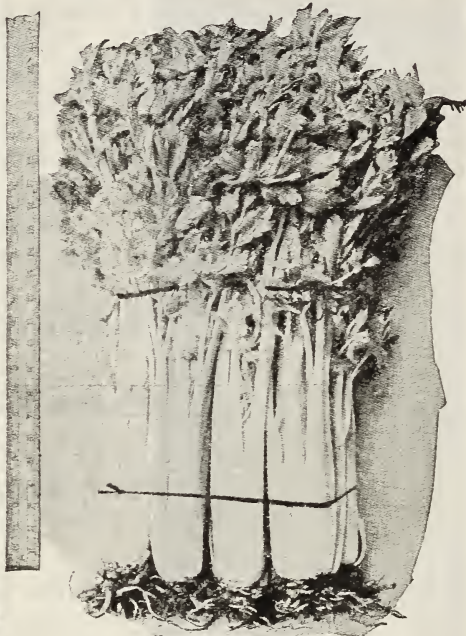

Giant Pascal or WINTER KING. A compact, vigorous, productive variety and one of the best for winter use. Leaves upright, short and dark green. Stalks short, thick and broad; blanches a beautiful yellowish white. Pkt., 5c; oz., 25c; ¼ lb., 80c.

Rose This is the best of the red or pink varieties. Early, hardy, solid, crisp and fine nutty flavor. Pkt., 5c; oz., 25c; ¼ lb., 85c.

Celeriac (Turnip Rooted) Celery. Large, smooth, white. The best variety for soups and salads. Pkt., 5c; oz., 20c.

Easy Blanching Notwithstanding the splendid varieties of celery that were before the gardening public, this new variety is already enjoying an enviable popularity, purely on account of its great merit. Plants of Easy Blanching, set out at the time of Golden Self-Blanching will be ready for market two weeks

Golden Plume or Wonderful

The 12 plants of celery shown in the illustration weighed 61½ lbs. This was not a selected bunch, but was taken from a carload sent to market.

Originated in New Jersey. The first shipment of this variety to New York City brought \$1.25 a bunch. Growing this good variety has made the originator wealthy. Our seed has been saved from the best and earliest plants, every stalk a perfect one.

Description—Matures 2 to 3 weeks before any other kind and blanches in half the time required by others. Broad stalks. Does not grow hollow. Crisp, tender and all of it, including foliage, is good eating. To confirm what we claim for this celery we are pleased to refer to the following: Prof. Homer G. Thompson, Cornell University, Ithaca, N. Y.; Dr. Thomas F. Manas, Delaware Agr. Sta., Newark, Del. or Walter Wheatley, 202 Dock st., Phila., Pa.

Price, pkt., 15c; ½ oz., 30c; oz., 50c.

later than that variety, but will produce about twice as much weight and will sell at higher prices, because of its magnificent appearance and fine qualities. It's habit is dwarf and compact with a wealth of rich, crisp, nutty flavored hearts and stems, every bite of which will be relished. It blanches with the greatest ease, quite a time before it is possible to get other green celeriacs ready for market or the table. It is a celery for Summer, Fall, Winter and Spring. Pkt., 10c; ½ oz., 20c; oz., 35c; ¼ lb., \$1.25.

Grow Your Own Sweet Corn

HOME GROWN
ALWAYS IS
BETTER

Culture If you do not care for the seed that may be lost, plant some sweet corn even before the ground is very warm. If it comes you will have earlier roasting ears. Ordinarily plant when ground is warm. The small early kinds plant in rows 2½ feet apart, 10 inches apart in rows. Large kinds, 3 feet by 12 inches apart. Plant frequently for succession. One pkt. will give 200 stalks; one quart will plant one-fifth acre.

Extra Early Varieties

Ex. Early Adams This is not a sugar corn, but a popular white table corn. Hardier than sugar corn. May be planted earlier. Can be planted close. ¼ lb., 8c; ½ lb., 15c; 1 lb., 28c; 5 lbs., at 25c.

Golden Bantam It is very early, very sweet, very hardy and very productive. It becomes a favorite with all who grow it or eat it. Dwarf, can be planted closely. The prime favorite for small gardens. ¼ lb., 10c; ½ lb., 18c; 1 lb., 30c; 5 lbs. at 28c.

White Cory One of the largest and best of extra early sweet corn. Sweet, tender and white. Usually produces two ears on each stalk. ¼ lb., 10c; ½ lb., 18c; 1 lb., 30c; 5 lbs. at 28c.

Medium Early Varieties

Golden Cream A very fine corn on the order of the Golden Bantam and following that popular sort in maturity. The grain is deep, zigzagged and of a rich golden color. ¼ lb., 10c; ½ lb., 20c; 1 lb., 35c; 5 lbs., at 30c.

Howling Mob A big-eared medium early corn with the sweet flavor of the late varieties; usually two pearly white ears to the stalk; the husk extends well over the tip and protects it from the green worm. ¼ lb., 10c; ½ lb., 18c; 1 lb., 30c; 5 lbs. at 28c.

Bantam Evergreen Sweeter than Golden Bantam, almost as tender as Stowell's Evergreen. The ear is a third larger than the Golden Bantam, but only 10 days later. Color, rich, golden yellow. A true sweet corn. ¼ lb., 10c; ½ lb., 18c; 1 lb., 30c; 5 lbs. at 28c.

Early Evergreen This is similar to Stowell's Evergreen, except that it is almost 2 weeks earlier and the ears are slightly smaller. It is valuable as a second early variety. ¼ lb., 10c; ½ lb., 18c; 1 lb., 30c; 5 lbs., at 28c.

Late Varieties

Stowell's Evergreen The Leading Main Crop Sweet Corn. I know that nearly every person who raises any sweet corn, plants some of this variety. Every person just dotes on the big juicy "roasting" ears when the Stowell's Evergreen comes. Our O. K. Brand is unexcelled. ¼ lb., 10c; ½ lb., 18c; 1 lb., 30c; 5 lbs., at 28c.

Country Gentleman An especially fine sweet corn. Cob is long, slender, white grains in irregular rows. Season with Stowell's Evergreen. ¼ lb., 10c; ½ lb., 18c; 1 lb., 30c; 5 lbs., at 28c.

Black Mexican Where color is not an objection, but luscious sweetness the chief consideration, this black or blue corn in roasting ear stage is unsurpassed. ¼ lb., 10c; ½ lb., 18c; 1 lb., 30c; 5 lbs., at 28c.

Hoosier Roasting Ear Corn This is not true sweet corn, but is of the Early Adam type and fills the same place in the late class of table corns as the Adams does in the early kind's. Pearly white, white cobs, 14 to 16 rows. Sure cropper. ¼ lb., 8c; ½ lb., 15c; 1 lb., 28c; 5 lbs., at 25c.

WHIPPLES Extra Early

White This new sweet corn, remarkable to say, matures as early as the small eared extra early varieties and has ears approaching the size of Stowell's Evergreen. You will find this is correct when you raise it. Try to imagine what this will mean to the market gardener, or even to the family that loves extra early, luscious, deep grained, large evergreen sweet corn. The commercial grower, who is the first to have Whipples

Early White is bound to find it wonderfully profitable. ¼ lb., 15c; ½ lb., 25c; 1 lb., 45c; 5 lbs. at 40c.

Yellow Very similar to the White, above. Nearly everybody has grown the Golden Bantam. Well, Whipples Extra Early Yellow is just as early and the ears are twice as large. For instance, they grow 7 to 9 inches long with 12 to 14 rows of large golden kernels. The stalks often produce two ears. ¼ lb., 15c; ½ lb., 25c; 1 lb., 45c; 5 lbs. at 40c.

The Best Cucumbers

Culture Cucumbers must have rich soil. New ground is the best. Plant when ground is warm, in hills 3 to 4 feet apart. Thin to 3 or 4 plants to the hill. As vines grow cover occasional joints to induce new roots. Do not let them ripen on the vines, or they will stop bearing. One Packet will make about a dozen hills, two pounds per acre.

Can anything be nicer than cool sliced Cucumbers in Hot Summer?

Climbing China Cucumbers

A remarkable long green Cucumber from China. The Cucumbers grow about 20 in. long and are slim, 2 to 3 in. Color deep green. The flesh is solid, crisp and fine flavor, free from any bitter taste. Vines grow strong and are very productive. They will vine on the ground or may be trained on a trellis or other support. The cucumbers are early, bearing for use almost as early as shorter kinds. We recommend this cucumber as a variety of much merit for the table as well as one of the most novel

vegetables. Pkt., 10c; 6 for 50c; 15 for \$1.00; oz., 40c; ¼ lb., \$1.25.

Early Cluster (Plant this for first crop)—Fruit short, chunky, small and borne in clusters in the center of the plant; light green in color; prolific. Pkt., 5c; oz., 10c; ¼ lb., 25c; lb., 85c.

Early Frame Like Boston Pickling variety below. (For pickles.) This is a famous pickle cucumber producing cukes of medium size and of fine quality. Medium early. Pkt., 5c; oz., 10c; ¼ lb., 25c; lb., 80c.

Green Prolific Or Boston Pickling (For pickles)—One of the most prolific varieties. Also splendid kind for slicing. Pkt., 5c; oz., 10c; ¼ lb., 25c; lb., 85c.

Chicago Pickling (For Pickling.) One of the best for pickles. The right size, shape and color. A heavy yielder. Pkt., 5c; oz., 10c; ¼ lb., 25c; lb., 85c.

Gherkin The fruit is two to three inches long, oval and closely covered with spines. Used exclusively for pickling. Pkt., 5c; oz., 20c.

Everbearing (Pickling and Slicing.) For a continuity of crop this variety is hardly equalled. It produces pickling and slicing cucumbers of medium size until frost. Fruits of all ages and blossoms may be seen on the same vines. Pkt., 5c; oz., 10c; ¼ lb., 25c; lb., 85c.

Imp. Long Green (Pickling and Slicing)—This is the old long Cucumber that has always been the choice of thousands of gardens. Our strain gets better each year. It will grow a foot long, slender, almost seedless. Full for pickles, when small, and for sweet pickle when full grown. Pkt., 5c; oz., 10c; ¼ lb., 25c; lb., 85c.

Giant Pera (Forcing and Slicing.) One of the longest of the Long Green family; fruit often 15 inches long, slender and smooth, crisp and solid. Color dark green. Novel, distinct and desirable. Pkt., 10c; oz., 20c.

White Wonder Fruit produced in clusters, short, blocky and rounded at both ends; color ivory-white from time of forming until maturity. Pkt., 5c; oz., 15c; ¼ lb., 50c.

Early Fortune (For Forcing.) The finest shipping type of White Spine. Early, very productive and disease-resistant; 7 to 9 inches long, slightly tapering. Color rich, dark green. Pkt., 5c; oz., 15c; ¼ lb., 50c; lb., \$1.50.

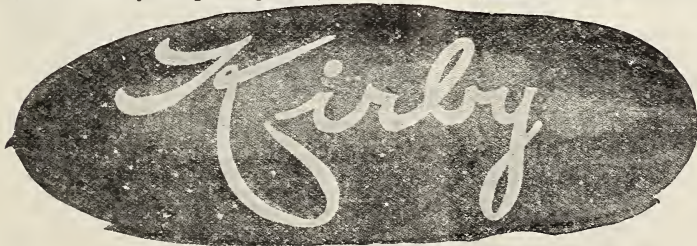

King of Picklers Cucumbers Has yielded over 250 bu. per acre. This cucumber is fine in form, solid and thick. It is very productive, has yielded over 250 bushels per acre. It is as fine as can be for pickling and is also fine for slicing. It is desirable both for home and market. All gardens will be better by having the King of Picklers Cucumbers. Pkt., 8c; oz., 20c; ¼ lb., 50c; lb., \$1.50.

Everitt's Selected E. White Spine

(For Slicing.) The old favorite improved. If you want a good sized, plump cucumber, such as is used for slicing, get the White Spine. They are also good for pickling when small. It is early, a splendid bearer, and fine crisp quality. Very productive. Forces well. Pkt., 5c; oz., 10c; ¼ lb., 30c; lb., \$1.00.

Kirby It stays green. Kirby's is the earliest of the White Spine type; fruit 7 to 8 inches long, cylindrical in shape. Color is a fine dark green the full length which attracts attention everywhere. Always commands the highest market price. Market gardeners and truckers should not fail to plant it. Pkt., 8c; oz., 20c; ¼ lb., 50c; 1 lb., \$1.50.

Gourds Ornamental, Useful and Edible

Culture Start the seed early and transplant, or in open when ground is warm. The following varieties will be found very useful about every house. All are climbers.

Nest Egg They closely resemble the eggs of hens and are very useful as nest eggs, never breaking or freezing. The plant grows very rapidly, and is useful in covering unsightly places, being quite ornamental. Pkt., 5c; oz., 15c.

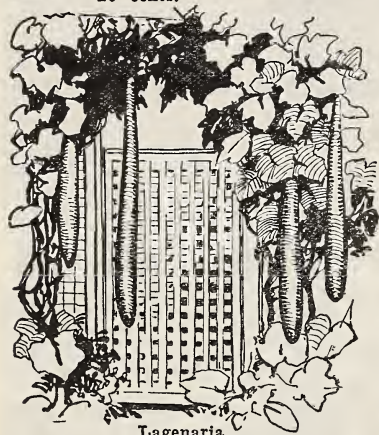

Dipper This variety makes a splendid tool for dipping hot liquids. The handles do not heat through. Vines attractive. Pkt., 5c; oz., 15c.

Dishcloth Makes an admirable vegetable dishcloth. The peculiar lining is the part used, which is sponge-like porous, very tough and elastic. The vines are ornamental. Pkt., 10c; oz., 25c.

Sugar Trough Grows to great size. Cut off the top and you will have a receptacle that will hold from 1 to 10 gallons, and will be useful for many purposes. Pkt., 5c; oz., 15c.

Lagenaria Called by Some 'New Guinea Butter Bean.' This is really not a bean, but is a tasty, edible gourd. While green and before it begins to harden, cook as butter beans, or fry as egg plant, or boil like a squash. (Directions for cooking on each packet.) It also has much merit in the size and attractiveness of the vine. The leaves and blooms are larger and handsomer than Moon Vines which, in connection with the curious fruits, which easily grow 25 inches long and frequently 3 ft., makes the talk of a whole neighborhood. Succeeds everywhere. The vine will grow about 50 feet in one season. Pkt., 10c; 6 for 50c; 15 for \$1.00; oz., 50c.

Mixed All varieties mixed. One packet for 10c; one ounce for 20 cents.

Kohl Rabi

Early White Vienna

Forms turnip like bulbs on the stem above ground. use while young and tender when they are sweet and nutritious. Pkt., 5c; oz., 25c.

Endive

Culture One of the best fall and winter salads. Sow as soon as ground can be worked in the spring for early crop. For the main crop, sow in August, in drill 15 inches apart, 6 to 8 inches in row. To blanch, tie the leaves, when dry, in matting or any soft material, or invert something over the plants, or even tie them together at top. One Pkt. to 20 feet of drill, one oz. to 100 feet.

Moss Curled Very ornamental as well as good. Pkt., 5c; oz., 10c.

Green Curled Winter A standard variety. Hardy and productive. Pkt., 5c; oz., 10c; ¼ lb., 30c.

Kale, or Borecole

Culture Used as Greens in the fall and winter and is most welcome when other vegetables are gone. With a little protection the plant will winter over out doors. Sow seed like cabbage and transplant. Sow July and August.

One packet will plant about 40 feet of row; one ounce about 200 feet.

Dwarf or Curled Scotch This is the variety usually sown in the fall for spring use. The young leaves are very tender and delicate in flavor. Pkt., 5c; oz., 10c; ¼ lb., 25c; lb., 85c.

Siberian A vigorous grower of spreading habit. The leaves are large, rather plain in the center, but cut and frilled at the edges. Very hardy. Pkt., 5c; oz., 10c; ¼ lb., 25c; lb., 85c.

Leek

Culture Sow early in April in drills one foot apart, one inch deep. When plants are 6 inches high transplant 12x16 inches. Set deep in the ground. The seed may also be sown in August or September and transplant in the Spring. Leeks are generally considered superior to onions for flavoring soups, etc. One pkt. will make about 200 plants; One oz., about 800 plants.

American Flag The standard variety. The gardener's favorite. Pkt., 5c; oz., 10c; ¼ lb., 30c.

NEST EGG DISH CLOTH DIPPER

Crisp, Tender, Leaf and Head Lettuce

Culture

Let success. but if heads

Lettuce likes a moderately moist, fertile soil. Seed may be sown as early as the ground is fit. Sow every two weeks for succession. The heading varieties should be thinned to 8 inches apart, but if heads are not wanted leave the plants 2 inches apart to grow in a mass. For winter use sow under glass from November to February. Keep in moderate temperature, giving as much light and air as possible. From time of seeding to maturity is 40 or 50 days. One pkt. will produce about 600 plants. One oz. about 3,000 plants.

Simpson, Black Seeded (Loose leaf)—Black seed, crumpled leaves, recommended very highly for an early delicious lettuce. It does not form a head but a bunch of delicate green, almost white, crisp, tender and sweet leaves. It does not run to seed quickly. It is also a favorite for forcing. Largely grown for market. It is a kind that can be cut and it will come again. Pkt., 5c; oz., 15c; ¼ lb., 50c; lb., \$1.75.

Grand Rapids Looseleaf Black seed. This variety looks like Simpson, but is much better for forcing. It is in fact the chief forcing variety of loose leaf lettuce. Its upright habit permits of close planting. Does very well in the garden, too. Crisp, delicious flavor. Handsome. A favorite market kind. Pkt., 5c; oz., 15c; ¼ lb., 50c; lb., \$1.75.

Wonderful New York

Heads Sometimes Measure 15 Inches Across

This new variety grows immense heads. It is distinguished from others by the rich, golden-yellowish color on the inside of the heart. The outside of the leaves is a dark green, crisp, tender and delicious. It is one of the best to resist heat and dry weather. We recommend it highly for mid-summer. Pkt., 10c; oz., 25c; ¼ lb., 75c; lb., \$2.50.

May King Makes large solid heads 6 to 7 inches in diameter with broad, light green outer leaves. Grown outdoors, it is extremely early. The center blanches rich yellow. Pkt., 5c; oz., 15c; ¼ lb., 50c; lb., \$1.75.

California Cream Butter (Head) Black seed. One of the best of all the class of cabbage-heading lettuce for Fall and Winter. It forms large, nearly round, solid heads which are green, flecked with brown on outside. Most beautiful. It is slow to run to seed. Medium early. Fine for the home gardens and market. Pkt., 5c; oz., 15c; ¼ lb., 50c; lb., \$1.75.

Imp. Hanson (Head) White seed. We have had the Hanson lettuce as long as the writer remembers and there is no likelihood of its popularity waning for some years. It is one of the best mid-summer head sorts. Light green outside, white within. Pkt., 5c; oz., 15c; ¼ lb., 50c; lb., \$1.75.

Brown Dutch (Head) A late heading medium sized variety; leaves broad, very thick and smooth, with plain edges. Color dark-green, overlaid bronze red. Heads firm and buttery-yellow inside. Pkt., 5c; oz., 15c; ¼ lb., 50c; lb., \$1.75.

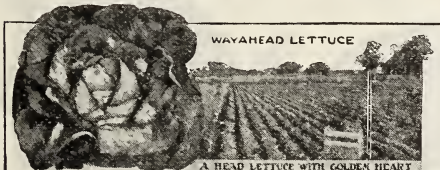

Iceberg (Head)—An extremely hard, heading variety. Has fine appearance in leaf. There is hardly another lettuce that gives better satisfaction both for home and market. Pkt., 5c; oz., 15c; ¼ lb., 50c; lb., \$1.75.

All Seasons (Head)—Black seed. A very large medium late heading sort. The heads are a light green tint, well folded, with inner leaves blanched to a rich, buttery yellow, which is so much desired in serving various salads with mayonnaise dressing. Quality splendid. Pkt., 5c; oz., 15c; ¼ lb., 50c; lb., \$1.75.

Trionion Self Closing—An extremely large strictly self-blanching Cos Lettuce. A loaf-shaped head. Color dark green, quality excellent. Pkt., 5c; oz., 15c; ¼ lb., 50c.

Big Boston (Head) This grand lettuce, is more extensively grown than any other kind in many sections, this is both for commercial sale and the home table. It is suited to grow in the open ground and in greenhouses for Winter or cold frames for early Spring. It produces under ordinary conditions. Fine, large, creamy-white heads, of completely blanched leaves crisp, tender and sweet. Stands a long time. Pkt., 5c; oz., 15c; ¼ lb., 50c; lb., \$1.75.

WAYAHEAD LETTUCE

The Earliest Hard-Heading Variety

The name of this lettuce was suggested by the fact that it comes way ahead of any other hard-heading variety. Every gardener will appreciate the combination of earliness, firm head, handsome appearance, and splendid, crisp, table quality. It gives a lettuce of finest quality throughout the season. Pkt., 8c; oz., 20c; ¼ lb., 65c; lb., \$2.00

OUR LETTUCE COLLECTION

This collection of Lettuce will provide early, mid-season and late lettuces of both leaf and head varieties and assures the finest qualities.

Luscious Muskmelons

Culture Select a light, warm soil; a poor light soil is better than a rich, cold, heavy one. Fertilize well. Lay off hills six feet apart. Plant a dozen seeds to the hill, but thin to two plants. Pinch the ends off of vines if they encroach on their neighbors, and this will also induce bearing. One Pkt. will plant about 15 hills; an ounce 50 hills; 2 lbs., an acre.

Benders Surprise (Orange flesh) Mr. Bender, the originator of this melon gained a wide reputation for his high quality melons amongst a number of Eastern hotels while he kept the seed away from the trade. Other growers can now serve their customers with the same. The size of the melon is large weighing about 10 lbs., but have grown to weigh 16 lbs. Ripens medium early. Color light green and coarsely netted. The flesh is deep orange, sweet and luscious. A valuable feature is that they will keep quite a while after gathering. Delicious for home and market gardens. Pkt. 10c; oz., 20c; ¼ lb., 50c; lb., \$1.50.

Hearts of Gold (Orange flesh) The melons are almost perfectly round, thickly netted and very firm so they stand shipping well. The flesh is deep orange color, very sweet and of delicious flavor. The melons are about the size of Rocky Ford. Ripens near to the rind with very small seed cavity, very productive. An excellent melon for shipping as it "holds up" well after picking. Pkt., 5c; oz., 15c; ¼ lb., 40c; lb., \$1.40.

Rocky Ford (Greenflesh) It is one of the best and has been a most extensively grown and marketed variety of muskmelons. There are several strains of this fine melon, the result of different growers breeding to different types. Our O. K. Strain of Rocky Ford gives all that can be desired. Pkt., 5c; oz., 8c; ¼ lb., 25c; lb., 75c.

Osage or MILLER'S CREAM—(Orange Salmon). Skin is dark green, slightly netted but nearly smooth, medium size, egg shaped. The luscious, salmon flesh is what made it famous. The flesh is heavy, juicy, sweet, luscious and so thick that there is scarcely any cavity for the seeds. Pkt., 5c; oz., 8c; ¼ lb., 25c; lb., 75c.

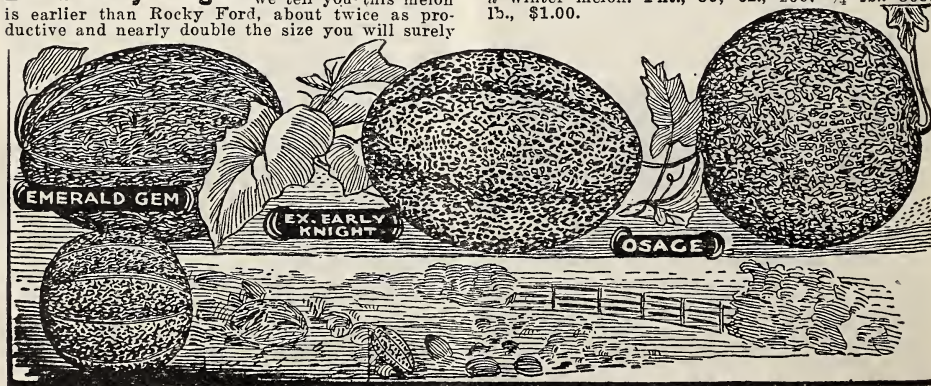

Extra Early Knight (Greenflesh) When it is earlier than Rocky Ford, about twice as productive and nearly double the size you will surely

be interested in it. The melons are nearly round, skin netted, of light golden hue when ripe. The flesh is light green, blending to light pink at the center. The best early muskmelon for the North. A good shipper and just splendid for home use. Pkt., 5c; oz., 10c; ¼ lb., 30c; lb., \$1.00.

Giant Montreal Market (Green flesh) If you want to raise the very largest muskmelon that grows, that will win the blue ribbon at your fair, and at the same time one that is good to eat, pick this one. On good ground they will average around 15 pounds each, but have often reached 20 pounds and one was reported as weighing 44 lbs. They are nearly round, heavily netted, deeply ribbed, thick flesh, season late. When they come to market they bring high prices. Pkt., 5c; oz., 10c; ¼ lb., 30c; lb., \$1.00.

Tip Top Greatest Late Market Melon—O. K. Strain is Unexcelled—(Salmon Flesh) This I may say, is the melon for the millions to grow and sell and eat. It is a sure cropper and practically every melon is a good one, sweet, juicy, melting, if you plant a good strain of seed. Grows large, round, ribbed. Appearance is attractive. So popular is it on some markets that other kinds will not sell when it comes. The season is fairly late, but when it comes its size, appearance and good quality commands the market. Pkt. 5c; oz., 8c; ¼ lb., 25c; lb., 75c.

Honey Dew Melon Originated by crossing Africa with the Rocky Ford. The average size of the melon is 8 to 10 inches in diameter, solid and juicy. It has a delicious flavor all its own. One person describing it said: "It looks like a large grape fruit, tastes like sweet nectar, and has the mingling of the flavors of pineapple, banana and vanilla." A splendid shipper. Will keep many weeks after other melons are gone. Might be called a winter melon. Pkt., 5c; oz., 10c; ¼ lb., 30c; lb., \$1.00.

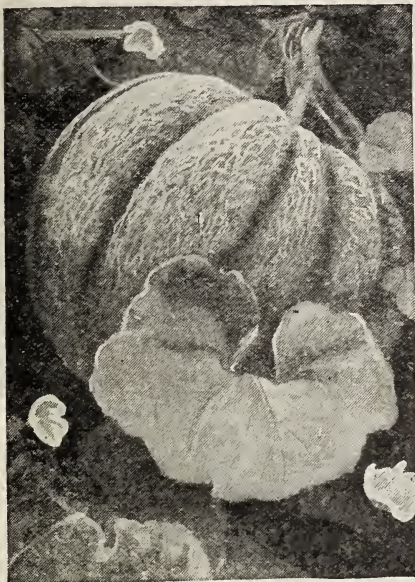

Hales Best Type

Rocky Ford. This is a section of the salmon tinted Rocky Ford. It carries the same shape and appearance and meat and flavor of that variety. To give a good idea of the esteem in which this melon is held, where known, we need only relate that in a district which normally plants about 20,000 acres of Muskmelons, planted 300 acres of Hales in 1924 5,487 acres in 1925 and 16,533 acres in 1926. Or, in three years time this melon became the most widely grown of all melons. And what was true in that district has been duplicated in others and will be in still others as this melon becomes known, if the seed can be obtained. EARLINESS is the great secret of its popularity. It gets into the markets earlier and actually makes millions for its large growers. Remember, it has the same appearance, good shipping qualities and fine flavor of the best Rocky Ford and is 10 per cent larger and two weeks earlier. Pkt., 10c; oz., 20c; ¼ lb., 65c; lb., \$2.25; 5 lbs., or more at \$2.00.

Winter Muskmelon A melon from Russia. It can be stored in September and used up to Christmas, therefore its name. Medium size. Besides being a great novelty it is of excellent quality and flavor. Pkt. 10c; oz., 20c; ¼ lb., 50c.

Banana Muskmelon Novel appearance. Good quality. Succeeds on ground where others will not. A curiosity and prized by many. Shape and appearance somewhat like an overgrown banana. It attains a length of from 18 inches to 2 feet, and a diameter of about 2 inches at the stem end to 4 to 6 inches at the largest part. The flesh is salmon, firm, juicy and sweet. The flavor is liked by many people better than the regular muskmelon. It is not merely a curiosity, but many growers find they bring higher prices on the market than the regular muskmelons. Also this is a melon that succeeds where others cannot be grown. Price—Pkt., 5c; oz., 10c; ¼ lb., 30c; lb., \$1.00.

Imp. Early Hackensack

Improved Early Hackensack The result of selection and breeding from the famous old Hackensack. The new type is not so large as the old one, growing to the convenient size of 5 to 6 lbs., shape round, slightly flattened, deeply and broadly ribbed with bold netting. The melon is very handsome and rich looking. Flesh green, thick and sweet, delightful flavor. Just the flavor you like in green melons. Pkt. 10c; oz., 20c; ¼ lb., 60c; lb., \$2.00.

Burrell Gem This is the yellow-flesh Rocky Ford. It has the same shape and about the same appearance, but the flesh is salmon colored. It is a great yielder and of good qualities. One of the very best shippers. Pkt., 5c; oz., 8c; ¼ lb., 25c; lb., 75c.

Emerald Gem (Salmon color) About the size of Rocky Ford, but with smooth skin, Shape oblong. The flesh is very thick, good almost to the rind with a very small seed cavity. A poor melon of this kind is a rarity. It is delicious. Not suited for shipping. Pkt., 5c; oz., 8c; ¼ lb., 25c; lb., 75c.

Early Sugar Nutmeg (Greenflesh) — Medium size, deeply ribbed, shape of nutmeg. Skin dark green, covered with a shallow netting. Flesh thick, sweet, light green color. Very early. Pkt., 5c; oz., 10c; ¼ lb., 30c; lb., \$1.00.

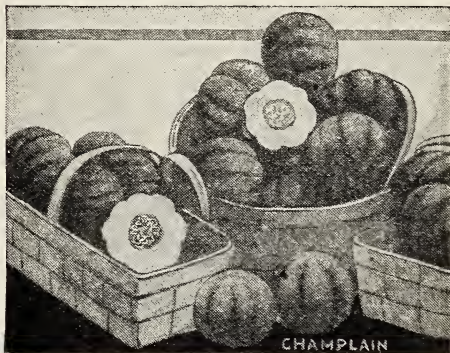

Golden Champlain The Earliest Melon. All growers for market know that the first melons bring about double the price. This is the only very early melon that has the high quality of the best late ones. They are not large, weighing 2 to 3 lbs. Nearly round and slightly ribbed. The flesh is very deep, tender, rich, golden color. The flavor is good, clear out to the thin rind. They can be picked "ripe" and shipped to market 500 miles away and arrive in good condition. The Golden Champlain is also extraordinarily productive. Probably this is because the vines are sturdy. The strong vines are frequently as thick as a man's thumb. With this melon it is the rule to sell around \$200 worth of melons per acre before competitors have any to market. Price Pkt., 10c; oz., 20c; ¼ lb., 65c; per lb., \$2.25.

OUR MUSKMELON COLLECTION

Our friends attention is drawn to the fact that this collection embraces the newer and more expensive varieties which we are desirous of them getting acquainted with.

WATER MELONS

HALBERT HONEY

ICE CREAM

EVERITT'S E & S

TOM WATSON

Culture A light sandy soil, well exposed to the sunlight is the best situation for growing watermelons. Prepare the ground with deep working, but later give shallow cultivation. Frequent hoeings are essential. Plant in hills 8 to 10 feet each way, with a very generous shovelful of well rotted manure mixed with the soil in each hill. In using commercial fertilizer, it should contain a large percentage of ammonia and potash. Put 8 to 10 seeds in a hill and finally when danger from insects is past, thin to 3 strong plants. It requires an ounce to plant 20 to 30 hills, one pkt. about 5 hills. 4 to 5 lbs. per acre.

Imp. Halbert Honey Shape oblong, well filled to the ends, skin very dark green showing a faint longitudinal tracing, or indentation in the rind; medium, early and fairly large; flesh crimson and very sweet. Pkt., 5c; oz., 8c; ¼ lb., 25c; 1 lb., 80c; 5 lbs., 75c.

Peerless or Ice Cream Very early, of uniform size, and one of the best for growing in the North, a short melon oblong in form; rind thin, light green, mottled and finely veined with a darker shade; flesh bright scarlet and very sweet; seeds white. Pkt. 5c; oz., 8c; ¼ lb., 25c; 1 lb., 80c.

Everitt's Earliest and Sweetest The best home watermelon. Very early and deliciously sweet. It fairly melts in your mouth. This melon is the earliest and sweetest of all. It has been selected for many years for these qualities. The size averages from 10 to 12 pounds. The flesh is scarlet, of extra sweetness. It is also one of the most prolific known. Is adapted to grow on ground that will not produce other melons, and northern latitudes where larger and later kinds will not succeed. Wherever you live plant some of them. Pkt., 8c; oz., 15c; ¼ lb., 40c; 1 lb., \$1.25.

Indiana Sweetheart There are two general classes of watermelons—round and long. Some prefer a round melon, others the long, but this preference is not so positive, except quality goes with the choice. Of round melons the Sweetheart is the choice of many. It grows large, is early, heavy, a long keeper, fine quality and good shipper. Skin mottled green. It is very productive. Sweethearts usually bring a good price when others will be neglected. This is because of their handsome appearance and fine qualities. This melon remains in good condition longer than most others, even improving in its quality for a time. Pkt., 5c; oz., 10c; ¼ lb., 30c; 1 lb., \$1.00.

Tom Watson (Long) The most Popular Market Melon—An extra-long melon of attractive appearance, uniform in shape and quality. The average melon will weigh 35 to 40 pounds and measure about 24 inches long and about 10 inches in diameter. It is very prolific, producing in greatest abundance the large, delicious fruits. It has a tough rind and ships to long distances. Wonderfully productive. Pkt. 5c; oz., 8c; ¼ lb., 25c; 1 lb., 80c; 5 lbs., or more at 75c.

Red Cut Tom Watson This special grade of seed was all saved from extra true specimens and every melon had to cut perfectly red to the center. Such selection has been kept up by our grower for years. The very particular grower will be sure to select this seed. Pkt., 10c; oz., 25c; ¼ lb., 75c; 1 lb., \$2.00; 5 lbs., at \$1.75.

Gypsy or Rattlesnake Large and oblong; rind very tough and in color a distinctive pale, light green, much mottled and striped very dark green; seeds white. An attractive and fine shipping melon. An old favorite. Pkt., 5c; oz., 8c; ¼ lb., 25c; 1 lb., 80c; 5 lbs., at 75c.

Imp. Kleckley Sweet or Monte Cristo (Long)—I may sum the good qualities of this melon up in these words—unsurpassed in productiveness for nearby market selling and for eating quality. Its popularity is increasing each season. It is early, but grows very large. Skin is rich, dark green shaded with faint lines of lighter green. Very handsome. It is not a shipping melon. Pkt. 5c; oz., 10c; ¼ lb., 25c; 1 lb., 80c; 5 lbs., at 75c.

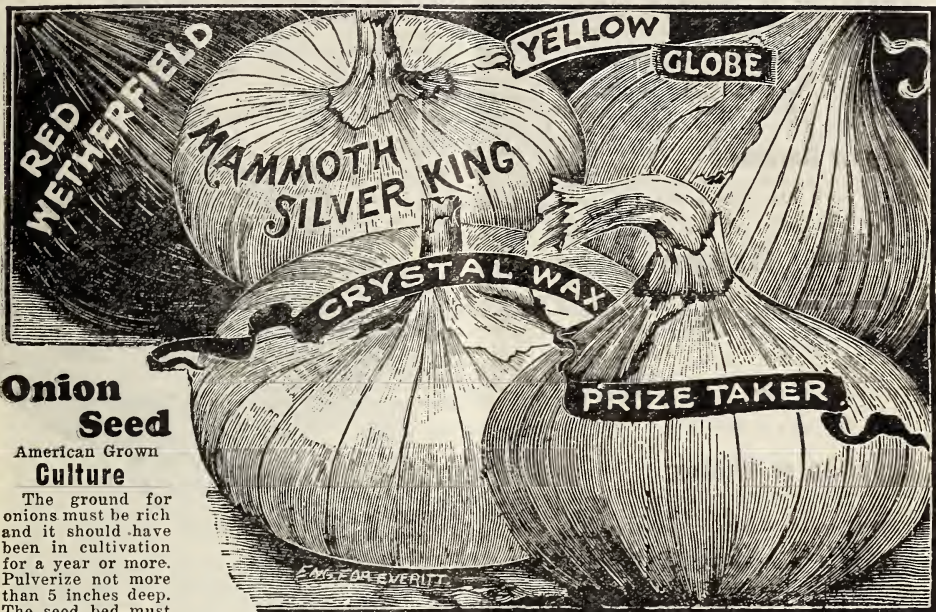

Imp. Golden Honey Dark green, thin rind, golden yellow flesh. The great lump of pulp is of a luscious sweetness rarely met these days in a watermelon. Weight 12 to 20 pounds. Pkt., 10c; oz., 20c; ¼ lb., 35c; 1 lb., \$1.25.

Colorado Preserving Citron
Grown for making preserves. This is the best variety. Pkt., 5c; oz., 10c; ¼ lb., 25c; 1 lb., 85c.

TOM WATSON

SWEETHEART

Onion Seed
American Grown Culture

The ground for onions must be rich and it should have been in cultivation for a year or more. Pulverize not more than 5 inches deep. The seed bed must be fine. For large onions in fall, drill about 4 lbs. per acre in rows 14 to 15 inches apart. Weeds must be kept out. Pull when tops begin to dry down. For seed, sow 40 to 60 lbs. per acre in drills 12 inches apart. We offer onion plants on page 54. The advantage of setting plants are distinct and the plan will become more general. In this way earlier and larger onions can be grown.

THE THREE SOUTHPORTS

Southport Yellow Globe Globe shaped. All that can be asked for in table and market and keeping qualities it possesses. Extensively grown for best market demand and home gardens. Pkt., 5c; oz., 25c; ¼ lb., 75c; lb., \$2.50.

Southport White Globe Identical in appearance with the Southport Yellow Globe, except it is as white as a clean snowball. Pkt., 8c; oz., 30c; ¼ lb., \$1.00 lb., \$2.75.

Southport Red Globe And this also is identical in appearance to the Yellow and White, except its color, which is Red. The three colors of Southport Globe Onions are reliable to grow and market making heavy yields and getting the top prices. Pkt., 5c; oz., 25c; ¼ lb., 75c; lb., \$2.50.

Yellow Globe Danvers Our O K. strain is always a heavy yielder. Fine symmetrical shape, large size. Quality just what an onion should be. They grow rapidly and attain full size from the seed the first year, and early in the season. They keep well in Winter. A favorite for home garden and field cultivation. Pkt., 5c; oz., 20c; ¼ lb., 65c; lb., \$2.25.

Large Red Wethersfield Noted for productiveness and keeping qualities This is the largest of the red onions. Grows to full size from seed the first year. The bulbs are large, flat in shape, purplish, red skin. Flesh a purplish white color, not too strong flavored to meet the popular taste. One of the best keepers. It succeeds almost everywhere. Very productive. The O. K. Strain of seed is unexcelled. Pkt., 5c; oz., 20c; ¼ lb., 65c; lb., \$2.25.

Yellow Strasburg or Dutch Little darker than the Danvers, more flattened and a little later. This is sown largely to raise yellow sets because of its splendid keeping qualities. Pkt., 5c; oz., 20c; ¼ lb., 65c; lb., \$2.25.

White Portugal or **SILVER SKIN**—Very early, grows to large size, flat, mild flavor. Largely grown for white sets, also is extensively used for bunching and pickles. Pkt., 5c; oz., 25c; ¼ lb., 85c; lb., \$3.00.

Prizetaker Magnificent onions can be grown from black seed planted in the Spring. It grows quickly, attaining a large size. It is beautiful and the table quality, delicate and mild. Also any that can be spared for sale always brings an extra price. No sets are required of Prizetakers, as they grow large from the seed. This is one of the best to raise plants and transplant to gardens or field, when they may be made to weigh 3 to 4 lbs. under favorable conditions. Pkt., 8c; oz., 25c; ¼ lb., 85c; lb., \$3.00.

Crystal Wax This is of the Bermuda Onion class and is the most attractive onion of all. It is beautiful, pure waxy white, which causes it to sell on "sight" in any market and at high prices. Tender and deliciously sweet. Eat it from hand like an apple, or just make a sandwich with it and it will tickle your palate. Pkt. 10c; oz., 45c; ¼ lb., \$1.50; lb., \$5.00.

White Pickling
A fine white onion and the best for pickling. The bulbs quickly grow to a nice, small, uniform size, beautiful white color. Mild flavor. Pkt., 5c; oz., 20c; ¼ lb., 75c.

Ebenezer, or Japanese Onion An exceedingly fine onion introduced from Japan that is of mild and pleasant flavor and that will keep all winter. The onions are flattened of a light yellow color. They can be raised successfully from seed or sets. On account of its high quality it commands high prices wherever offered. Ripens early and all at the same time. Has very small neck. Suited to raise large onions from the seed or sets. The sets from this variety keep late in the Spring which is an advantage over all others. Pkt., 10c; oz., 40c; $\frac{1}{4}$ lb., \$1.25; lb., \$4.00.

Yellow Bermuda Another Bermuda Onion. The description of the Crystal Wax will apply to this except the color, which is light straw color. Both these Bermuda Onions are of quick growth and large sizes. They are also suitable for pulling green. Pkt., 10c; oz., 45c; $\frac{1}{4}$ lb., \$1.50; lb., \$5.00.

Onion Sets

By planting sets you can have onions to eat, or market in one-fourth the time required from seed. Set onions come off so early that a second crop can be grown on the ground.

WHITE, lb., 30c; 5 lbs., at 25c.

YELLOW, lb., 30c; 5 lbs. at 25c.

RED, lb., 30c; 5 lbs., at 25c.

EBENEZER SETS, Lb., 35c; 5 lbs., at 30c. **ONION PLANTS** see page 64.

Ask for prices on larger quantities.

Egyptian or Winter Plant as early as possible, even in the winter. They produce green onions for the table and top sets to plant. Also the old planting continues year after year. Lb., 25c; 3 lbs., 50c, delivered.

Mustard

Culture Sow in drills 1 foot apart. Cover lightly. For a succession sow each two weeks. Water copiously if weather is dry. Cut when not over 3 inches high. Used for salads.

Southern Giant Curled The best kind. Leaves a foot twice the size of the old kind. Pkt. 5c; oz., 8c; $\frac{1}{4}$ lb., 20c; lb., 75c.

Okra

Its green seed pods are used in soups or stewed like asparagus. Sow seed in drills 2 ft apart. Thin to stand 9 inches apart. Draw soil to stems as they grow.

White Velvet A good kind. Pkt., 5c; oz., 15c; $\frac{1}{4}$ lb., 50c.

Perkins Mammoth (Long Green) Very early and productive. Plant grows 3 feet high. Pods green, very long and slender. A fine variety. Pkt., 10c; oz., 20c; $\frac{1}{4}$ lb., 60c.

Parsley

Culture Have the soil rich. Drill one foot apart cover one-eighth inch. Seed germinates very slowly so have patience. To soak the seed a few hours in warm water will hasten its germination. Thin to four inches when two inches high. A small plat sown broadcast, thinly, will do very well for a family supply. Prized for garnishing and for flavoring soups. One pkt. will produce many plants.

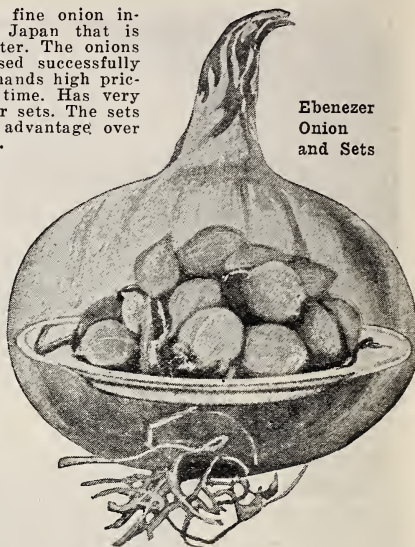

Moss Curled An elegant decorative variety. Also has high flavoring properties. Pkt., 5c; oz., 8c; $\frac{1}{4}$ lb., 25c.

Plain or Single This has plain leaves instead of curled. Pkt., 5c; oz., 8c; $\frac{1}{4}$ lb., 25c.

Hamburg Turnip Rooted This forms a small parsnip. It is this root that is used for flavoring and is highly esteemed for soups, stews, etc. Pkt., 5c; oz., 10c; $\frac{1}{4}$ lb., 35c.

Parsnips

Culture Give rich soil, and to the long kinds deep soil. Plant very early in rows 18 inches apart. Cover seed one-half inch. Thin to 3

Ebenezer
Onion
and Sets

to 5 inches. Will keep in the ground over winter and improves in quality. One pkt. for 50 feet of drill; oz., 200 feet; 5 lbs., per acre.

Imp. Hollow Crown or Large Sugar. This is the best table variety. Also is a great producer and profitable to grow for stock. Pkt., 5c; oz., 8c; $\frac{1}{4}$ lb., 25c; lb., 80c.

Guernsey Not so long, but thick. Suited to shallow ground. Heavy yielder. Pkt., 5c; oz., 8c; $\frac{1}{4}$ lb., 25c; lb., 80c.

Peanuts

Peanuts are chiefly grown in the Southern States, commercially and for stock food. Hogs will harvest them and will fatten on them. The Spanish Peanut is the best in the North.

Spanish Peanut This is the earliest kind and is particularly recommended for the Northern States. It grows upright and can be cultivated with machinery. Small but plump nut. $\frac{1}{4}$ lb., 10c; lb., 25c; 5 lbs., at 20c.

Jumbo This is later and larger. It is one of the kinds in general commerce and is not early enough to mature in the North. $\frac{1}{4}$ lb., 10c; lb., 25c; 5 lbs., at 20c.

Tobacco

Culture Sow the seed in early Spring on a clean bed. A favorite way is to burn brush or trash on the bed to kill weed seeds. Wood ash is the best fertilizer. When plants are 4 to 5 inches high, set in hills 4 to 5 feet apart. Give clean, thorough cultivation. An ounce of seed will produce plants for one acre.

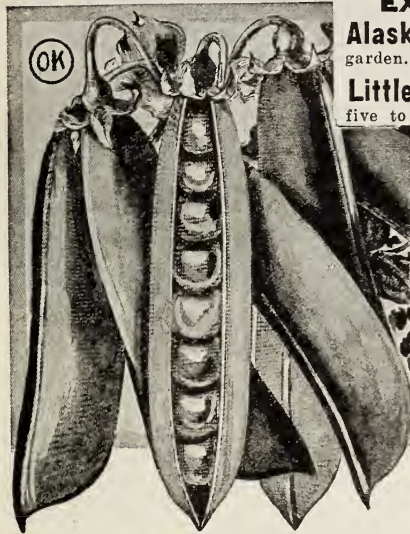

Havana One of the earliest. Fine texture and superfine flavor. Pkt., 10c; oz., 25c; $\frac{1}{4}$ lb., 85c.

White Burley A great favorite. Fine quality and commands high prices. Pkt., 10c; oz., 25c; $\frac{1}{4}$ lb., 85c.

Connecticut Seed Leaf A popular variety. Much esteemed for cigar wrapper. Pkt., 10c; oz., 25c; $\frac{1}{4}$ lb., 85c.

Wrinkled and Smooth Peas

Culture Plant peas early in the Spring so the crop will be off before hot, mid-summer. Peas never do well in mid-summer, but may be planted late to grow in the cool Fall. Plant the dwarfs in rows 2½ feet apart; the tall ones 3 feet apart, plant three to four inches deep. A pound will plant about 100 feet; 120 to 150 pounds for an acre. The wrinkled peas are the sweetest. Write for prices of Peas by larger quantities. Our prices include delivery. We do not put up smaller packets than ¼ lb.

Quantity and Quality

Quantity and Quality This pea was so named because of its large productiveness and splendid table qualities. It is medium early and grows about 24 inches high. Pods are large and of blocky shape. The peas are wrinkled, green and for eating are near perfection, being rich, buttery and marrow-like. With a large canner it holds the record for producing the largest number of bushels of shelled peas per acre. The home and market gardener will find this a most profitable variety. ¼ lb., 15c; ½ lb., 25c; lb., 45c; 3 lbs., at 40c.

Thomas Laxton The favorite large-podded market gardeners variety and probably more generally grown for market purposes than any other sort. Vine 2½ feet in height, bearing numerous well-filled pods 3½ inches long, nearly round, square ended and of high quality. Noted for its productiveness and dependability. ¼ lb., 10c; ½ lb., 18c; lb., 30c; 3 lbs., at 28c.

LATE VARIETIES

Champion of England (4 to 5 feet wrinkled)—Highly prized by those who are fond of a large, tender and luscious pea. Hardy and vigorous in growth; pods 3 inches long. Of delicious flavor; a very profuse bearer. ¼ lb., 10c; ½ lb., 18c; lb., 30c; 3 lbs., at 28c.

White Marrowfat (5 to 6 feet, smooth)—An old variety. A heavy and sure cropper. It is a smooth pea and while the quality is not as good as the wrinkled peas, its heavy yields, long bearing and productiveness are qualities to recommend it. Requires support. ¼ lb., 10c; ½ lb., 18c; lb., 30c; 3 lbs., at 28c.

Horsfords Market Garden (3 ft. wrinkled)—It is a very heavy cropper. In a test of 28 kinds it doubled all other in yield. A single plant bore

EXTRA EARLY AND EARLY SORTS

Alaska (2 ft. smooth)—A pea of fine quality. Largely grown for market, commercial canning and in the home garden. ¼ lb., package, 10c; ½ lb., 18c; lb., 30c; 3 lbs., at 28c.

Little Marvel (14 in., wrinkled)—A peculiarity is in it bearing many twin pods. The pods contain five to seven peas and are of excellent flavor. ¼ lb., package, 10c; ½ lb., 18c; lb., 30c; 3 lbs., at 28c.

American Wonder (1-ft. wrinkled)—The well-known dwarf pea, Extra early and exquisite quality. ¼ lb., 10c; ½ lb., 18c; lb., 30c; 3 lbs., at 28c.

Gradus, or Prosperity (2½ ft. wrinkled)—Extreme earliness, only three to five days later than the early smooth peas. Finest quality and great productiveness are combined in this pea. These things recommend it to the home and for market gardener. ¼ lb., 10c; ½ lb., 18c; lb., 30c; 3 lbs., at 28c.

Nott's Excelsior (1½ foot wrinkled)—Considered by many the best extra early wrinkled pea. It is nearly as early as American Wonder, while the pods are larger, with 6 to 7 peas, and many more of them. The quality is very fine. ¼ lb., 10c; ½ lb., 18c; lb., 30c; 3 lbs., at 28c.

First and Best (2½ ft. smooth)—This is of the Alaska type, but is a little later with larger pods and much more productive. Very largely planted for home and canning. ¼ lb., 10c; ½ lb., 18c; lb., 30c; 3 lbs., at 28c.

more than 150 pods. It is extensively grown for canners. Grows 2 to 3 feet, but is stiff and does well without support. ¼ lb., 10c; ½ lb., 20c; lb., 35c; 3 lbs., at 30c.

Alderman (4 ft. wrinkled)—A fine mid-season variety, maturing just after the extra early ones and before the late kinds come in. It grows 4 to 5 feet tall, hence should have support. The pods are four to six inches long, borne in pairs and contain 7 to 9 large green peas in each. Extraordinarily productive. ¼ lb., 10c; ½ lb., 20c; lb., 35c; 3 lbs., at 30c.

Telephone (4 ft. wrinkled)—A standard, high-quality, large podded pea. Vine and foliage strong and heavy. Pods 4¾ in. long, medium green, straight, broad and pointed, containing 8 large, light green peas; main crop, productive. ¼ lb., 10c; ½ lb., 20c; lb., 35c; 3 lbs., at 30c.

Sugar Pea (Edible Pods) (3 ft. smooth)—This distinct pea is used like stringless beans. The pods are tender and are broken and cooked with the peas. Very sweet and delicious. Try them and you'll like them better than shelled peas alone. ¼ lb., 10c; ½ lb., 25c; lb., 45c; 3 lbs., at 40c.

Mild and Hot Peppers

Culture Start in cold frame, hot bed or house. Transplant to garden when warm weather has come to stay. The rows may be 18 inches apart and plants 12 inches apart in row. One pkt. will produce about 250 plants; 1 oz., about 1000 plants.

Chinese Giant One of the very largest of the mild red varieties. Plant of short stocky growth, with light green foliage, fruits pendant, thick, blocky and square ended. 4 to 5 inches in diameter and of equal length; color, brilliant, glossy scarlet. Pkt., 10c; 3 for 25c; oz., 50c.

Golden Queen If you want a yellow mango as well as the red, select this one. It is not too much to say that the red and yellow mangoes ought to be served together as they are then very ornamental. Pkt., 10c; oz., 30c; ¼ lb., \$1.00.

Royal King This new sweet mango pepper sprang from a plant found growing with a crop of Ruby Kings. The Royal King averages nearly twice as much meat as the old Ruby King. It is also a heavier bearer. Is most beautiful in color and its shape is all that can be asked for, while it also has all good qualities for shipping to distant markets. Pkt., 10c; 3 Pkts., 25c; 1 oz., for 30c; ¼ lb., \$1.00.

Ruby King A very good old variety, Productive. Handsome. Bright ruby red color when ripe. Pkt. 10c; oz., 30c; ¼ lb., \$1.00.

Red Chili Sharply conical, about 2 inches long, brilliant scarlet, very hot; used for chili and pepper sauce. Pkt., 10c; oz., 30c.

Large Bell or Bull Nose An old standard sort, mild flavor. Red color when ripe. Excellent for mangoes. Pkt., 10c; oz., 30c; ¼ lb., \$1.00.

Harris Earliest Pepper

A SURE-CROP PEPPER

This pepper is the surest cropper of all. The plants grow only 12 to 18 inches high and usually bear so many peppers that you wonder how the plant can hold them. The peppers are of good size too, being 3 inches long by about 2 to 2½ inches in diameter. The flavor is very mild and tasty. The color is red when ripe.

If you want to be sure to have sweet peppers and lots of them plant this variety. If you have not been very successful in raising peppers your success will change with their variety. In an average season you will get about four times as many as of any other kind. Pkt., 10c; 2 for 25c; ½ oz., 50c.

"To-Pep-O" Coined from the words "Tomato" and "Pepper." The reason for this new word you will find by reading below.

THE ORIGINATOR SAYS:

"The To-Pep-O vegetable is the result of hybridizing the Stone Tomato with the Bell pepper. This new vegetable combines the characteristics of both parents and has some new ones. In shape it retains the bulge of the pepper and approaches the flatness of the tomato. In flavor it resembles the Bell pepper but is milder and has the zest of the tomato. In size it grows 4 to 6 inches in diameter. Its color is vivid red, or golden-yellow striped with dark green. So gorgeously-colored are they that dealers use them for decorating their show windows. Its uses are many and more will be found. It is admirable for stuffing like peppers; also with tomatoes and other vegetables in salads; it can also be stuffed with shrimp, crab or lobster salads. Soups, chowders, fish, gravies, dressings and other table delicacies are improved in flavors by the addition of sliced To-Pep-O. The fruits will keep in ordinary temperature for 30 days."

The To-Pep-O was originated in California. From the fact that both the Stone tomato and the Bell pepper succeed all over the country we have confidence that this new vegetable will succeed for our customers anywhere and be an admired and useful novelty in their gardens. A long season is required, so in the north, start plants in the house. Do not plant the To-Pep-O close to peppers. Price Pkt. 15c; 2 for 25c; ½ oz., 50c.

Gayenne This is the hot pepper, used for seasoning. Long and tapering. Very yieldy. Pkt., 10c; oz., 35c.

To-Pep-O

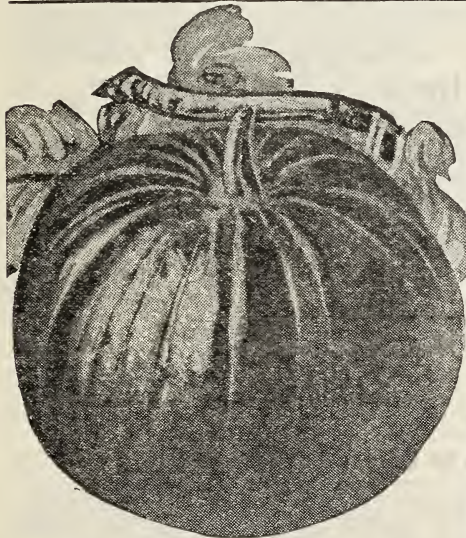

Perfection Pimento

This new pepper is becoming very popular because of its valuable qualities. It grows quite tall. Its productiveness, bearing until killed by frost, makes it very profitable to the market gardener, while its desirable size and shape, thick flesh and agreeable flavor makes it a favorite in every kitchen. The form is distinct as shown in illustration. Color, crimson-scarlet. The fruit grows from 3 to 3 1/2 inches across and about three inches long. Very fleshy. Their meat is never hot, but of a very agreeable sweet flavor. If you want the finest pepper and one that makes the best mangoes, just the right size for individual serving send for the Perfection Pimento. Pkt., 10c; 3 Pkts., 25c; oz., 30c; 1/4 lb., \$1.00.

World Beater

World Beater The introducer of this pepper said. "It is the finest introduction of a pepper in ages." It is a cross of Chinese Giant and the Ruby King. Its chief improvement is in the fact that it is much more prolific than the Chinese Giant, some plants having yielded two dozen marketable peppers. The flavor is so mild that it can be sliced and eaten raw. The fruit is green until it ripens, when it takes the scarlet color. The flesh is so thick that it holds up a long time making it one of the best shippers. Order this and have something you will be proud of. Pkt., 10c; 3 pkts., for 25c; oz., 40c.

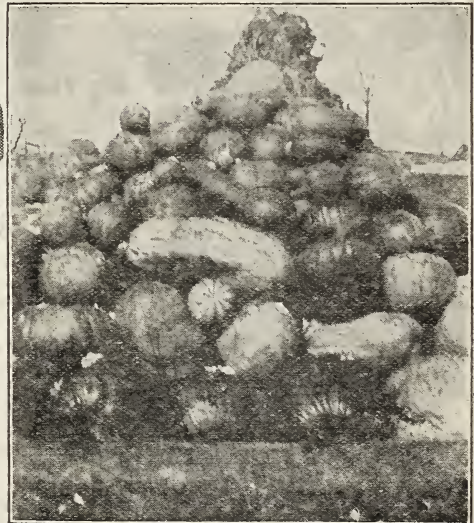

Canners Supreme Pumpkin This variety originated by a canner who operates on a large scale. Years ago he said "I felt the need of a better pie and canning variety so I crossed the large Connecticut Field Pumpkin and a little pie pumpkin, then I made selections until I produced this variety.

"We have developed a large pumpkin, which is the best for canning purposes. For large size, thick meat and heavy weight they are not equal-

ed by any other. More tons can be grown per acre of this variety, whether by themselves or with corn than of any other."

Price, Pkt., 5c; oz., 10c; 1/4 lb., 20c; 1b., 75c; 5 lbs., or more at 60c per lb.

Photograph of pumpkins grown from one collection of our pumpkin seed, as offered on page 22. Grown and photographed by W. A. Jones Belmont, O. See our offer on next page.

A PAGE OF GOOD PUMPKINS,

Culture Plant when the ground is warm in hills 6 to 10 feet apart depending on the variety. Some varieties like large Cheese, Tennessee Sweet Potato, Sugar Pie and Big Tom may be planted in the corn field. A pkt. will plant about 10 hills; one oz., about 50 hills; two to three lbs. to acre. (The numbers identify the illustrations).

King of Mammoths (1)—If you want to grow pumpkins of mammoth size, from curiosity or to exhibit, pick this one, or the Mammoth Tours. This K. of M. grows to enormous size, often 2 feet or more in diameter. The flesh is salmon color and finer grained than you would think, considering its size. To get the largest specimens, allow only one vine to the hill and only one or two pumpkins on the vine. Pkt., 8c; oz., 15c; $\frac{1}{4}$ lb., 40c; 1 lb., \$1.50.

Mammoth Tours (2)—A French variety which also grows to immense size. The pumpkins may be either long or round. Are very heavy if well grown frequently exceeding 100 lbs. Quality very good. Pkt., 8c; oz., 15c; $\frac{1}{4}$ lb., 40c; 1 lb., \$1.50.

Mammoth Etampes (3)—Another French kind that is quite an attraction. The skin is bright, glossy red and excites favorable comment on exhibition or on sale. Flesh very thick, heavy. Quality is excellent. Attains very large size. Pkt., 5c; oz., 15c; $\frac{1}{4}$ lb., 40c; lb., \$1.25.

Large Cheese or Kentucky Field (4)—This is the large flat, solid, heavy, cream-colored "sweet" pumpkin, extensively grown in corn field for stock, but is only second to the Sugar Pumpkin for pies. Sells well on the market. It is the variety used by most canners. Keeps well in winter. Pkt., 5c; oz., 10c; $\frac{1}{4}$ lb., 20c; 1 lb., 50c; 5 lbs., at 40c.

Tennessee Sweet Potato (5)—A pear-shaped variety of splendid qualities. The flesh is white, fine-grained, solid and thick. When cooked has the appearance of sweet potatoes and some people say it tastes better. Excellent for pies and custards. Prolific. Keeps well until late Spring. Pkt., 5c; oz., 10c; $\frac{1}{4}$ lb., 20c; lb., 75c; 5 lb. at 65c.

Sugar Pie (6)—Another chief end of pumpkins is to make pies, and I consider this is the best pie pumpkin. It is small, perhaps it was made small so enough good quality could be supplied. Very solid. Orange skin. Fine grained and exceedingly productive. Even every small garden should have a hill of Sugar Pie pumpkins. A good keeper. Pkt., 5c; oz., 10c; $\frac{1}{4}$ lb., 20c; lb., 75c.

Big Tom (7)—An improved strain of the Connecticut Field or Yankee. Grows to large size and extremely productive. Their chief value is for feeding stock. Pkt., 5c; oz., 10c; $\frac{1}{4}$ lb., 20c; lb., 50c; 5 lbs., at 40c.

Golden Oblong (8)—A medium size, solid, productive, long keeping variety. Keeps as well as the hard-shell squashes. Excellent variety for cooking summer and winter. Pkt., 5c; oz., 10c; $\frac{1}{4}$ lb., 25c; lb., 85c.

Japanese Pie (9)—The best crook-necked pumpkin. Called "Japanese" because the seeds are curiously marked with characters like Japanese writing. The flesh is salmon color, fine grained and more dry than some sweet potatoes when baked. First class for pies, etc. This is a good kind to cut in strips, or pieces and dry like apples, for future use. Pkt., 5c; oz., 10c; $\frac{1}{4}$ lb., 25c; lb., 85c.

Cushaw, or Golden Crookneck (10)—A popular variety with a hard shell. The pumpkin often grows two feet in length with small seed cavity in the boll, while the long neck is solid meat. Flesh golden yellow. Fine for pies and, because of great productiveness, profitable to grow for stock feed. Pkt., 5c; oz., 10c; $\frac{1}{4}$ lb., 25c; lb., 85c.

OUR PUMPKIN COLLECTION

Here are ten splendid, interesting varieties of pumpkins. One pkt. of each is priced for 56c cents, but we will send the collection and include a packet of the new Canners Su. preme pumpkin (See preceding page) for only 50c.

11 Packets for ----- 40c

Spring, Summer and Winter Radishes

Culture All varieties of radishes thrive best in a rich, not too heavy soil, and a sandy loam is best. For early use, sow in the hot bed in February or outdoors as soon as the ground can be worked in rows 6 to 10 inches apart, covering the seed $\frac{1}{2}$ inch deep. Thin to 1 inch apart in row. The Summer varieties may be sown at the same time, coming on after the earlier sorts are gone. The winter varieties should not be sown until about August 1st. Sow every week or 10 days for succession until hot weather comes on. One oz. of seed will plant 100 feet of drill.

White Turnip Scarlet Turnip Scarlet Turnip W. T.

ing radishes in 20 days from sowing the seed. Pkt., 8c; oz.,

Scarlet Turnip White Tipped

$\frac{1}{4}$ lb., 25c; lb., 85c; 5 lbs., at 75c.

The name describes it. A beautiful extra early radish of fine quality. For forcing and garden. Pkt., 5c; oz., 10c;

Crimson Giant

Early and Forcing

Vicks Scarlet Globe This is one of the earliest of the forcing varieties and does equally well in the garden. Of quick growth, fine size, has small top. It is always crisp and tender. Very popular with market gardeners who know it. Pkt., 5c; oz., 10c; $\frac{1}{4}$ lb., 30c; lb., 85c; 5 lbs., at 75c.

French Breakfast Extremely early olive-shaped, scarlet with white tip. This is a popular radish for first on the table. Crisp when young, but soon becomes pithy. Pkt. 5c; oz., 10c; $\frac{1}{4}$ lb., 25c; lb., 85c; 5 lbs., at 75c.

First Crop Radish It is the earliest of the round radishes and the slowest to go to seed. This makes it a wonderfully profitable market variety and desirable for forcing. Round as a ball bright scarlet, with the smallest top. Crisp and finest quality for a long time. Has made bunch-15c; $\frac{1}{4}$ lb., 40c; lb., \$1.25.

Scarlet Turnip Extra early. A famous variety for forcing. Pkt., 5c; oz., 10c; $\frac{1}{4}$ lb., 25c; lb., 85c; 5 lbs., at 75c.

White Turnip Both skin and flesh are pure white. Pkt., 5c; oz., 10c; $\frac{1}{4}$ lb., 25c; lb., 85c; 5 lbs., at 75c.

Sparkler Ready for table in 25 Days. I consider it a little better and a little prettier than any of the other little radishes that come extra early. It is globe shaped, brilliant cardinal with more white tip than the old S. T. White Tipped. Ready to use in about 25 days. Pkt., 5c; oz., 10c; $\frac{1}{4}$ lb., 25c; lb., 85c; 5 lbs., at 75c.

Crimson Giant A new intermediate radish that grows very large, often 5 to 6 inches in circumference, but never gets pithy. It is good for garden but top is too large for best forcing. Nearly round, crisp and juicy. You better get this one. Pkt. 5c; oz., 10c; $\frac{1}{4}$ lb., 30c; lb., 85c; 5 lbs., at 80c.

Later Varieties

Long Scarlet (Short Top)—This is the old popular, long, slender, dark red, quick-growing radish. It comes very early. 25 to 30 days and is one of the choicest quality. The O. K. Strain seed is unsurpassed. Pkt., 5c; oz., 10c; $\frac{1}{4}$ lb., 25c; lb., 85c; 5 lbs., at 75c.

Cincinnati Market (Also called Glass Radish) —Very similar to L. S. S. Top, but preferred by many growers. It is a darker color, a little larger and a little smaller top. Preferred by Southern and Western growers. Pkt., 5c; oz., 10c; $\frac{1}{4}$ lb., 25c; lb., 85c; 5 lbs., at 75c.

Chartier While the early long scarlet radishes are all similar in some respects, yet our list would not be complete without this handsome one. The top is crimson, about half way down it blends off to pink and the bottom runs to waxy white, stands a long time and quality is splendid. Pkt., 5c; oz., 10c; $\frac{1}{4}$ lb., 25c; lb., 85c; 5 lbs., at 75c.

Cincinnati Market

It is truly an all season variety. It never gets pithy. Pkt., 5c; oz., 10c; ¼ lb., 25c; lb., 85c; 5 lbs., at 75c.

Winter Radishes

White Chinese Grows large oblong. Color white. Fine texture and flavor. One of the best Winter Radishes. Roots grow 6 to 8 inches long and 3 inches thick. Pkt., 5c; oz., 10c; ¼ lb., 25c; lb., 85c; 5 lbs., at 75c.

Rose Chinese Same as the former except in color. Roots 4 to 5 inches long. Pkt., 5c; oz., 10c; ¼ lb., 25c; lb., 85c; 5 lbs., at 75c.

OUR RADISH COLLECTION

If in any doubt what Radishes to plant in your garden, you may order these and dismiss your anxiety.

Catalog price ----- 23c 45c

Special Price ----- 18c 35c

Rhubarb

Culture Sow the seed in drills 18 inches apart and cover ½ inch. Thin to 4 or 5 inches, leaving the strongest. In fall or spring following set in permanent beds, 4 feet each way. The soil must be deep and rich. A good way is to buy the roots and set as above.

Strawberry An old, satisfactory variety. Ribs of great size. Cooks tender. There is no better under any name. Pkt., 5c; oz., 15c; ¼ lb., 40c; lb., \$1.50.

Rhubarb Roots Each 15c; ½ doz., 65c; doz., \$1.25. Delivered.

SALSIFY

Culture This plant is used as a substitute for oysters, and many like it fully as well as the oysters themselves. It is either used in soup or scalloped with best results. Sow early in the Spring on rather light, fertile ground, in drills 18 inches apart; thin the plants to 1 or 1½ inches in the row. Light freezing greatly benefits the flavor. One pkt. for about 25 feet of row; one to 75 feet.

Mammoth Sandwich Island The best variety. Pkt. 10c; oz., 25c; ¼ lb., 65c; lb., \$2.00.

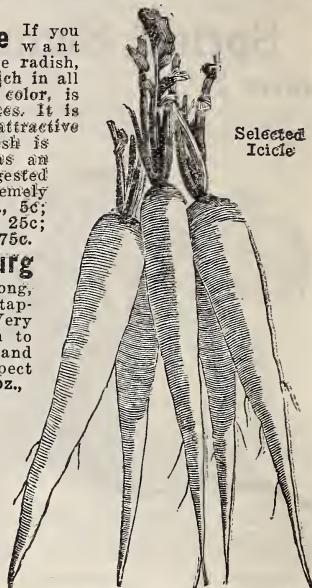

Spinach

Culture For Summer sow as soon as you can in the spring, in drills 1 foot apart, 1 inch deep, and every two weeks for a succession. For Winter and early spring, sow in late August and September and protect with straw during severe weather. The ground for spinach can

Selected Icicle If you want the best long white radish, select this one, which in all respects, except color, is like the scarlet ones. It is very handsome, attractive and good. The flesh is about as brittle as an icicle, which suggested its name. Extremely quick growth. Pkt., 5c; oz., 10c; ¼ lb., 25c; lb., 85c; 5 lbs., at 75c.

White Strasburg

This is semi-oblong, thick at top and tapers regularly. Very late but can begin to use it when young and small. In this respect

Selected Icicle

Round Black Spanish A round variety. Splendid keeper and splendid quality. Roots 3 to 4 inches in diameter. Pkt., 5c; oz., 10c; ¼ lb., 25c; lb., 85c; 5 lbs., at 75c.

Long Black Spanish Like the former, except the shape. Keeps crisp until Spring. Pkt., 5c; oz., 10c; ¼ lb., 25c; lb., 85c; 5 lbs., at 75c.

California Mammoth The largest long Winter variety. Roots grow 10 to 12 inches through. Color white. Quality good. Pkt., 5c; oz., 10c; ¼ lb., 25c; lb., 85c; 5 lbs., at 75c.

not be too rich. One pkt. sows about 20 feet of drill; one oz., 100 feet; eight to ten lbs per acre.

Long Standing One of the best for Summer, as it is slow to turn to seed. Also sown in the Fall, but should have protection in winter. Leaves are large, thick and crimped. Pkt., 5c; oz., 10c; ¼ lb., 20c; lb., 50c; 5 lbs., at 40c.

Prickly Winter For sowing in the Fall. Thick leaved. A hardy winter variety. Pkt., 5c; oz., 10c; ¼ lb., 20c; lb., 50c; 5 lbs., at 40c.

Bloomsdale, or Savoy Another hardy winter variety. Leaves, numerous, curled, blistered and succulent. Glossy, dark green color. Sow in early Spring and use before hot weather, or in Fall for Winter use. The most largely grown variety. Pkt., 5c; oz., 10c; ¼ lb., 20c; lb., 50c; 5 lbs., at 40c.

A New Spinach

Princess Julian The Julian is the most thoroughbred type of long-standing spinach ever introduced. It is wonderfully uniform in type and most attractive in appearance. In form it is a dense, compact rosette with very short leaf stalks, the leaves are large, and rounded, thick in texture, very much blistered and crumpled and of intense, very dark green color; will hold up well in shipping to distant markets. It is noted for its freedom from male plants and its slowness to go to seed. In some of the southern spinach markets the past season, because of its attractive appearance, the Julian found a ready sale when other varieties were a drug on the market. Pkt., 5c; oz., 10c; ¼ lb., 30c; lb., \$1.00.

The Flower Beautiful

Gladiolus

Any person who does not plant liberally of Gladiolus misses many a Summer treat from a few dimes invested. I think the Gladiolus is the peer of all flowers and there is absolutely no danger of failure. Plant liberally, even by the hundred or one-half thousand and plant at intervals from early spring till June 15th for a constant succession of blooms. Being of the simplest possible culture, and the bulbs inexpensive, the Gladiolus deserves a place in every garden, small and large. Keep in mind that the bulbs multiply, so, from a small start of the more costly kinds, you will soon have a large plantation, or bulbs to sell or give away. Delivered at prices.

Alice Tiplady New. A grand Primulinus variety with beautiful orange-saffron flowers. Each 12c; dozen, \$1.00; 25, \$2.00; 100, \$7.50.

America Beautiful, soft flesh pink. Magnificent in its size. One of the best. Each 6c; dozen, 50c; 25 for 85c; 100 for \$3.00.

Anna Eberius Rhodamine purple. Entirely self-color except for deep amaranthus purple blotch on lower petals. Brilliantly beautiful. Each 12c; doz., \$1.00; 25, \$2.00; 100, \$7.50.

Baron J. Hulot Dark, pansy violet, shading to purplish white throat, carmine stripe in center of lower petals, ending in a short slender yellow stripe. Each 12c; doz., \$1.00; 25 \$2.00; 100 \$7.50.

Chateau Theyry Orange-cerise with yellow bordered red blotch on lower petals, tall spike, fine flowers. Each 12c; doz., \$1.00; 25 \$2.00; 100 \$7.50.

Chicago White A fine white variety with lavender stripes on lower petals. 6 to 8 flowers open at one time. Each 6c; doz., 50c; 25 85c; 100, \$3.00.

Crimson Glow Glowing, velvety crimson, shaded deeper in the center. Tall, strong grower. Best of the crimson. Each 10c; doz., \$1.00; 25, \$1.75; 100, \$6.00.

Dream Large spike and flowers. Deep salmon red with showy blotches Each 15c; doz., \$1.25; 25, \$2.25; 100, \$8.00.

Gretchen Zang New. Beautiful soft pink, shading to geranium pink at edge of petals, bright scarlet blotches on lower petals. Very pretty. Plant late, Each, 10c; doz., \$1.00; 25, \$1.15; 100 \$6.00.

Gold Clear, golden-yellow. Large spike and flower. The best, pure yellow. Each 15c; doz., \$1.25; 25 \$2.25; 100, \$8.00.

Le Marechal Foch Clear light pink. Very large wide, wide open flowers. A very early variety. Each 6c; doz., 50c; 25, 85c; 100 for \$3.00.

Loves Fire (Liebesfeur) Dazzling scarlet color, perfectly placed flowers on strong stems. Of all the scarlets this is the best one. Each 15c; doz., \$1.25; 25, \$2.25; 100, \$8.00.

Loveliness Cream pink. Many flowers open at the same time. Very large, broad and showy spike. 12c; dozen, \$1.00; 25, \$2.00; 100, \$7.50.

Mrs. Francis King By some considered the best of all. Flowers often 5 inches across. Jasper red, lower petals deeper red. Each 6c; dozen 50c; 25 for \$1.00; 100 for \$3.00.

Mrs. Frank Pendleton Flushed salmon-pink, with maroon blotch on lower petals. Probably the most popular with florists, which should recommend it also to others. Each 6c; dozen, 50c; 25 for \$1.00; 100 for \$3.00.

Pink Wonder La France pink (Refers to the well known rose) shading to paler pink in the throat with yellow at the base of lower petals. Immense flowers. A great beauty. Each 15c; doz. \$1.25; 25, \$2.25; 100, \$8.00.

Schwaben Light yellow with fine red stripes on lower petals. Strong plant. Large spike and flowers. A great favorite. Each 6c; dozen, 50c; 25, 85c; 100, \$3.00.

Glory Mixture of Kundred's Varieties. This grand mixture of this incomparable class of fringed and ruffled Gladiolus, contains all fine varieties and some seedlings not yet named and distributed. To understand what is in this mixture we need only say that it contains varieties which if sold under names would cost 50c to \$1.00 or more each. A new variety may appear amongst them, which, if introduced, would make a fortune. Price doz., \$1.25; 25 for \$2.25; per 100 \$7.50. Delivered.

Everitt's Choice Mixture To the person who does not care to keep track of the names, but grows gladioli for the beauty of the flowers, we recommend our choice mixture, at reduced prices. There are a great variety of colors, also there are early, medium and late. So you will be treated to new surprises over a long period. Plant at intervals for a succession, up to July 1. Dozen 50c; 25 for 85c; 100 for \$3.00. Delivered.

NOTICE—The printer made an unfortunate transposition of Gladiolus and Squash in part of our catalogues. For Squashes please turn to where page 40 should be.

Tomato Seed

For Gardeners and Canners, but No Canners' Tomato Seed.

All our Tomato Seed Is Grown expressly for Seed. None saved at Canning Factories.

Culture For the first sowing, select the earliest types. Sow the seed in the house or hot bed in February or early March. When two inches high, transplant. If time will permit, transplant again in two weeks. This will induce root growth. Each time giving more room. When ground is warm, set in garden 3 to 4 feet apart. For main crop, start later and transplant once or twice. As they grow you can let them trail on the ground or build frames about a foot high to carry them, or trellises. One pkt. will produce about 300 plants, an oz., about 2,000 plants.

Red Varieties

Chalks Jewel An exceptionally fine variety, about ten days later than Earliana; fruit uniformly smooth, round and solid; color crimson; a good canning sort for the North. Pkt., 8c; oz., 25c; ¼ lb., 75c.

John Baer Beautiful Tomatoes in 30 days from setting the Plants. Probably the best extra early and a strong competitor for late honors. It is wonderfully productive, often yielding 50 to 100 fruits to a plant. Every tomato ripens evenly right up to the stem with no "cripples." The flavor is mild and deliciously sweet. Plant a package of this tomato and it will help you to have the best garden you ever raised. Pkt., 8c; oz., 30c; ¼ lb., \$1.00; lb., \$3.50.

Wayahead This new variety of tomato has the peculiar potato leaf foliage. In season, it is a few days earlier than Earliana. Color red, surface smooth, solid and heavy. The fruit is medium size and borne in abundance. We recommend it, highly for home and market gardens. Pkt. 10c; oz., 35c; ¼ lb., \$1.00.

Earliana One of the best early tomatoes, taking into account season of ripening, size, productiveness and quality. Earliana grows in clusters, is bright red, as round as a ball, solid and splendid quality. Pkt., 8c; oz., 30c; ¼ lb., \$1.00; lb., \$3.50.

Bonny Best This tomato is very beautiful scarlet color. Perfectly good flavor. Plants very productive, as they set in clusters of 4 or more at frequent intervals. One of the best for forcing. Excellent for all purposes. Pkt., 8c; oz., 30c; ¼ lb., \$1.00; lb., \$3.50.

The Stone This is the standard late or main crop tomato. The fruit is bright scarlet, very large, smooth, solid, heavy, of the finest quality. The plant is a strong grower and very productive. This variety is in great favor for home, market, and canning. North and South. Bears shipment to distant markets. Pkt., 8c; oz., 25c; ¼ lb., 75c; lb., \$2.00.

Dwarf Stone The best stiff-stalked, upright dwarf tomatoes in size of fruit and productiveness. The fruit is produced in clusters of 3 to 5 and each plant produces quite a number. The color is deep scarlet. Quality, the best. Pkt., 10c; oz., 35c; ¼ lb., \$1.00; lb., \$3.50.

Norton Beauty Tomato This tomato has been particularly mentioned by the U. S. Department of Agriculture as being strongly resistant to blight and wilt. Besides this desirable quality it is a fine smooth red Tomato that is very productive. Pkt., 8c; oz., 30c; ¼ lb., \$1.00.

Greater Baltimore The Canner's and Market Gardeners' Favorite—This has come to be the great canning tomato. Since its introduction many canners make

it obligatory on their growers that this variety be raised for them. The color is brilliant red. The vines have great vigor, are healthy, grow compact and bear a cluster of tomatoes at every other joint. It is an immense yielder. They are as fine for the home and market garden, where they are sure to meet your expectations. Pkt., 5c; oz., 20c; ¼ lb., 75c; lb., \$2.50; 3 lbs., at \$2.00.

Bell's Colossal When we say that Bell's Colossal Tomato is the very best tomato for the home garden, we are only emphasizing what our customers have found to be true. It combines the best qualities—great size, great productiveness, great solidity of flesh and delicious flavor, when eaten raw, or cooked, or canned. It is a tomato that wins on exhibition or in the kitchen. So if you want a tomato to exhibit in your garden or at a fair, or just for use, by all means have some plants of Bell's Colossal. Trails on the ground but better to let it climb. Plant it in every home garden. Pkt., 10c; 3 for 25c; oz., 50c.

Pink or Purple and Yellow Varieties

Beauty Color, a glowing crimson, with a tinge of purple. Shaped perfectly round, large size, solid. Quality splendid. Medium early, productive. Pkt., 5c; oz., 20c; ¼ lb., 65c; lb., \$2.50.

Golden Queen This is a large, beautiful yellow tomato of superior qualities. Very showy and very good. It is the best yellow tomato. Pkt., 10c; oz., 30c; ¼ lb., \$1.00; lb., \$3.50.

Ponderosa Wonderfully Poplar. Has been the Most Popular of the Mammoth Tomatoes. A popular way to raise the Ponderosa is to plant it by a fence or trellis, then it will grow higher than a man and bear fruit all along many weighing a pound or more. The quality is splendid especially good for slicing. Pkt., 10c; oz., 40c; ¼ lb., \$1.25.

Unknown It is rare that the selection of a superior variety of vegetable begins at the can that brought it to the table. But such was the case with this variety the "Unknown". The person from whom we obtained our seed furnished this explanation, "I bought some canned tomatoes which at once aroused my interest by their exceptional solidity, high red color, meatiness and fine flavor. By tracing back to the grower, through the help of the label on the can, I was able to procure seed. The "Unknown" is only a few days later than the very earliest, but is a third larger and better. Color is actually Red. Shape is slightly flattened. Bears till late, cuts solid and holds its firmness when canned. Pkt., 15c; 2 for 25c; 10 for \$1.00; ½ oz., 50c.

Unknown

Wins-Its-Way Tomato This new variety is an ideal tomato for nearly every use to which tomatoes are put. For the gardener who wants a beautiful tomato at just the right time to get the highest prices it is just the variety for him to grow. For the commercial canner it has exceeding high merit while the home gardener will quite surely find it his ideal. WIN-ITS-WAY arrives about 5 days after the extra early kinds but excels all of them in productiveness. It bears its fruit well to the center of the stalk and it continues to bear full size fruits throughout the season. Fruits are large size, almost round, brilliant red, solid, no core and very small seed cavity. As regards its keeping qualities, it is unsurpassed, if equaled by any other. This quality makes it possible to ship it long distances. Win-Its-Way has distinct merit over varieties already in cultivation. Pkt., 15c; 2 for 25c; oz., \$1.00.

Small Fruited Sorts

These are used for preserves.

Yellow Plum Plum shaped. Packet, 10c; ounce, 35c.

Red Cherry Looke like large cherries. Packet, 10c; ounce, 35c.

OUR TOMATO COLLECTION

We would like every customer to have these Tomatoes this year. It would mean a tremendous boost for the O. K. Seeds through each neighborhood.

Herbs

Culinary, Medicinal and Aromatic. The varieties marked (*) are Perennials and when once started will continue for years with little care.

No garden is complete without a corner devoted to herbs. Remember the charm of the old-time herb corners—how fascinating they were. And what magic there was in a bit of savory or a pinch of sage, to "dress up" an ordinary dish and make it a delight. And it was almost a treat to be a sick-a-bed child, if grandmother brought her a cup of steaming catnip tea; or perhaps it was balm or horehound, or pennyroyal or thyme, according to the ailment. Every woman with a family knows what it means when the children are a bit feverish, or have "bad colds"—with no doctor just around the corner—to have an herb garden, or dried herbs in the attic to rely upon, in such a case. Determine now to have an Herb-garden.

ANISE—Used for cordials, garnishing and flavoring. Pkt., 5c; oz., 25c.

BASIL (Sweet)—Leaves used for flavoring soups, stews and highly seasoned dishes. Pkt., 10c; oz., 40c.

***CATNIP**—Leaves and young shoots are used for seasoning. Cats delight to roll in it. Is a good bee pasture. Pkt., 10c; oz., 60c.

***CARAWAY**—Grown for the seeds, which are extensively used for the flavoring of bread, pastry, candy, etc. Pkt., 10c; oz., 25c.

DILL—Leaves used for pickling cucumbers. Pkt., 5c; oz., 25c.

FENNEL (Sweet)—The leaves boiled are used in fish sauces. A wonderful garnish. Pkt., 10c; oz., 25c.

***HOREHOUND**—Used for seasoning, also in cough remedy. Horehound tea is a remedy for cold. Pkt., 10c; oz., 40c.

LAVENDER—Valuable for its perfume. The flowers are used. Pkt., 10c; oz., 40c.

***MARJORAM** (Sweet)—Leaves and ends of shoots highly esteemed for seasoning. Dry for Winter use. Pkt., 10c; oz., 40c.

***PENNYROYAL**—A tea made from it is valuable for colic. The fresh plant placed close to people chases mosquitoes. Pkt., 10c; oz., 50c.

SAGE—Extensively used for seasoning and dressing. Pkt., 10c; oz., 30c.

SAVORY (Summer)—The leaves and flowers are used for flavoring soups and dressings and string beans. Pkt., 10c; oz., 30c.

***THYME**—For seasoning; a tea from the leaves is a remedy for headache. Pkt., 10c; oz., 50c.

Culture For early sow as soon as ground will permit in drills 14 inches apart. The Ruta-Baga, 24 inches apart. Thin the plants to 6 inches and Ruta-Baga to 12 inches, or sow broadcast. For Fall and Winter sow July and August for turnips, one month earlier for Ruta-Baga. Use one to three lbs. per acre.

Extra Early Milan This is the earliest turnip and the best variety for early. Purple top and white root. Pkt., 5c; oz., 10c; ¼ lb., 25c; lb., 75c.

Early Snowball A pure white, very early variety. It makes sizeable turnips in 6 to 7 weeks. A fine garden variety. Pkt., 5c; oz., 10c; ¼ lb., 25c; lb., 75c.

White Egg Medium early white, splendid quality. A favorite for the home garden. Pkt., 5c; oz., 10c; ¼ lb., 25c; lb., 75c.

Purple Top Strap Leaf This is the most popular flat variety. Good for early Spring, Fall and Winter. Top is purple, bottom white. Very beautiful. We cannot recommend it too highly. Pkt., 5c; oz., 10c; ¼ lb., 20c; lb., 65c; 5 lbs., at 50c.

Purple Top White Globe A large purple top globe-shaped turnip of choice quality and is very productive. A long keeper. Pkt., 5c; oz., 10c; ¼ lb., 20c; lb., 60c; 5 lbs., at 50c.

Large White Globe (Strap Leaved) — A perfect globe in shape; skin and flesh pure white, firm and sweet. Pkt., 5c; oz., 10c; ¼ lb., 25c; lb., 75c.

Early White Flat Dutch Differs from the Purple Top Strap Leaf only in color. Pkt., 5c; oz., 10c; ¼ lb., 25c; lb., 75c.

Amber or Yellow Globe Grows to a large size. Very productive. Good quality. Keeps until Spring. Pkt., 5c; oz., 10c; ¼ lb., 25c; lb., 75c.

Cowhorn If you want a large, coarse heavy-yielding turnip for stock pasture or winter feed, also to improve your ground, sow this one. It grows about one-half above ground and 12 to 15 inches long. Also will be eaten by cattle, sheep and hogs in the field. Sown with rape the pasture and fertilizing value of the crop is considerable. Pkt., 5c; oz., 10c; ¼ lb., 25c; lb., 75c.

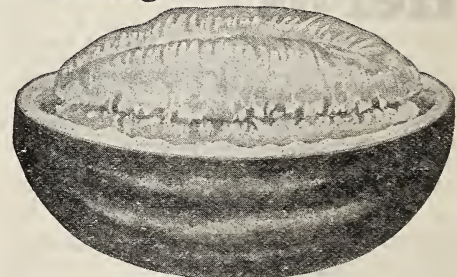

Golden Ball or Orange Jelly If you want a yellow-fleshed early, garden turnip, select this one. Tops are small, roots round, smooth, deep yellow color. Pkt., 5c; oz., 10c; ¼ lb., 30c; lb., \$1.00.

Seven Top Grown for the tops, which are used for greens. Very extensively grown in the South. Pkt., 5c; oz., 10c; ¼ lb., 20c; lb., 65c.

Ruta Baga Seed

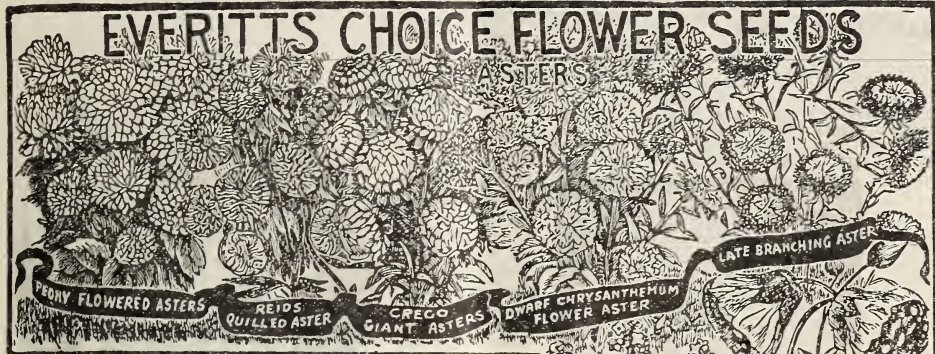

Imp. American A hardy, productive variety are large, oblong or globular, with very little tap root. Color bright yellow with a purple top. Very solid and heavy. Pkt., 5c; oz., 10c; ¼ lb., 25c; lb., 75c.

Orange Watermelon

The peculiarity of this fine melon is that when well ripened the inner core separates from the rind. Frequently one can lift the entire heart of the melon out of the shell or rind by cutting the melon rind only. The flesh of this melon is of a pink shade, of fine quality. Considered by many a great delicacy and prized to serve on special occasions. It grows to a medium size. Very productive. Pkt., 10c; oz., 20c; ¼ lb., 50c; lb., \$1.75.

EVERITT'S CHOICE FLOWER SEEDS

Any amateur who wishes a colorful garden, or even a bed, can have it at trifling cost and little delay. The annuals give all the brilliant colors desired. Sown in the Spring some can be made to produce lovely blossoms in a short time and with many kinds, continue this bloom until killed by frost. To supplement the bedding kinds use the annual Climbers—Moonflowers, Morning Glories, Cypress Vine, Etc.

In the following list "a" stands for annual, "b" for biennial and "p" for perennial; "c" with any of these means climber.

Annuals These are plants that flower and mature the first year and then die.

Biennials These are plants that flower the second and sometimes the third year after the seed is sown and then perish.

Perennials These generally do not bloom until the second year from seed and then live out-door and bloom yearly.

Achillea The Pearl. Small double white flowers, borne in greatest profusion P. 2 ft. 5c.

Acroclinium One of the best everlasting. a. Single mixed 5c. Double Mixed 5c.

Ageratum Flowers all season. One of the best bedding plants. a. Tall Blue 5c; Tall Mixed 5c; Dwarf Mixed, 5c.

Alyssum Little Gem or Carpet of Snow—Grows only a few inches high and covers ground like a carpet of snow. a. Pkt., 5c; 1/4 oz., 25c; oz., 75c. Saxatile Compactum, Basket of Gold—Flowers Brilliant Yellow, p. 10c.

Amaranthus Beautiful foliage plant, a. Oranathus, Princess Feather, 5c. Tricolor, Joseph's Coat 10c. Love Lies Bleeding, Red 5c.

Anemone (Jap. Wind Flower) Much valued for garden display and bouquets. The plant grows 2 to 3 ft. tall and bears many large, saucer-shaped flowers. Our mixed seed will give many fine colors. Give sunny position in the garden. May be grown in house in winter also. P. Pkt., 10c; 3 for 25c.

Antirrhinum (Snap Dragon) Tall—This old favorite has been greatly improved in our giant flowered. b. Separate colors. Yellow, Pink, White, Each, 8c; Mixed 5c.

Dwarf—Same as above, except in height, these are semi-dwarf, separate colors. Yellow, Pink, White, each 8c; Mixed 5c.

Aquilegia (Columbine)—Very Popular hardy perennials that bloom freely in spring and early summer. Sometimes known as bush Honeysuckle, p. Double Large Flowering Mixed 10c. Single Large Flowering Mixed 8c.

Balloon Vine (Love in a Puff)—Graceful annual climber, quickly growing 5 to 10 ft. Its feature is balloon-shaped seed pods, a. c. 5c; oz., 30c.

Balsams (Lady Slipper)—An old favorite garden fl flower producing masses of brilliant blooms, a. Double Camelia Flowered—The largest flowered of any and perfectly double from brightest scarlet to pure white, including spotted and striped flowers, mixed 7c; 1/4 oz., 20c.

Andrianople—New. Glowing red, large flowers. Will give wonderful satisfaction 8c; 1/4 oz., 25c.

Carnation Flowered—Dwarf, double, contains many

California Poppy (*Eschscholtzia*) With silvery foliage studded scores of gorgeous cups of cream and gold, crimson and scarlet, the California poppy in its most modern dress is one of the most reliable and gorgeous of the easily grown annuals for striking beds in a hot, sunny portion of garden. It blooms steadily from the first of July until killing frosts from seed sown in the open ground when warm. It likes a rather dry situation.

Double White—8c; 1/4 oz., 30c.
 Martima (Cross of Malta) Yellow with orange cross. 7c.
 Fine Mixture, Single 7c; 1/4 oz., 20c; Fine Mixture, double 7c; 1/4 oz., 20c

California Poppy

Gorgeous Asters

Single Yellow—5c; 1/4 oz., 20c.
 Single White—5c; 1/4 oz., 20c.
 Single Orange King—5c; 1/4 oz., 20c.
 Double Orange—8c; 1/4 oz., 30c.

Asters

The Asters of today, such as we offer, approach almost the chrysanthemum in great size and gorgeous beauty. As the flower has been improved, its popularity has also increased, until to-day, it may be called the universal flower. The seed may be sown outdoors in beds, or for earlier plants in the house. They delight in plenty of sun. a.

Dwarf Chrysanthemum Flowered

A very useful variety for edging, beds and pot culture, grows only 8 to 10 inches high, mixed 10c; 1/4 oz., 40c.

Grego's Giant Comet The immense, gracefully formed flowers of this new aster has made it a favorite everywhere. The petals are long, curled and twisted, having a feathery appearance. The flowers are very fluffy and many run five inches in diameter and are as beautiful as chrysanthemums. Fine for cutting, 20 to 24 inches high.

White changing to rose and blue, 10c; 1/4 oz., 40c.
 Rose changing to white and salmon, 10c; 1/4 oz., 40c.
 Purple. 10c; 1/4 oz., 40c.
 Pink and shades. 10c; 1/4 oz., 40c.
 Blue—Azure, dark and light shades 10c; 1/4 oz. 40c.
 Red—Ruby to scarlet 10c; 1/4 oz., 40c.
 Mixed—All colors and shades, makes a wonderful bed. 8c; 1/4 oz., 30c.

Peony Flowered

A compact dwarf form. Plants about 8 to 12 inches tall and bear fine double peony-like flowers. Mixed 8c; oz., 30c.

American Beauty One of the most beautiful Asters of recent introduction. Of very vigorous habit, producing large perfectly double flowers on long stems. The color is the "American Beauty" brilliant rosy pink. Pkt., 15c; 1/4 oz., 60c.

**The Evening Primrose
Oenothera**

Who has not watched with awe the moving pictures of opening flowers and appreciated that what required weeks to obtain, nature's action was accelerated for your pleasure. Yet you can enjoy such a thrill in your own garden if you will sit for 15 minutes at twilight and watch the Evening Primrose drop its calyx and unfold its petals.

The evening Primrose is a beautiful plant for beds, mixed gardens and borders. It is of easy culture, but prefers a dry soil and sunny position. Produces freely and continuously. June to September, large, single, Poppy-like flowers of white, yellow, rose color, etc. Plants should stand 12 inches apart. Pkt., 10c; 3 for 25c.

Evening Primrose

EVERITT'S CHOICE FLOWER SEEDS

Balsam Apple (See Momordica.)

Beans Ornamental—A rapid grower that bears sprays of brilliant scarlet blossoms from July to September. Grows quickly to 10 ft. Foliage dense, makes it splendid for porches or anywhere where quick shade is wanted. a. c. Pkt., 5c; oz., 20c.

Cosmos, Giant Flowered This is a vigorous, tall growing annual and our Giant Flowered is one of the great, recent improvements in the flower kingdom. Single and double flowers, frilled and crested, in pink, crimson and white colors are borne in great profusion all summer. They are also earlier than the old, small kinds. They will bloom better if the seed pods are kept removed before they ripen.

Separate colors—Pink, Crimson and white, Each 8c; ¼ oz., 20c.

Mixed, Pkt., 8c; ¼ oz., 20c.

Celosia (Cockscomb)—Very popular annuals of easy culture. Produce large ornamental heads of many interesting and novel shapes. Can be raised outdoors or in pots.

Plumosa—This stately type forms pyramidal bushes with

Giant Flowering Cosmos

prickly seed pods, resembling cucumbers. It will grow a length of 30 feet in one season with clean bright green foliage. Seed may be planted Fall or Spring when planted in the Spring. Soak the seed in warm water 24 hours before planting. Price: Pkt., 10c; 3 for 25c; oz., 35c.

I want to write and thank you for the shrubs and plants that I received. because they had the best roots of any plants that I have ever put out. The Butterfly Bushes that I bought last spring were the prettiest that I have ever seen. Everyone stopped to ask about them. I was more than pleased with the Gladioli and I will need more in the Spring.—H. B. Albright, 128 S. 3rd St., Decatur, Ind.

Cut Flower Garden Mixture

All are described in our flower seed list. Each variety is a gem for cut flowers and bouquets that will last quite a while. The mixture is so prepared that a continuous array of blooms will appear throughout the summer. This mixture can be used in several different ways: Between rows of vegetables, in odd corners and in any vacant place. A vacant lot, usually grown up with weeds, should be made a community beauty spot. See illustrations to left.

Everitt's Fine Mixed, pkt. 5c.

Gourds (Ornamental)—There are about 16 varieties of these curious and some useful fruits. Most of them are strong growers. From 20 to 30 ft. The small, fancy ones are nice playthings for children. See also department of vegetable seeds. a. c.
Fine Mixture. Pkt., 8c; oz., 25c.

Helianthus Sunflower—Few people understand the great variations and beauties of the ornamental Sunflowers, their observations having been limited to the large mammoth Russian, raised for chicken feed. The tall ones, and there are many varieties are suitable for backgrounds. The dwarf kinds are charming when grown in beds or in mixed flower borders. a.

Tall Varieties—Mixed Pkt., 5c; oz., 25c.
Dwarf Varieties—Mixed Pkt. 5c; oz., 35c.
Miniature Varieties—These bear beautiful small flowers, fine for cut flowers. Mixed Pkt., 10c; oz., 40c.
Orion—Miniature, Yellow. Pkt., 10c; oz., 40c.
Tall Giant, Single, 10c; Tall Giant Double 10c.
Single Mixed—Pkt., 5c; oz., 40c.
Double Mixed—Pkt. 5c; oz., 40c.

Heliotrope Its exquisite fragrance attracts all and its freedom to bloom places it foremost with our choicest flowers. Easily grown. Start seed inside and transplant. a. Fine Mixed 6c.

Hollyhocks The hollyhock in its perfection is very unlike its parent of olden times. It now ranks with the Aster, Dahlia, etc. The flowers many are as double as the rose and of many shades and colors. (Also see Hardy Perennial for plants.)

Allegheny—Flowers seldom less than 5 inches across and all beautifully colored and fringed. Blooms continuously. p. Mixed 10c.

Double Dark Crimson—a. Pkt. 10c.

Double Sulphur Yellow—a. Pkt., 10c.

Double Apple Blossom—a. Pkt., 10c.

Double White—a. Pkt., 10c.

Everitt's Double—Finest Mixed. a. Pkt., 6c.

Single Everblooming Mixed—a. Pkt., 5c.

Ipomea (See Morning Glories).

Hyacinth Bean (See Dolichos).

Kochia (Burning Bush or Summer Cypress)—Early in the Fall this popular ornamental shrub turns to a bright scarlet. Quick growing. Let plants have 3 feet of space. a. Pkt., 5c; ¼ oz., 20c.

Morning Glories AND MOONFLOWERS

There are tens of thousands of places where rapid climbers are wanted to cover unsightly places or furnish cool shade. For such purposes few climbers are better than these. They all grow very rapidly and to a length of 15 to 25 feet, bearing thousands of flowers. Do not sow seed until trees start their leaves.

Japanese Morning Glory—Bears very large fringed flowers in many soft and delicate colors and shades. Pkt., 6c; oz., 25c; ¼ lb., 75c.

Brazilian Morning Glory—This variety quickly makes a thick foliage of great lobed leaves and is brilliant with a great profusion of rose-colored flowers, with a satiny five-pointed star center. Pkt., 5c; oz., 35c.

Bona Nox—Blue Morning Glory, also called Evening Glory. Pkt., 5c; oz., 20c.

Moonflower—This may be started in the house and transplanted when weather becomes warm and settled or sown in open ground. The flowers open at sundown and some have a delightful fragrance. Pkt., 10c; oz., 35c.

Sataka's Mammoth Flowering Morning Glories—We just believe that every person who receives this catalogue ought to order some of this new type of Morning Glories from Japan. We consider it one of the very best

SPECIALS that we list. When we tell you that individual flowers, when full grown, measure 6 inches across, you will probably doubt it, as we did. But the grower of our seed sent us a dry and pressed flower and sure enough it measured 6 inches in diameter. As to the color: There is no use to try to tell you except they cover all colors, shades and tints and stripes, besides some are fringed, crumpled and crimped. Price—Pkt., 12c; 5 for 50c; ¼ oz., 30c.

Lantana This is a shrubby plant with Verbena like flowers that make a fine display in garden or porch boxes the first season from seed. They flower freely the entire summer and then may be potted for winter blooming. Height 18 inches. Seed require 4 weeks of warm water 48 hours. a. Hybrid Mixed, Pkt., 5c; ¼ oz., 20c.

Lathyrus (Hardy Sweet Pea)—A very decorative climbing vine. Suitable to grow on fences or trellises as floral screens. Blooms all summer. Good for cutting etc. p. c. Pink Beauty—Pink, Pkt., 7c; ¼ oz., 25c. Rubra—Bright Crimson, Pkt., 7c; ¼ oz., 25c. Mixed—All colors, Pkt., 6c; ¼ oz., 20c.

Sataka's Morning Glory

Momordica

Mimosa (Sensitive Plant)—This plant is most interesting from its nature to fold up and droop when touched, then after a short period it assumes its natural position again. Small flowers. a. 6c.

Momordica (Balsam Apple)—A beautiful vine. Grows about ten feet and bears large creamy white, dotted with black,

Linum (Crimson Flax)—The rich crimson flowers last only a day but they come continually until frost. Makes a splendid show in bed or border. Rosy Red, Pkt., 5c; ¼ oz., 20c.

Lobelia (Cardinal Flower)—Bears brilliant, fiery scarlet flowers. Plant in moist place. a. Tall Varieties, mixed Pkt., 6c; ¼ oz., 25c. Dwarf Varieties, mixed, Pkt., 6c; ¼ oz., 25c.

Lupines Lupines are of easy cultivation and in addition to their value as border plants, are admirably adapted for cutting. They attain a height of 15 inches, producing long flower-spikes which keep a long time in water. a. and d. Annual Kinds, mixed, Pkt., 5c; ¼ oz., 20c. Perennial Kinds, mixed, Pkt., 6c; ¼ oz., 20c.

Marigold Blooms in late summer when many other plants are past their best and then affords a wealth of color. a. In rich reds, browns, Mahoganies, oranges, and yellows. They bloom luxuriantly in the late hot summer but are at their best as the first frost approaches.

Double African—Tall Mixed, 5c; ¼ oz., 20c.
Double African—Dwarf Mixed, 5c; ¼ oz., 20c.
Double French—Tall Mixed, 5c; ¼ oz., 20c.
Double French—Dwarf, 7c; ¼ oz., 30c.

Mignonette One of the principal uses of this fragrant flower is for cutting and combining in bouquets with other flowers. a. Victoria—A very fine red sort. 7c; ¼ oz., 25c. Giant Flowering Sweet scented, 5c; ¼ oz., 20c.

flowers, or pure white with red pistils. The flowers are succeeded by sulphur-yellow fruits which burst when ripe and show the large blood-red seeds. As the flowers and fruit are borne at the same time the effect is striking. The fruit has medicinal properties, as a healing liniment or salve. Pkt., 8c; ¼ oz., 30c.

Plant Nasturtiums

They will give you an abundance of flowers with hardly any trouble. Plant them for yourself and neighbors to gather. Everybody knows these lovely, and universally popular flowers. They are probably more universally planted than any other kind. If you have not had liberal beds of them heretofore start this season and there will be many pleasant times coming to you and your friends. Succeed everywhere, even on poor soil. a.

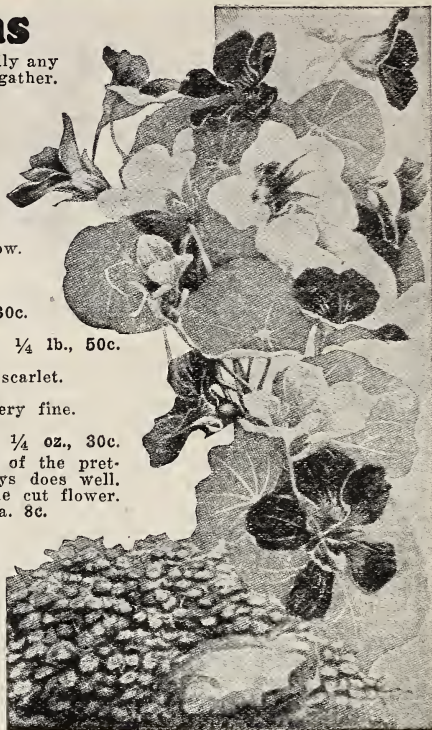

Tall Sorts Price of each Tall variety. Pkt., 5c; oz., 15c; $\frac{1}{4}$ lb., 50c.
 Atropurpureum—Dark purple.
 Heinemann—Chocolate color. Asa Gray—Cream yellow.
 Von Moltke—Rosy.
 Schenermann—Scarlet, striped.
 Vesuvius—Salmon Rose.
 Everitt's Choice Mixed—Pkt., 5c; oz., 10c; $\frac{1}{4}$ lb., 30c.

Sweet Peas

Everitt's Superior Mixture. Pkt., 10c; $\frac{1}{4}$ oz., 25c.
Aloysia Citriodora (Lemon Verbena). Every garden should have some plants of this great favorite. It is easily grown and its delightfully fragrant foliage goes well with any bouquet while the dry leaves give a delightful scent when placed among linens. Grow in garden in summer and in pots in winter. Pkt., 10c; 3 for 25c; 15 for \$1.00. Buy a dozen and sell them.

Zinnia

Wonderful Giant Flowered. They Have Taken The Country By Storm

Zinnias, Giant Dahlia Flowered Marked improvements have been made in the Zinnia during the past few years, the old types have been nearly replaced with giant sorts. Planted in the early spring they will bloom in eight to ten weeks from planting and will continue throughout the Summer and Fall. The blooms are immense size, often measuring five to seven inches across and the colors are bright and attractive.

Separate colors.
 Golden Yellow—Pkt., 10c; 3 for 25c.
 Pink Shades—Pkt., 10c; 3 for 25c.
 Salmon Rose—Pkt., 10c; 3 for 25c.
 Orange—Pkt., 10c; 3 for 25c.
 Scarlet Shades—Pkt., 10c; 3 for 25c.
Everitt's Superior Giant Mixture. Pkt., 10c; 3 for 25c.
Special Offer One Pkt. Each of above five varieties for 35 cents.

Tritoma (Red Hot Poker)—A beautiful late-flowering plant, having handsome reed-like foliage. Flowers are of a rich orange-scarlet color, three feet high. Blooms September-Nov. p. Hybridia Mirabilis, 10c.

Vinca Beautiful rose and white flowers. Mixed, 10c.

Sweet Peas

Universally admired and desired. Everybody wants Sweet Peas. Therefore everybody who has a little space should plant a row and share with neighbors who are less fortunate. Plant liberally. The two leading classes are the Spencers, early and late, and Eckfords Grandiflora.

There is always a space in the garden or back yard for a row of Sweet Peas.

Giant Late Spencers The Giant Late Spencers listed below are recommended for spring and summer blooming and will thrive in any climate where any sweet peas will grow. This strain of Sweet Peas bears three and four very large flowers on long stiff stems.

	Pkt.	oz.	$\frac{1}{4}$ lb.

Florence Nightingale—Bluish Lavender	10c	25c	75c

Everitt's Superior Mixture of Spencers

Comprises all colors and forms. Nowhere can greater value be gotten for the price. Pkt., 10c; oz., 20c; $\frac{1}{4}$ lb., 60c.

Giant Early Flowering

(Spencers') These come 2 or 3 weeks earlier than the late ones and are nearly as large. Mixed, Pkt. 10c; oz., 25c; $\frac{1}{4}$ lb., 75c.

Eckford's Grandiflora

—A very fine class. Many of the flowers are as large as Spencers but they are not so much crimped like the former. Mixed Pkt., 5c; oz., 15c; $\frac{1}{4}$ lb., 50c.

Verbenas This universally popular flower thrives in almost any situation on good garden soil. Blooms profusely June to October. Are also planted extensively in porch and window boxes. a.

Giant Dahlia Flowered Zinnias

Cannas

creasingly until frost, each week adding to their beauty. The varieties. If you are at all acquainted with varieties you will agree with us when you look at the names.

Price of all Cannas Unless priced different: One 12c; dozen, \$1.25; 25 for \$2.25; 100, \$7.50.

Apricot 4 ft. Green foliage. Flowers, buff-yellow, base overspread with salmon-pink, making a rich effect.

Allemania 5 ft. Green foliage. Orchid-flowering bright scarlet, with yellow borders, mottled and variegated.

Ambassador 4 ft. Bronze foliage. Immense flowers of rich cherry red. Growth, very vigorous and massive. Each 15c; \$1.50 doz.

City of Portland 3½ ft. Flowers very large, pink, born in heavy trusses. Will please all. Each, 15c; dozen, \$1.50.

Eureka 4 ft. A white canna, and is the best white for general purposes. The large flowers are freely produced. Plant strong. Green leaves.

Fiery Cross 4 ft. Flowers vivid scarlet shading to crimson. Foliage is lustrous blue green. A grand canna.

Florence Vaughan 4 ft. Green foliage. Flowers golden yellow thickly dotted crimson.

Golden Gate 4 ft. Green foliage. Flowers open almost pure gold but soon become richly rayed with orange-crimson, centering to the throat.

Gladiflora 3 ft. Green foliage. Flowers crimson, changing to carmine-rose, edged with gold.

Indiana 6 ft. Rich golden orange flowers sometimes 7 inches across. An orchid flowered variety. Green leaves.

King Humbert 4 ft. Bronze leaves. The plants are crowned with an immense flower head, velvety orange-scarlet, rose tinted and margined at the base. The bronze leaves are large, heart-shaped. A combination of leaves and flowers that is very beautiful.

King Humbert Yellow 4 ft. Green foliage. Golden yellow flowers, blotched red. A grand Canna.

Louisiana 6 ft. Bronze foliage. An orchid flower of vivid scarlet. Flowers long and silky. 15c.

Madam Crozy 3½ ft. Green foliage. Brilliant vermilion flowers, with narrow edge of bright golden yellow. Green leaves.

Mrs. Alfred Conard 4 ft. Green foliage. Magnificent head of perfectly formed salmon-pink flowers of great size. A grand canna. Each 20c; dozen, \$2.00.

Shenandoah 4 ft. Ruby red foliage. Flowers salmon-pink, borne in large clusters.

Statue of Liberty 6 to 7 ft. Rich bronzy flame red. This canna has the largest leaves of all.

Venus 4 ft. Green foliage. Flower is a gay, rosy-pink with a well defined border of yellow.

Wyoming 5 ft. Magnificent orange-colored flowers. A true orchid-flowered variety. Leaves purple.

Cannas In Mixtures Each season we have a surplus of considerable number of our named varieties and other Cannas that we put in this mixture and sell them at reduced prices. This is an opportunity that should be embraced by the person who does not care to keep track of names and wants to save some money. Each 10c; doz., 75c; per 100, \$1.00.

Double Pearl Tuberoses

Nearly everyone knows and prizes this beautiful fragrant flower, that is so easily raised from the bulb, planted in the Spring. By planting some of these bulbs in the house and setting them out about May 1st, and then setting bulbs in open ground at intervals from May 1st to June 25th. a succession of the prized blooms can be had all summer. Price, Each, 10c; dozen, 75c; 100 for \$1.50; 50 at the 100 rate.

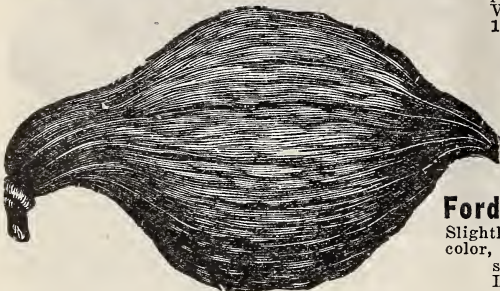

I was well pleased with all the seeds, ordered from you. The Canna bulbs were fine. The bloom was beautiful and very much admired by all who saw them. They all came true to color and were just as you described them to me in your catalogue.—Dale S. Ramsey, Blountville, Tenn.

SQUASHES Summer and Winter Bush and Vining

Culture Keep in mind that all vine crops delight in warm, rich soil. Plant squash in hills the same as melons and cucumbers. The bush kinds 4 feet apart, the others 10 to 12 feet, 8 to 12 seeds to the hill and later thin to 2 to 4 to the hill. Some kinds can be grown with corn. A pkt., will plant about 10 hills; one oz., to 50 hills; three to four lbs., per acre.

The Hubbard Family

Type of Hubbard

Imp. Hubbard The genuine Hubbard has more than held its own against all comers as a winter squash. Vines grow strong and set fruit quite numerous. Frequently specimens weigh 25 to 30 lbs. Shape oblong, color bronze green. Pkt., 5c, oz., 10c; ¼ lb., 35c; lb., \$1.25.

Warted Hubbard This is a new and enlarged edition of the Hubbard and is coming to be a great favorite. The warty knobs on it draw general attention. It grows larger than the older variety and produces more. The keeping and table qualities are just as good. Pkt., 5c; oz., 10c; ¼ lb., 35c; lb., \$1.25.

Blue Hubbard A new type of Hubbard squash which excels all in the superior quality of its flesh, and is the best keeper of all the Hubbards Form and habit of growth similar to the original Hubbard, but differing in being the largest of the class and in having an extremely hard, blue-gray shell. All lovers of the good Hubbard Squashes should now get this best one. Pkt., 8c; oz., 15c; ¼ lb., 40c; lb., \$1.25.

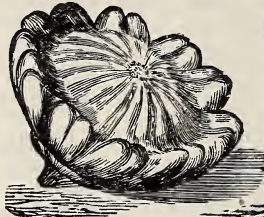

Golden Hubbard Now, while we are dealing with Hubbard Squashes, let us present also the yellow member of the family. This Golden Hubbard is the same as the original, with the exception of color, which is rich orange red, instead of dark bronze green. The flesh is a little deeper orange and equally fine-grained and sweet. All of the Hubbards are long keepers. Pkt., 5c; oz., 10c; ¼ lb., 35c; lb., \$1.25.

All 4 Hubbard Varieties Mixed—Pkt., 5c; oz., 10c; ¼ lb., 40c; lb., \$1.50.

Boston Marrow This is a standard Fall variety and is without a peer for canning and pies. A rich orange color. Very productive. Pkt., 5c; oz., 10c; ¼ lb., 30c; 1 lb., \$1.00.

Delicious A very early maturing variety that is also one of the best Winter sorts. The shell is very thin. Moderately hard. Unapproached for the fine grain, dryness, sweetness, and richness of flavor. 5 to 10 lb. It is in its prime from mid-fall to mid-winter. Plant some Delicious for some treats. Pkt., 5c; oz., 15c; ¼ lb., 40c; lb., \$1.50.

Fordhook Small, oblong excellent for Summer and Winter Fruits grow 8 to 10 inches long Slightly ridged; skin smooth, thin, yellow. Flesh straw color, very thick, exceptionally dry and sweet. The skin is so thin—it need not be peeled for cooking. Deserves a place in every garden. Pkt. 5c; oz., 10c; ¼ lb., 30c; lb., \$1.00.

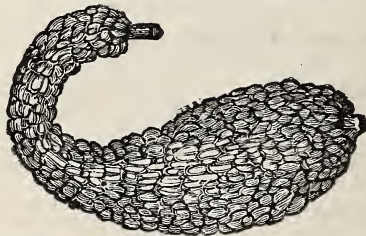

Bush Scalloped

Mammoth Chili

The Jumbo of the squash family. Sure to get the prize for the largest squash at the fair. Sometimes grow to weight 200 lbs. Pkt., 10c; oz., 20c; ¼ lb., 50c.

Mammoth White Bush Scalloped

A SUMMER VARIETY—This is about twice the size of the old variety and not much later. Quality fine. Pkt., 5c; oz., 10c; ¼ lb., 30c; lb., 90c.

Golden Summer Crookneck Bush

Much larger than the old Crookneck, but just as early. Has all its good qualities and far more productive. The flesh is thick and yellow. Most popular of all summer kinds. Often grows 2 feet long. Pkt., 5c; oz., 10c; ¼ lb., 35c; lb., \$1.25.

I have always had more or less trouble in getting seed for my garden that would come up and grow well until last year when I ordered my seeds from you. I was more than pleased with the results. The seed came up so well and were such strong healthy plants. I tried your Early Wonder Beets and it sure is a fine quality beet. I also planted First Crop Radish, Harris Earliest Pepper and Tom Watson Watermelon all with equal success. Mrs. Altha L. Wiles, Lebanon, Ind.

DAHLIAS

The Most Wonderful Flower Creations . . .

GET THE NEWEST AND BEST FROM US AT LITTLE COST

Dahlias are well-known Summer and Autumn flowering plants. Good varieties like the below list produce flower abundantly. Also, from our list, you can get every imaginable shape and color. Our varieties are right down to date and possess unusual merit. Have different varieties from your neighbors.

Cactus Flowered

Bride's Bouquet (Hybrid.) An ideal white cactus and profuse bloomer, extra long stem, and a Dahlia that stands up well when cut. 75c; 3 for \$2.00; doz., \$6.50.

Earl of Pembroke (Hybrid Cactus). Bright plum color; large bold flower. Vigorous grower. Is bound to please 25c; 3 for 65c; doz., \$2.00.

J. N. Jackson Color a perfectly gorgeous, deep velvety, black-maroon. The finest black, cactus dahlia. 35c; 3 for \$1.00; doz., \$3.00.

Perle de Lyon A pure white variety. Petals fringed, giving a unique appearance. 35c; 3 for \$1.00; doz., \$3.00.

Peony Flowered

Bertha Paulding New flowers are exquisite, deep, rose-pink, and with an open center. One of the best pinks. 35c; 3 for \$1.00; doz., \$3.00.

Ellen Kelly New Duplex seedling. A long-stemmed free-flowering golden-yellow variety. A Dahlia that is hard to equal. 35c; 3 for \$1.00; doz., \$3.00.

Mary Houghton A new fragrant Dahlia. The color of the flower is a light purple with a ring of lighter yellow around the golden-yellow center, the reverse of petals being a beautiful purple, grow this for the surprise. 35c; 3 for \$1.00; doz., \$3.00.

Merry Widow Flowers large and brilliant scarlet on good stems. A free bloomer. Will not disappoint the grower. 25c; 3 for 65c; dozen, \$2.00.

Mrs. Bowen Tufts This creation is the finest of new Peony-flowered Dahlias, having gigantic, deep rosy-purple blossoms, which are produced well above the foliage upon long, graceful stems. 75c; 3 for \$1.75.

Osceola New. The flowers is a bright carmine with a ring of Golden Yellow at center, produced on long stems. Plant a strong grower. 25c; 3 for 65c; doz., \$2.00.

Phenomena A new French variety Flower of an exquisite salmon shade, suffused with light amber. 30c; 3 for 75c; doz., \$2.25.

Decorative Flowered

Easton Flowers a brilliant Turkish red. The flower is only medium size, but its brilliant color, good form and extravagant blooming habit makes it one of the most desirable. 25c; 3 for 65c; dozen, \$2.00.

Frank A. Walker A new variety. A charming shade of deep lavender-pink. For all purposes this new variety is exceptionally good as the color and form are beautiful, the stems long and the blossoms are in great abundance, coming among the first and always full of flowers until frost, every order ought to include it. 50c; 3 for \$1.25; dozen, \$3.75.

Ora Dow A beautiful velvety maroon, attractively tipped with white, 25c; 3 for 65c; dozen, \$1.75.

Show Flowered

American Beauty The flowers are of gigantic size and are produced on long, heavy stems, well above the foliage. The color of this acquisition is a gorgeous wine-crimson. 75c; 3 for \$2.00; dozen \$6.00.

Dia Mont A pure white flower. The best white Dahlia you can plant. 25c; 3 for 65c; dozen, \$2.00.

Princess Victoria Pure canary yellow. Perfect form, free bloomer on long stems. 35c; 3 for \$1.00; dozen, \$3.00.

Red Hussar A bright Cardinal red on good stems and a wonderful bloomer. 25c; 3 for 65c; dozen, \$1.75.

Rainbow Mixture Comprises all types, forms and colors, and is made up of varieties of genuine merit. If you will be too busy to keep the record of the named kinds, then this mixture will give you fine satisfaction. Each 20c; 6 for \$1.00; Dozen, \$1.50.

Orders for 3 or more named kinds may be made up of different kinds at the rate of 3.

Dahlia Seed

Those who are not particular as to the name of the Dahlia, but want an abundance of flowers can accomplish their purpose with the chance of getting a real prize by planting Dahlia seed. The majority of the seedlings will probably not be better than existing kinds but the grower will certainly get big returns in the quantity of blooms. Seeds offer an easy and inexpensive way to the Dahlia lover. Pkt., of seed. \$2.00.

Last year we planted some Zinnia Seeds and the flowers were wonderful, extremely large and rich colorings, although it was dry here last summer. Also two Butterfly Bushes were very lovely. And a Honeysuckle which was very small when put out made a very rapid growth. We were well pleased with everything we planted. E. R. Oleaner, Riley, Ind.

I wish to say that the Cannas I purchased from you were the most beautiful I have ever seen. The pink ones were simply wonderful.—Mrs. J. H. Schuyler, Lapel, Ind.

I received Butterfly Bushes from your place and they sure did fine and hope they continue to do so. They bloomed until frost.—Mrs. H. Wilhelm, 1248 Van Buren St., Hammond, Ind.

Give Your Lawn a Tropical Appearance

The scheme of this bed is to plant a center of tall Castor Beans, like the Zanzibariensis. Three or four plants will be plenty. Then a circle of Cannas, and outside a circle of Caladiums. The bed may be just as large as you want it or as the space will permit. If the bed is more than 6 feet in diameter, and the larger the more showy it will be, we suggest using two heights of castor beans and two heights of cannas in two circles, also a circle of geraniums or coleus or other low growing plants may be put in front outside of the caladiums.

Price—For a 6 ft. bed. One Pkt. Ricinus' (Castor Beans) 10c; 10 canna roots, (See canna list page 39) 18 Caladium bulbs (See below, this page). If you make a bed, 10 feet in diameter order 25 Canna Roots and 36 caladium bulbs and put them in two circles. It will be wise to get all of these seeds and bulbs and start in house and set out when warm.

Fancy Leaf Caladium

Caladium (Elephant's Ear) This is one of the most effective plants for the lawn or flower garden and may be used singly or in groups, rows or beds. To obtain the best results they should be planted on rich ground where they will have an abundance of water. Under such conditions they will grow 3 to 4 feet high, and bear immense leaves 3 to 4 feet long by one-half the width. They must be removed to the cellar in the Fall and replanted the next Spring. Each year they will get larger. Price—Medium sized bulbs, postpaid; Each 20c; 3 for 50c; dozen; \$1.75. Large size; Each 25c; 3 for 60c; dozen \$2.00. Extra large; Each 35c; 3 for \$1.00; dozen \$3.00.

Fancy Leaved Caladium Among ornamental foliage plants there are none more beautiful in design or gorgeous in coloring than the Fancy Leaved Caladium. Also of special value for pot culture, window and piazza boxes. Planted in partially shaded borders they succeed admirably outdoors. 40c each; 3 for \$1.00; 12 for \$3.50; Larger bulbs, 60c each; 3 for \$1.50.

Iris These have appropriately been called the "Orchids of the Hardy Flower Garden." They are of the simplest culture, succeeding in almost any soil or position. The bulbs should be planted 4 to 6 inches apart in the autumn when they will bloom some in the spring or plant in the spring when they will become well established and bloom abundantly the following spring.

German Iris These are among the earliest grown and most beautiful of our early Spring flowers. They bloom in May and early to late kinds cover several weeks. Price of all German Iris—Each 15c; 3 for 40c; doz., \$1.50; 25 for \$2.50; 12 or more may be of more than one kind.

Albert Victor—Blue and Lavender.
 Caprice—Rosy Red, fall of deeper red.
 Helga—Lemon Yellow with pearl shading.
 Midnight—Deep Purple. Finest purples.
 Rhein Nixe—Pure White.

Japanese Iris This is a distinct group. The stalks grow two to three feet high with flowers of great size. Some measure 8 to 10 inches across. Commence to bloom in June and continue five or six weeks. The plants succeed best in cool, moist soil.

Gold Bond—Double white, with gold banded center.

Granite—Single. Purple, spotted and flaked white. lilac center.

Lohengrin—Rose, shading to near white.
 Pauline—Bright Blue.
 Princess Victoria Louise—Yellow and Cream.
 Her Majesty—Rose Pink, heavily veined.
 Dr. Bernice—Olive, shaded Red.

Indo—Single. Broad wavy petals of great size. Color dark, rich blue. Yellow center.

Pyramid—Double. Violet purple, veined white in center of each petal.

Red Riding Hood—Single. Fine amaranth veined and suffused white. A beauty.

Rose Anna—Double. Ivory white, ruby red veins. Yellow blotch. Very interesting.

Price of all Japanese Iris except where noted. Each 35c; 3 for \$1.00; dozen, \$3.60; 25 for \$5.50.

Beautiful Lilies

No border or wild garden is complete without these charming flowers. They are stately and beautiful in form and flowers, matchless in colors, and exquisitely fragrant. Plant 6 to 8 inches deep in loose, well manured soil and, if convenient, with some sand under the bulb to insure drainage. Effective when planted between peonies. Very fine for the hardy border.

Royal Lily (*Regale*) Blooms profusely July and August. Flowers bright canary yellow in the throat, shading to bluish-white toward the edges. The outside is white with unusual tints. This is a new lily and one of the most beautiful that has ever been discovered or originated. 50c; 3 for \$1.25.

Regal Lily

DOUBLE TIGER LILY.

Easter Lily

(*Longiflorum giganteum*) Blooms July and August. Flowers, w a x y white in clusters of 2 to 6, 4 to 6 in. long. Fragrant 50c; 3 for \$1.25.

Meadow Lily

(*Canadense*) Blooms June and July. Flowers, bright orange-yellow spotted with purple, born in clusters. 30c; 3 for 75c.

Show Lily

(*Speciosum rubrum*) Blooms late August and September. Flowers, white suffused with rose-pink in the center and red spots at the base. Free bloomer. 40c; 3 for \$1.00.

Swamp Lily

(*Superbum*) Blooms from late July to September. Flowers brilliant orange scarlet, shaded yellow and spotted purple-brown at the base. Will have as many as 40 flowers in a cluster. Very showy variety. Prefers moist soil. 25c; 3 for 65c.

Double Tiger Lily

(*Tigrinum*) Blooms August to September. Flowers double, borne in large clusters. Color, bright salmon-red with purple black spots. The best double lily. 40c; 3 for \$1.00.

Single Tiger Lily

(*Tigrinum*). Same as the double Tiger except single. 30c; 3 for 75c.

Turks Cap

(*Batemanii*). Blooms July to August. Flowers pale orange-red sometimes tinged with pink, borne in clusters as high as 12. 40c; 3 for \$1.00.

Day Lily

(*Hemerocallis*). Popular, easily grown lily. Succeed anywhere. Among the oldest and best-loved garden plants and should be planted by all. Bloom July and August. 20c; 3 for 50c.

Golden Banded Lily

Also called Golden-Rayed and Queen of Lilies. Blooms July and August. Flowers pure white petals, spotted, with bright crimson and a yellow band along the mid-rib. 40c; 3 for \$1.00.

Callas

(*Calla Lily*)—These are for growing indoors. Give them rich soil and plenty of water and warmth.

Godfreys (White) Dark green leaves and pure white flowers. Plant one bulb in a pot 6 to 8 inches. Price, Large bulbs, each 30c; 4 for \$1.00.

Eltonia (Yellow)—Flowers of a rich, lustrous golden yellow. Foliage dark green with white spots. Plant same as above. Large bulbs. Each 30c; 4 for \$1.00.

Amaryllis

Valuable for the garden, but most generally grown as a house plant. These are the most magnificent and gorgeous bulb and bulbous plants grown. The flowers are very large and remarkably colored, striped and blotched. For pot culture use any rich soil. Set the bulb two-thirds above the soil. Water moderately at first and increase. A 6 to 8 in. pot is usually large enough. Some growers put them in dark until the flower stems grow 4 to 5 in. and then bring to light.

New Hybrids Amaryllis These new types run through the colors and shades of red and rose to white making a delightful range of colors. Mammoth bulbs, each, 50c; 3 for \$1.25; dozen \$4.50.

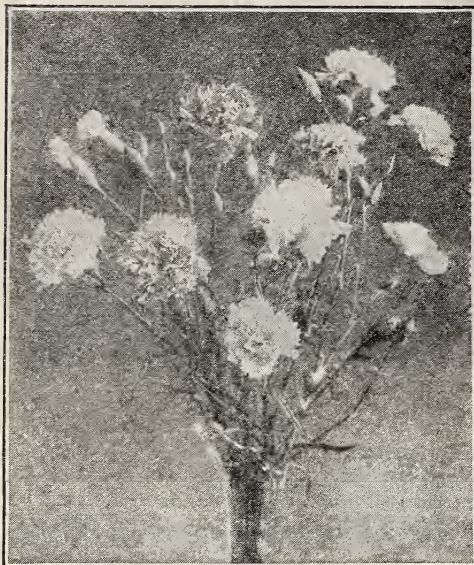

Show Lily

Everitt's Hardy Perennial Plants

"THE FLOWERS GRANDMOTHER LOVED TO GROW"

The perennials we sell you are strong field-grown. Planted in the spring they will flower the same year and will continue for years, ever increasing in number of plants and blooms. In three years the bed should be thinned—the plants divided and the surplus transplanted. With a start of a dozen plants, your home and your friends' homes may be supplied with beautiful flowers from early spring until freezing winter. Price of all varieties in this list unless priced with description; one 25c; 5 for \$1.00; dozen, may be of one or more kinds, \$2.00; per 100, one or more kinds, \$12.50. All delivered Parcel Post or Express.

Hardy Rainbow Carnation

Carnation (Hardy Rainbow)—Don't you want carnations for buttonhole and house bouquet? Each plant of the Rainbow Carnation will give you open flowers each day. The form is as refined, and the fragrance as exquisite as the hot house carnations. Can be grown with greatest ease and will bloom in 4 to 6 weeks from setting the plants. Will be one of the most prized plants in your garden. Every day when you can cut buds and flowers till frost when they can be potted in the house and have carnations in winter. Colors, red, pink, white and yellow. Run of colors—Or all colors mixed. One plant 35c; 3 for \$1.00; \$3.50 per dozen. If bought by the dozen we recommend the mixed.

Separate colors—These are more difficult to produce and consequently come higher. 50c each; 3 for \$1.25; per dozen, \$4.50. All delivered at prices.

Delphinium (Larkspur)—It is almost impossible to convey anything like an adequate description of the improved Delphiniums. Their greatest charm lies in the wonderful stateliness of growth, and the rich colors and tints of their striking flowers. Nothing in blue can compare with Delphiniums, and for their value in hardy borders they are unsurpassed.

Belladonna—Sky blue flowers.

English Hybrids—Colors range from light blue to purple.

Dianthus Barbatus (Sweet William)—Certainly one of the most popular old-fashioned garden plants. Their freedom of blooming, striking color and pleasing fragrance make them a favorite of all flowers. Fine for cutting.

Everitt's Special Mixture—Will give an array of beautiful colored flowers, unrivaled for display in solid bed, borders or for cut flowers.

Newport Pink—A beautiful pink variety.

Dianthus Plumarius (Clove Pink)—Low growing, sweet scented, early blooming. Should be planted in quantities in beds or borders.

Digitalis (Foxglove)—One of the most popular perennials. Throws a flower spike, tall and stately, to a height of 4 to 6 feet. July-August. Mixed.

Aquilegia (Columbine)—All colors, fine for border and rock garden. Excellent cut flower. Two feet high. Blooms June-Oct. Double and Single.

Bleeding Heart (Dicentra)—An old favorite which has been difficult to obtain for years. Many will now want to plant it in their hardy flower gardens, where it will continue for years. It is one of the most attractive and most desired plants. Early in Spring to June, it bears long racemes of heart-shaped, rosy-red flowers. It is perfectly at home and hardy in any climate and does well in all situations, even in shade. Strong clumps 60c; 3 for \$1.75; Dozen, \$6.00 Delivered.

CAUTION—After the Bleeding Heart blooms the top dies and does not mark the place of the plant. Therefore put a marker where it is, as it will come back the next spring.

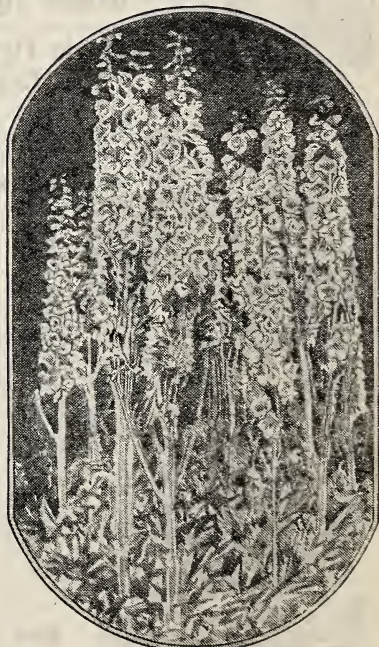

Chrysanthemum (Hardy October Rose)—The development of the hardy Chrysanthemum has made it possible to have color, life and beauty in the garden when the other hardy plants have passed. Fine for cut flower. Large Flowering Varieties. Autumn Beauty—Golden Brown.

Autumn Glow—Red.

Quinola—Large Golden Yellow.

Old Homestead—Soft Pink.

Coreopsis (Tickseed)—The flowers are a rich, golden yellow of slender graceful form, making an excellent cut flower. Two feet high. Blooms all summer. Daisy—(See Shasta Daisy.)

Delphiniums

HARDY PERENNIALS--Continued

Gaillardia The most glorious of our true "Old-fashioned Flowers." Flowering constantly from June till October in many rich and brilliant colors of orange, crimson and red. Unexcelled as a cut flower.

Gypsophila (Baby's Breath)—Masses of minute flowers produced throughout the summer, very fine for cutting and drying. *Paniculata Grandiflora*—Pure White.

Hemerocallis Lily-like flowers with very ornamental foliage, color pure yellow. Three feet high. Blooms July-August.

Thunbergia—Funnel-shaped flowers of rich yellow.

Hardy Everlasting Sweet Peas (*Lathyrus Latifolius*). Hardy perpetual blooming Sweet Peas, fine for covering old stumps, etc. They are perfectly hardy, increasing in beauty each year. Valuable for cutting. Three colors—White Pearl, Pink Beauty and Splendens Red. Strong roots. Set of three, one of each, not labeled, for 35c, 3 sets \$1.00.

Giant Flowering Mallow Marvel

(See illustration on last cover page)

Hardy Everywhere, Flowers, July to Sept.

This is a wonderful perennial growing 5 to 7 feet high, in a clump several feet around the base with tops 4 to 6 feet across, loaded with giant flowers 5 to 8 inches in diameter from July to September. It is so remarkable and beautiful that we just know that every home-maker will love to have them. Absolutely hardy everywhere in the United States and Canada. We can safely say that there is not another hardy perennial or shrub that surpasses it for size of plant, brilliance of flowers and profusion of blooms. Plant 5 to 6 feet apart each way because they develop into large bushes. See illustration on 4th cover page.

Price Separate Colors—Red or Crimson, white and pink. Please tell us whether we shall send mixed colors if out of any of these. One 50c; 3 for \$1.25; 6 for \$2.25; dozen, \$4.00.

Mixed colors—In all the rich colors and shades of crimson, pink and white; One 40c; 3 for \$1.00; 6 for \$1.75; dozen \$3.00.

Hollyhocks Our Hollyhocks are produced by a method that insures them free from rust. If you buy them elsewhere you may have that trouble.

Double Mixed, Single Mixed, Allegheny—Flowers seldom less than 5 inches across and fringed. Constant bloomers. Each 30c; 4 for \$1.00; dozen, \$2.50.

Lily of the Valley This flower is well known and appreciated by all. We sell field-grown clumps that will give immediate effect. Some of the roots can be taken up and bloomed in pots in the house.

Poppies Oriental and Iceland (See department of Flower Seeds. We do not attempt to ship the plants on account of their perishable nature.)

Platycodon (Japanese Bell Flower)—One of the finest hardy plants. Produced from July until frost, very showy, violet blue flowers almost rivaling the charming Jackmanii Clematis. 1 to 2 feet high. Each 25c; 5 for \$1.00; doz., \$2.25.

Phlox Beauty and usefulness bring these hardy border plants among those of greatest importance. For massing they are very effective and their great variety of color adds a brilliancy to the landscape. Their flowering season begins in July and if the past bloom spikes are removed, the blooming period may be prolonged until fall. Separate colors—White, Pink, Lavender, Red, each.

Pyrethrum Hybridum Hardy Daisy. A group of graceful free-flowering plants that are unequalled for cut-

Platycodon

ting. Colors range from pure white to most brilliant scarlet. Bloom practically all summer.

Rudbeckia (Golden Glow) An old favorite in the "Old Fashioned Garden." Fine for cutting. Five feet high. Blooms July-September.

Shasta Daisy A much improved hardy daisy, bearing a great profusion of large white flowers from early summer until late in the fall. Fine for cut flowers. Two to two and a half feet high.

Tritoma (Red Hot Poker)—A beautiful late flowering plant, having handsome red-like foliage. Flowers are of a rich orange scarlet color three feet high. Blooms Sept. Nov. 25c; 5 for \$1.00; doz. \$2.25.

Price of any Hardy Perennials, unless priced with the description: Each 25c; 5 for \$1.00; dozen, \$2.00; per 100, \$12.50. An order for a dozen or more may include two or more varieties. Delivered by express or parcels post paid at these prices.

Blooming From Frost to Frost

Honest Now, Mr. and Mrs. Householder, if you were to make the very best wish, would you not wish for a planting of hardy things on your place that will give you flowers and nice foliage from early spring until late fall? But when you made such a wish you probably would not know just what to select. So here we help you. All you will need to do will be to send for the collections at the prices, or buy from our list of Hardy perennials as many as you want. The plants in this collection are our regular full size. These collections should appeal particularly to people starting a new place. The plants may be divided for new plantings after a year or two.

Variety	Blooms	1 pkt. Seeds	1 Plant

Shasta Daisy	—June-Oct.	----- .05	.25

The value—1 packet seeds of each variety, 80c. 1 plant of each variety, \$2.50.

Our Offer—The 10 packets of seeds for 60c. The 10 plants for \$2.00. All delivered.

ROSES

While our list of roses is not large it is made up of those kinds of moderate price, that are the most certain to succeed, will give the most satisfaction and will be the most enjoyed by the average grower. You can make your selection from the following list and be assured that you will get only the truly meritorious varieties. We send out two-year field grown bushes guarantee to arrive in good condition and that will go right to growing, and soon give you an abundance of blooms. When planting be sure to firm the ground around the roots.

To meet all demands in quality and prices, we list the following varieties in 2 yr. Field-grown, 2-yr Green-house grown and 1-yr. Green-house grown. The Green-house grown have been hardened.

Prices. All varieties unless priced with description:

	One	Three	Six	Doz.
2 year Field grown -----	\$.60	\$1.75	\$3.25	\$6.00
2 year House grown -----	.60	1.75	3.25	6.00
1 year House grown -----	.35	1.00	1.75	3.00

Orders for 3 or more need not be all of one variety but may be of different varieties and the price for 3 will apply. Delivered at prices.

See a Splendid Rose Offer on 3rd cover page.

Hardy Everblooming Tea Roses

Columbia New, large, clear pink. Very full and beautiful. The American Rose Society awarded the Gold Medal to this variety as the best rose in 5 years.

Golden Emblem A most charming yellow rose with lovely buds on long stems well above the foliage. Is a great favorite wherever grown.

Ophelia Brilliant Salmon, shaded with rose on outer edge of petals with a heart of glowing-peach-pink and orange-yellow blendings.

Hadley Bright red flowers of good form and habits, on a vigorous plant. A rose for one and all.

Helen Gould Rosy crimson. Long beautiful buds and full double flowers.

Jonkheer J. L. Mock Extra large and well-shaped flowers varying from bright cherry red on the outside of petals to silvery white inside. No other rose like this.

Hybrid Perpetual Roses

Frau Karl Druschki The White American Beauty. This rose gives us profuse blooms in June, then if permitted to, will produce many flowers throughout the summer. There is no substitute for "Druschki".

Black Prince Intensely dark-crimson approaching black. Nothing else like it and is much sought after because of its novel, cup shaped flowers, large and full.

Paul Neyron The largest rose bloom of all. Bright shining pink, very full and double. Blooms all summer. Grows to great heights.

Climbing Roses

The prices of Climbing Roses are 20 per cent (one-fifth) less than at the head of Rose list, unless priced with description.

Paul's Scarlet The flowers a vivid scarlet, are of good size, semi-double, very freely produced in clusters of from 3 to 20 flowers each on a much branched cane, the plants being literally covered from top to bottom with bloom.

Dr. Van Fleet Dainty soft flesh-pink. Flowers full and buds pointed and open to a great diameter. A new variety and one of the best.

Gardenia A beautiful yellow climbing rose. Buds bright yellow, opening double flowers of cream color. A fine companion for American Beauty.

Kaiserin Aug. Victoria

Soft pearly-white, tinted with just enough lemon in the center to relieve the white. Remarkably fragrant, beautiful formed flowers on long graceful stems. A Royal rose.

Los Angeles New color is flame pink toned with coral and tinted gold at base of petals. The color is new amongst roses. Plant is a vigorous grower.

Mrs. Charles Bell Has shell-pink flowers, with salmon background. Very vigorous, robust type. A constant bloomer.

Pink Radiance Stands as one of the best half dozen roses for all America. Continually produces lovely, light pink roses with suffusion of deeper color. Can be relied upon under all conditions.

Killarney or the Irish Beauty—Brilliant Pink. Large pointed buds. Flowers very large, of exceeding beauty. Never out of bloom.

Sunburst Intense shades of golden orange and yellow, giving a very brilliant effect. A very large rose and pointed buds.

Red Radiance Like the Pink Radiance except the color is a lovely deep red. A rose of wonderful charm.

Rhea Reid A vivid scarlet crimson and a form that makes this rose a marvel of beauty. It is always blooming.

Emily Gray A remarkable new Climbing rose. Has long, tapering yellow buds which open to semi-double, large flowers of delightful fragrance. If you like something different get this. Price same as at head of Rose list without discount.

American Beauty

The popular American Beauty Rose in climbing form. Has all the characteristics of its relative, including form and fragrance. A mass of blooms in June and bears flowers occasionally through summer. Often attains a height of 10 to 15 feet.

Crimson Rambler

Will attain a height of 10 to 20 feet in a season; produces a marvelous profusion of rich and glowing crimson flowers and clusters during June and July. Each 40c; 3 for \$1.10.

Golden Rose of China

Golden Rose of China (Rosa Hugonis) Please look at the picture of this rose. Now have in mind the appearance of a fine specimen bush of the Spirea Van Houttei, with its mass of white blossoms borne on long, drooping stems! Well this bush will give you much the same effect, but in roses.

The Golden Rose of China Makes a symmetrical bush about 6 feet high and as much in diameter when fully grown. Each branch of the previous year's growth becomes lined all around it, to the very tip, with closely set, wide-open, single rose blooms. Very like the dainty, yellow hollyhocks. So numerous the blooms, that the branches droop over with the loads, like the Spirea branches do. These long arching sprays make beautiful and rare outdoor and indoor decorations, the early part of May, when other flowers are scarce. For table decorations their delicate, yellow blos-

soms harmonize beautifully with the snowy linen and silver, making a charming effect. But its roses are not its only charm. The new growth springing from the roots has a reddish-maroon color which with abundant green leaves makes an attractive foliage plant all summer. During the summer and after the blooms disappear, the old growth should be cut out.

The Golden Rose of China, for its charm, and on its merits, should be as generally grown as the Spirea referred to, (Commonly called Bridal Wreath) Picture this bush, or a hedge of them, on your lawn, or at the corner of your porch. And remember it is hardy and will give you its mass of fairy-like blooms so early every spring, and Acacia-like foliage, on arching branches all the summer through, as long as you live to enjoy them. Each 85c; 3 for \$2.25; doz., \$7.50.

Peonies

There is nothing more beautiful in the Spring-time than Peonies in bloom. Like roses, they are indispensable in the flower garden. They may be combined with Phlox and make a permanent, everblooming bed, or row, or plant Dahlias or Annual between the Peonies for Summer flowering. Our list comprises only the very best kinds. Each one is a "Gem" and has its own particular merit. We recommend selecting Early, Midseason and Late varieties and the range of colors.

All Peonies, unless priced different, one for 50c; 3 for \$1.25; 6 for \$2.25; doz. for \$4.25. Three or more may be of different kinds.

Alfred De Mussett (Mid Season)—White with bluish center and crimson flecks. Large compact. Always pleases.

Festiva Maxima (Early)—White as paper with center flecked crimson. Extra large, globular. Very popular. Each, 75c; 3 for \$2.00; 6 for \$3.75; doz., \$7.00.

La Rosier (Mid Season)—Straw-yellow center shading to creamy white border. Large flat, fine variety.

Mons. Jules Elie (Early)—Satiny pink with amber yellow tints. Very brilliant coloring. One of the finest pinks of all. Each, \$1.00; 3 for \$2.75; 6 for \$5.25; doz., \$10.00.

Madame Camille Bancel (Mid Season)—Glossy lilac pink center shade to salmon. Very fine.

Karl Rosenfield (Early)—Dark velvety crimson. Brilliant clear color. Great size. Splendid variety. Always makes a sensation where grown for first time. Each, \$1.00; 3 for \$2.75; 6 for \$5.25; doz., \$10.00.

Souvenir De Gaspard Calot (Late)—Large size. Lilac rose. Strong grower. One of the best late ones.

Felix Crouse (Mid Season)—Bright ruby red strong grower with graceful bush, one of the best reds.

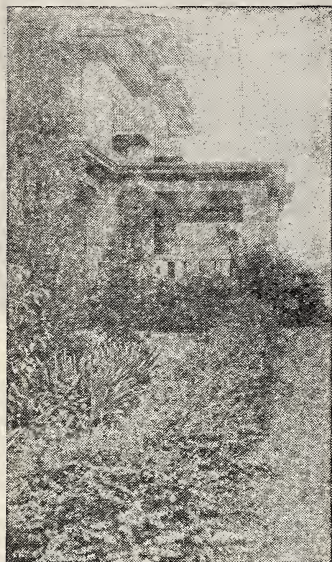

Grover Cleveland (Late)—Dark Crimson, large, showy flowers. Another splendid red.

Rubra Superba (Very late)—Large flower. Deep, brilliant crimson. A strong grower. Should be in all collections because of its beauty and late bloom.

The roses I bought of you came in good condition and were fine healthy plants. They grew fine and bloomed all summer. I was very much pleased with them. Mrs. J. J. Hoffman, Loogootee, Ind.

The Best Hardy Shrubs

A few dollars invested in shrubs now will soon make your home a beauty spot and a greater joy to live in, and if you should later desire to sell it you will find it worth several hundred dollars more. So plant hardy flowering and ornamental shrubs without further delay! All of our shrubs are well developed, not seedlings. If shrubs are to go by Parcel Post add 10c for one, 20c for 3.

Barberry Types

Althea ROSE OF SHARON Blooms August and September. In separate colors. White, Red, Pink, and Purple. Each 50c; 3 for \$1.25.

WM. R. SMITH—Magnificent new variety. Blooms are like giant morning-glories fully 4 inches across and glistening pure white. They open out flat, quite different from the older types which only partially expand. They are produced in great profusion from early in July until late in September. Makes a marvelous hedge. Each \$1.00; 3 for \$2.50.

Barberry Thunbergii JAPAN BARBERRY 12 to 18 inches. Each 30c; 3 for 75c; dozen, \$2.75; 18 to 24 inches. Each 40c; 3 for \$1.00; dozen, \$3.50.

Red Leaved Barberry (New)—In habit of growth this barberry is like the popular Japanese variety But in its foliage is its great difference, and its greater beauty. For instance, as soon as the foliage develops in the spring, it is a rich, bronzy red color and it retains this color all through the summer, when other Spireas are green. In the fall it bears brilliant scarlet berries, which hang on the plants all winter. It will thrive in sun or shade, but to get the full red color, plant in sun. Price—One year old, each 65c; 3 for \$1.50; per doz., \$5.00; Two year old, each 75c; 3 for \$2.00; per doz., \$7.50, delivered.

Calycanthus SWEET SHRUB—Flowers purple, double, deliciously fragrant. Foliage rich, dark green. Very desirable. Each 60c; 3 for \$1.50.

Deutzia PRIDE OF ROCHESTER—Large white flowers tinged with rose. Profuse bloomer and one of the earliest hardy plants to bloom, following right after Spirea Van Houttei. Succeeds everywhere. Each 50c; 3 for \$1.25.

DEUTZIA CRENATA MAGNIFICA—A new Deutzia. In its great fluffy bunches of white flowers it excels all others. See illustration. Each 75c; 3 for \$2.00

Deutzia Crenata Magnifica

Dogwood CORNUS—Grows 6 to 10 feet tall. Bears clusters of small white flowers in early summer, followed by whitish blue berries. Each 50c; 3 for \$1.25.

Golden Bell or Forsythia This is the shrub which when it everybody admires and many people seek for the name of it. Small bell-shaped, beautiful, bright-yellow flowers appear before the leaves. One of the most ornamental. Succeeds everywhere. Each 50c; 3 for \$1.25.

Honeysuckle BUSH—Forms beautiful tall bushes, with handsome foliage and beautiful pink flowers. Its flowers are followed by orange or red berries which cover the plant in Summer and Autumn. Each 50c; 3 for \$1.25.

Hydrangea ARBORESCENS Large round white flowers, July to September. Each 65c; 3 for \$1.50.

GRANDIFLORA—The well known hydrangea. Each 60c; 3 for \$1.50.

PANICULATA—Tree Form—this type is most valuable for specimen planting because of its form and height which is 7 to 8 feet. Each \$1.50.

CLIMBING HYDRANGEAS—See dept. of Climbers.

Syringa or Lilac An old favorite loved by all. We offer them in the following colors: Red, White, and Purple. Each 75c; 3 for \$2.00.

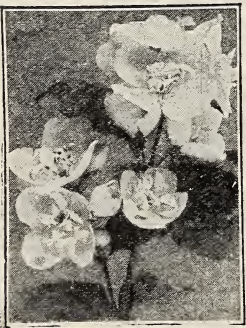

Privet CALIFORNIA—1 year dozen 75c; 50 for \$3.00; 100 for \$5.00; 2 year, dozen, \$1.25; 50 for \$4.00; 100 for \$6.50.

AMOR RIVER—This is the hardiest of all. Just as pretty as the California, but never winter kills. 1 year, dozen \$1.25; 50 for \$6.00; 100 for \$10.00; 2 year, dozen, \$2.00; 50 for \$7.00; 10 for \$3.00.

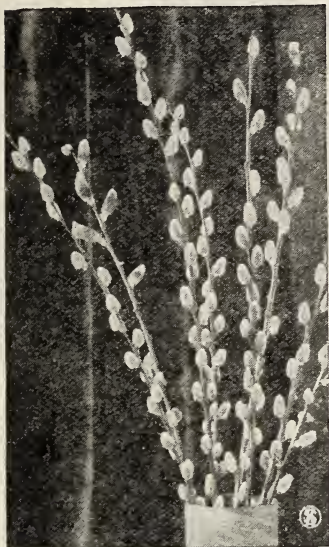

Philadelphus MOCK ORANGE Grows 8 to 10 ft. high. Creamy white flowers in May. Each 50c; 3 for \$1.25.

VIRGINAL—Blooms all Summer. Beautiful, large crested flowers. The grandest of all Philadelphus. An amazing advance on the old-time varieties, all of which bloom bountifully, but the richly fragrant flowers of Virginal, almost 3 inches across, surpass them all and continue blooming during the summer. Each 75c; 3 for \$2.00.

Particular Notice If you live in Georgia, Oklahoma or West Virginia, don't send us any orders for any kind of Nursery Stock as your state Laws make it impracticable to deliver it to you. This does not refer to Perennials and Bulbs, which we can send.

New Philadelphus Virginal

French Pussy Willow Bouquet cut in February. Place in water and they develop as interestingly as Gladiolus.

whiter and in clusters followed by red fruit. Each 75c; 3 for \$2.00.

Spirea ANTHONY WATERER. Blooms early Spring and more or less until fall if fading blooms are cut away. Color pink. Each 50c; 3 for \$1.25.

VAN HOUTTEI (Bridal Wreath)—Heavy plants Each 30c; dozen, \$3.25; 2 to 3 ft. Each, 50c; dozen \$4.50.

FROBELI SPIREA—Grows 2 to 3 feet high. Will flower in June and more or less during the summer. Or if cut back after first flowers fade will make another full bloom later. Fine as a single plant, but most effective as a border and in front of taller shrubs. Particularly fine in front of your porch. Give about one foot to a plant. Price 2 year old field grown; one 40c; 3 for \$1.00; per doz., \$3.50.

Pussy Willow You probably are acquainted with the wild PUSSEY WILLOW that you delighted to gather very early in the Spring. Well, this is not the wild one, but a cultivated French variety that succeeds on any good ground. **YOU CAN HAVE IT ON YOUR LAWN** and enjoy the dainty, silvery "Pussy" flowers every winter. It grows into a beautiful round shrub or small tree 8 to 15 ft. high and is a handsome little willow tree all summer. Wherever there is space for a Lilac or Snowball you have room for a Pussy Willow. Fine for background. In January or February cut the ends of the branches off, bring indoors, put in a vase or dish of water and watch them unfold their flowers. Especially interesting in school rooms and as bouquets to sick people. In a commercial way the branches sell in city markets at \$1.00 up per dozen. Reach full growth in 4 years. A well grown tree will make 400 to 600 cuttings each winter.

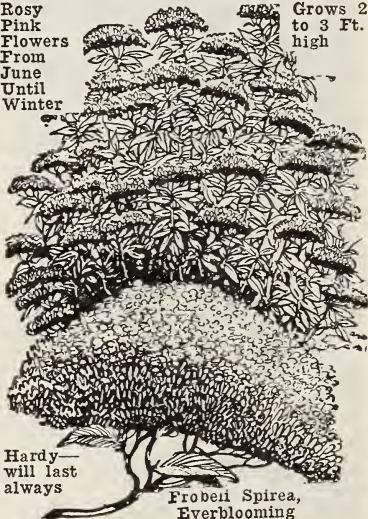

No matter how many trees or shrubs you have you should have this French Pussy Willow. Prices 3 to 4 ft., 60c; 3 for \$1.50; 6 for \$2.25; per dozen \$4.00.

Snowball This class of shrubs includes the well known Snowball seen on many lawns.

OPULUS STERILE—The well known favorite Snowball bush which is loaded with large white balls in clusters in May. It is found on nearly every lawn or should be. Grows 6 to 8 feet. Each 60c; 3 for \$1.50.

PLICATUM (Japan Snowball) Of even better habit than the old form. Flowers

Rosy Pink Flowers From June Until Winter Grows 2 to 3 Ft. high

Hardy—will last always

Probeli Spirea, Everblooming

Weigelia Eva Rathka Blooms continuously throughout the summer and autumn. Each 75c; 3 for \$2.00.

Butterfly Bush

A hardy, beautiful perennial with deep purplish lilac flowers borne in long, graceful panicles, commencing to open in June and continuing until frost. Its long gray leaves adds greatly to its beauty and in every way it is a welcome addition to our late blooming plants. It is a rapid grower and profuse bloomer, and the first season it may throw out as many as 50 flower spikes. It attains a height of 5 to 6 feet. Flowers have a slight lilac fragrance, hence its designation as the "Summer Lilac". This shrub is very desirable as an individual specimen in the lawn and garden or grown promiscuously in the shrubbery border. It is a deciduous shrub, the top dying down in the winter. New wood comes up in the spring which bear the flowers. It is hardy,

but is better with protection in severe winters. But even if it should perish, one summer's bloom is so beautiful that it would justify planting each year. Price, House grown, 30c; 4 for \$1.00; 6 for \$1.75; 12 for \$3.00; two-year, field grown, 60c; 2 for \$1.00; 6 for \$3.50; 12 for, \$6.00.

CHARMING CLIMBERS

For Every Situation--Once Planted, lasts Always

Without climbing vines many homes would lack much of their beauty. Then it follows that many homes that are still dull and unattractive can be made beautiful from early spring, when the tendrils of hardy climbers take on new life till Winter comes again. If by mail add 10c for one; 20c for three.

Dutchman's Pipe

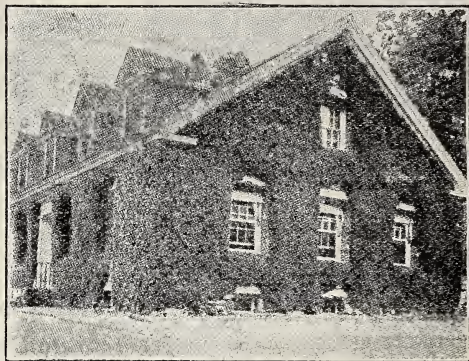

Ampelopsis, Veitchii (Boston Ivy)—Clings to any wall, no matter how hard or smooth. The leaves change in Fall to a vivid autumnal tinge. Each 50c; 3 for \$1.00.

Aristolochia flowers are very interesting but the heart-shaped leaves of great size are the most important feature as they quickly furnish the most complete leaf screen of any cultivated vine. They are both very ornamental and useful. Grow in sun or shade but prefers northern exposure. Entirely hardy. Each \$1.00; 3 for \$2.75; 6 for \$5.00. See illustration to left.

Bittersweet (Celastrus Scandens)—A rapid growing vine, which has yellow flowers in early summer that produce bright orange colored fruits by autumn which remain on the stems all winter unless eaten by the birds. They are useful for bringing bright colors to the home in winter. Each 65c; 3 for \$1.50.

Bittersweet Evergreen (Evonymus Radicans)—Said by some authorities to be "the best vine in the world." Here are some of its merits. Judge for your-

self: (1) Evergreen; therefore beautiful 365 days in the year; (2) easy to grow, trailing on the ground or climb to 30 feet; (3) hardier than ivy; (4) is beautiful red fruits which redeem our winters from their bleak and cheerless moods (5) it will climb on almost any wall, be it stone, concrete or brick, smooth or rough, if it is first helped to start up. Water liberally the first year and protect over first winter. Each 75c; 3 for \$2.00.

Evonymus Radicans on Brick House

Clematis, Paniculata (White Flower)—2 years. Each, 75c; 3 for \$1.25.

Clematis, Jackmanii (Blue Flower)—2 years. Each 75c; 3 for \$2.00.

Chinese Wistaria Purple Flowers are borne in large drooping clusters. Grows to great length and dense foliage. Each 60c; 3 for \$1.50.

Cinnamon Vine One of the most popular hardy vines. It has dark green foliage and late in the season bears a profusion of small white flowers of a delicious cinnamon fragrance. Also little bulbets which may be planted. Although the vines die down to the ground each autumn they grow up very rapidly in the early spring, soon covering any trellis or arbor. Where you wish covering to porch or to hide unsightly places we suggest planting a Cinnamon Vine, setting 10 inches apart. Plant any time in spring. Strong Tubers, each 10c; 6 for 50c; 15 for \$1.00. Large Tubers, 15c each; 4 for 50c; 10 for \$1.00. Mammoth size tubers 20c each, postpaid.

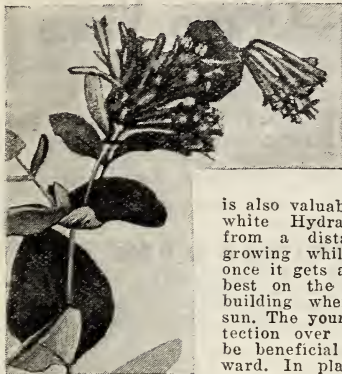

Honeysuckle, Hall's Japan Pure white and creamy yellow. Very fragrant. Each, 50c; 3 for \$1.00.

Kudzu Vine One of the best hardy climbers, will run 30 to 40 feet in one season. Profuse rosy-purple, flowers in small racemes in August. Makes dense shade. Each 35c; 3 for \$1.00.

Matrimony Vine Flowers from June to September. Pink to purple; very fine for trellises and fences. Each 35c; 4 for \$1.00.

Cinnamon Vine

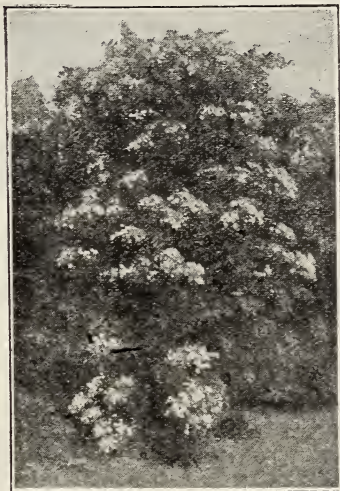

Coral Honeysuckle

Coral Honeysuckle (or Trumpet Honeysuckle) One of the finest varieties but little known Its flowers are scarlet or Coral colored, 2 inches long, borne in clustered spikes at the ends of branchlets. The flowers are followed by scarlet berries. Leaves are very much evergreen. One of the most beautiful vines to cover trellises, fences and arbors. Admirable for covering steep banks where difficult to sod where they grow rapidly and need little attention. Plant 6 feet apart on fences. Remove old wood branches each spring. Each 60c; 3 for \$1.50; doz., \$5.00.

Climbing Hydrangea This is one of the few climbers that will cling to stone walls. It

is also valuable as a creeper. The large white Hydrangea flowers are showy from a distance. This vine is slow growing while young but rapid after once it gets a good start. They succeed best on the north or east side of a building where they get only partial sun. The young plants should have protection over the first winter and will be beneficial if leaves cover it afterward. In planting this and all other strong-growing climbers holes at least 2 feet in diameter and 2 to 3 feet deep should be dug. Apply manure liberally and thoroughly mix with good soil. Firm the soil over roots. Price each \$1.00; 3 for \$2.50.

Climbing Hydrangea

Maderia Vine A rapid growing vine that makes a dense foliage. Bears sweet white flowers. Grows well everywhere, but it partial to sunny location. Tubers. Each 10c; dozen, 75c. Protect tubers in winter or take them up and keep over in cellar.

Trumpet Vine (*Bignonia Radicans*) A very strong growing shrubby vine with rich foliage profusely set with trumpet-shaped flowers that are bright red. Blooms a long time. Entirely hardy. Each 50c; 3 for \$1.25.

PERMANENT ORNAMENTAL GRASS BED

AN UNUSUAL LAWN DECORATION

Made up of these hardy, Permanent Grasses

Erianthus Ravena (*Flum Grass or Hardy Pampas*) Frequently throws up 30 to 40 plume stems. Grows 10 to 12 feet high. One clump, 60c; 3 or more at 50c each delivered.

Eulalia Japonica Variegata—Long narrow leaves striped green, white and sometimes pink or yellow. Very ornamental. 5 to 6 feet. One clump, 50c; 3 or more at 40c each delivered.

Eulalia Japonica Zebrina—The long leaves of this variety are marked with broad yellow bands across the leaf. A very attractive specimen. 5 to 6 feet. One clump, 50c; 3 or more at 40c each, delivered.

Special Offer To plant a bed, we will send 2 *Erianthus*, 3 *Eulalia Variegata* and 3 *Eulalia Zebrina* all for \$3.10 delivered.

To Make The Bed Lay out a circle 6 to 8 feet in diameter. Grade it so the center will be about 6 inches higher than the circumference. Have ground rich with good fertilizer. Bone meal will be lasting Put 2 or 3 clumps of *Erianthus* in center. Then plant 3 or 4 of each of the other two varieties alternating near the circumference. Treat as any other hardy perennials. The plants will increase in size until all the space will be occupied and the bed will be an outstanding feature on any lawn. All these varieties produce plumes in the Fall which make attractive everlasting bouquets.

Amaranthus Salicifolius

Fountain Plant A graceful plant growing 3 feet high with leaves 5 to 8 inches long, 1/4 inch wide and droop like shown in the illustration. Color, bronze-green, changing to orange-red, with shading of gold. The plant resembles a miniature breeze. Pkt. of seed 10c; 3 for 25c.

Everlasting Strawflowers

The Everlastings or "Straw Flowers" with their rich and bright colorings, are most valuable for winter decorations. Plants grow readily from seed sown in the open ground when the trees are starting out in leaf. The blooms should be cut as soon as they open, tied in small bunches, and dried slowly in a cool, shady place, hanging the flowers downward to keep the stems straight. Every one should grow some for winter bouquets, table centers, etc. Also they can be sold at profitable prices, summer and winter.

Helichrysum Of all Everlastings, this is the best known. The plants grow 2 to 3 feet high and are covered with fine large double flowers. White, pink, yellow and scarlet. Mixed, Pkt., 6c; 1/4 oz., 25c.

Globe Amaranth A showy Everlasting that has blooms like clover heads. It grows 2 feet high and blooms profusely. Colors: White, pink, red, salmon and rose. Mixed. All colors. Pkt., 6c; 1/4 oz., 25c.

Fruit Trees--Berry Plants--Grape Vines

If you are starting a new place, or if you have an old place without fruit you should not wait longer. Planted this year you will have an abundance of fruit almost before you realize it. But neglected for years as a consequence you will miss the pleasures that fruit only can give.

If Fruit Trees are to be sent by parcel post add 15 cents each for postage and packing

Apple Trees Size 4 to 6 feet

EARLY SUMMER VARIETIES

PRICE—All Apple Trees, 75c each; 3 for \$2.00; per dozen \$7.00.

Early Harvest—Pale yellow.

Yellow Transparent—White to pale yellow.

LATE SUMMER VARIETIES

Maiden Blush—Yellow with red blush.

Fall Pippin—Large yellow rich.

FALL AND WINTER VARIETIES

Baldwin—Bright red, sub-acid.

Delicious—Large, bright red, blending to golden yellow.

Grimes Golden—Golden yellow.

Jonathan—Beautiful, clear light yellow.

McIntosh—Deep Crimson, highest quality, sub-acid.

Rome Beauty—Large yellow, shaded bright red, juicy.

Winesap—Dark red, sub-acid. Splendid.

Crab Apples

PRICE—Each 75c; 3 for \$2.00; dozen \$7.00.

Hyslop—Large yellow to crimson.

Yellow Siberian—Medium yellow.

Peaches

PRICE—4 to 6 ft. 50c each; 3 for \$1.50; per doz., \$5.50.

Champion—White flesh, free, August.

Carman—White flesh, free, August.

Elberta—Yellow flesh, free, September.

J. H. Hale—Mammoth size, yellow flesh, free. Be sure to plant a Hale, September.

Heath's Cling—If you want a clingstone peach, this is the best, October.

Crawford Early—A magnificent, large, early, yellow peach, early September.

Crawford Late—Same as the early, but some larger, late September.

St. John—One of the earliest yellow peaches.

August. Nearly as large as Crawford.

St. John, the two Crawford and Heath's Cling make a splendid succession.

Pears 4 to 6 feet

PRICE of all Pear Trees—Each \$1.00; 3 for \$2.75 dozen \$9.00.

SUMMER VARIETIES

Bartlett—Yellow with blush.

Clapp's Favorite—Yellow, about 1 week earlier than Bartlett.

FALL VARIETIES

Seckle—Small, crimson cheek.

Sheldon—Yellow with shaded cheek, juicy, first quality.

Keiffer—Yellow and crimson, with russet. Will keep until January.

Cherries 4 to 6 feet

PRICE—Each \$1.00; 3 for \$2.75; dozen, \$9.00.

Black Tatarian—Late sweet, June.

Early Richmond—Sour, July.

English Morillo—Reliable bearer. Dark red, acid, August.

Napoleon—Sweet, yellowish red, juicy, productive, July.

Montmorency—Late, tart, late June.

Windsor—Large, liver color, late; very valuable for family or market, July.

Plums 4 to 6 feet

Plum trees should not stand singly as two or more are needed to fertilize the blossoms.

Green Gage—Greenish yellow, August.

German Prune—Large, long, oval, purple; flesh sweet. Does not cling to stone, September.

Abundance—Red, Aug.

Burbank—Reddish purple, August.

Lombard—Violet red, August.

'Reine Claude'—Large green, red cheek, hang long on the tree, one of the best, late September.

Shropshire Damson—Dark purple. Very prolific, fine for preserves, October.

New Plums

Sapa and Waneta

These remarkable new plums were originated in the cold northwest. If you have not got plum trees you should not let another season go by without setting some of these. Here are some of their points of merit:

These plum trees no larger around than a lead pencil have matured 30 plums. Lots of trees 2-years old, coming 3, have produced one-half to three fourths of a bushel of fruit. Tender skin, delicious taste and born in such great profusion that you need baskets to pick them in. Medium size. Hardy enough to withstand any winter temperature, and very hot summers. These points the Sapa and Waneta plums have.

Sapa (See the illustration) Skin green, then turns deep black and the flesh is royal purple. Delicious as a fresh fruit and excellent for preserves and jelly. Good shipper. They form in long ropes along the branches as shown in illustration. Planted this spring will bear in 1928. Price 3 to 4 ft. each \$1.00; 3, \$2.50.

Waneta Skin red, flesh yellow. Delicious flavor and suitable for all uses to which plums are put at home and to market. Size is 'mammoth', with reasonable cultivation they grow as large as a good peach or a medium-size apple with a small pit. Matures early. Hardy everywhere. Tree grows, sometimes 10 feet in one year and reach 15 feet, spreading and should yield four bushels of fruit per tree. Price \$1.00; 3 for \$2.50.

Branches from Sapa Plum Tree showing the prolific bearing of fruit

Quinces

PRICE—Each \$1.00; 3 for \$2.75; dozen \$3.00.
Champion—Greenish yellow.
Meeche's Prolific—Bright yellow.

Apricots

PRICE—Each 85c; 3 for \$2.25; dozen \$3.00.
Superb—Early.

If Fruit Plants are to go by mail add 15 cents per dozen; 50 cents per 100 for postage and packing.

Raspberry

PRICE—of all Raspberries—Each 10c; 3 for 25c; 12 for \$1.00; 100 for \$4.50.

Columbia—Red.

Cuthbert—Red.

Plum Farmer—Black, large berries, one of the best early sorts for home and market.

Gregg—Black, well known market sort, large and very productive.

St. Regis—Crimson.

Blackberry

PRICE of all Blackberries—Each 10c; 3 for 25c; 12 for \$1.00; 100 for \$5.50.

Blower—Jet black, large size, best quality. Home or market.

Eldorado—Very large, fine.

Snyder—The hardiest.

Currants

We can sell Currants only in Indiana.

PRICE—Each 25c; 3 for \$1.00; 12 for \$3.00.

Fay's Prolific—Red, very large.

Wilder—Red, an unsurpassed variety for all purposes.

White Grape—White, large, excellent quality.

Strawberry Plants

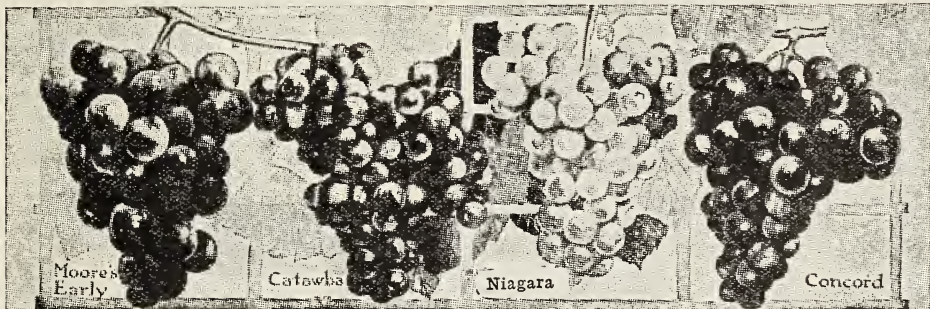

By Mail, Everywhere

Send your orders for strawberry plants to us. We can supply you with the best plants that can be produced and will guarantee to get them to you in good condition, or will replace, if report is made in 3 days. In this way you will make the right start which will be a great thing toward profitable crops. All our varieties have "Perfect" blossoms. All prices up to 500 are delivered. 1000 lots not prepaid.

Best Varieties Grape Vines

There is scarcely a country or city yard or garden so small that space cannot be found to plant from 1 to 12 or more grape vines. When once planted they will last a lifetime with very little care and bear freely of the healthiest, most delicious, most profitable and most satisfactory fruit. All vines 2-year old with large roots.
PRICE—2 year old vine, each 20c; 6 for \$1.00; 12 for \$1.50, unless priced otherwise. Delivered. Set of 4 varieties; One each Concord, Moore's Early, Catawba and Niagara, delivered 60c.

White Grapes

Niagara White. The standard white grape, as large as Concord.

Winchell New. One of the earliest of all. Hardy, productive. Each 40c; 3, \$1.00; doz., \$3.50.

Black Grapes

Concord Black, large, very yielding. Most popular of all grapes.

Moore's Early Black, early. Like the Concord, but earlier.

Worden Resembles Concord, but larger. Ripens earlier.

Red Grapes

Catawba Red, late, a great wine grape.

Delaware Red, exquisite little grapes, highest quality. Best for white wine.

Lutie (New) Catawba is the latest red grape and this is the earliest. Lutie is new. Large bunch and berry; flesh tender, juicy, sweet, sprightly flavor. Very hardy vine, very productive. One of the best for jelly and juice. Each 40c; 3 for \$1.00; doz., \$3.50.

Farm Seeds

It is not possible to quote prices on farm seeds that will be good during the season therefore, when you are ready to buy tell us what you want, and get our offers. The prices quoted below were current when the copy for this catalogue was prepared. The O. K. Brands of Farm Seeds are the highest type.

Our customers should inoculate their seeds of legumes, which will mean bigger crops and better satisfaction.

Cotton bags cost extra, 35c each.

Clover Seed

The Clovers have justly been called the "Corner stone of Agriculture" in the Northern, Eastern and Central States.

Soy Beans

The cultivation of this crop is increasing rapidly. Wherever it has been introduced, it is proving to be one of the most valuable grain and forage for stock. Also, a crop of Soy Beans equals

a crop of clover for enriching the soil. Soy Beans as a feed take the place of oil or gluten. Fed to milch cows and for fattening hogs, they give wonderful results.

The seed of Soy Beans and Cow Peas should be inoculated no matter how good the ground. Fresh inoculation is almost certain to increase growth.

Cow Peas

The Great Soil Improver. Cow Peas, like Clover, Vetch, Soy Beans, etc., have the property of taking nitrogen from the air and storing it in the soil. Whether the whole vine and root are used for fertilizer, or the vine is used for feed, any land that produced a crop of Cow Peas has improved in its contents of fertility.

Inoculate

All legume crops can be inoculated. Inoculation with new and virile bacteria is an advantage even on soil that is capable of producing the crop reasonably well. Therefore, we claim, every time a legume crop is planted on the farm or in the garden, it will be a benefit to apply a fresh inoculant to the seed. The expense will be only a trifle and the directions show how it can be done with little trouble. The crops to inoculate are as follows:

Class A—Garden Crops. Peas, Beans, including Lima Beans, and Sweet Peas.

Class B—Alfalfas and Clovers.

Class C—Cow Peas and Soy Beans.

Always say what crop to be used on and we will send the right kind.

A brand with a great many friends. It is manufactured by a farmer in Ohio,

who has brought a worn out farm to a high state of fertility through legumes and his robust bacteria inoculant. Garden size, Class A—20c. Class B—for 30 lbs. of seed 50c; 60 lbs. \$1.00. Class C—for 60 lbs seed 50c; 120 lbs. seed \$1.00, delivered.

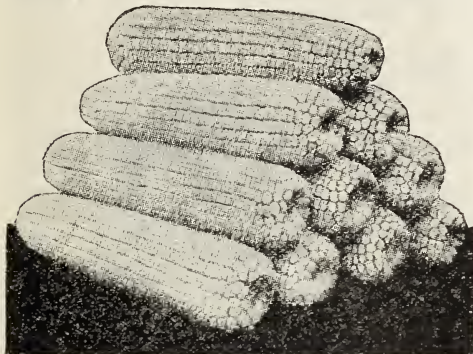

One of the old and time tried bacteria cultures that can be relied upon. Garden size, Class A—20c;

Class B—1/4 Bu. 40c; 1/2 Bu. 60c; 1 Bu. \$1.00; 5 Bu. \$4.75. Class C—1/2 Bu. 40c; 1 Bu. 70c; 5 Bu. \$2.50.

I have always had more or less trouble in getting seed or my garden that would come up and grow well until last year when I ordered my seeds from you. I was more than pleased with the results. The seed came up so well and were such strong healthy plants. Mrs. Altho L. Wiles, Lebanon, Ind.

The harvest of corn depends more upon the seed you plant than on all other things combined. Prepare now for the best crop that you can possibly raise by getting your seed from the Nation's breeding center, CENTRAL INDIANA as you probably know, has taken nearly all the prizes at great corn shows or many years. It is famous or its corn Kings, and may be called the Nation's Corn-breeding center. Seed corn grown here is suited to growers over a wide territory.

10 Prize Ears Farmers Interest

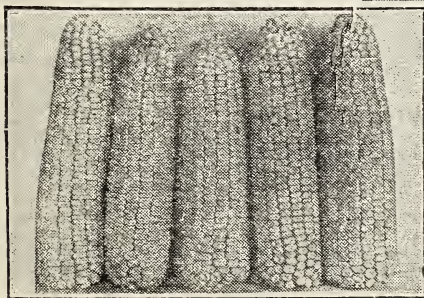

Long Measure One of Indiana's Premier Varieties was produced by crossing the well-known white hominy on a very long, slender-eared corn and several years of selection. The result has been a larger and better ear than the hominy with earlier maturity, yet yields more.

A strong grower, leafy stalk, ears 10 to 12 inches long, 14 to 16 rows, the grains are large, broad and deep on a medium cob. Moderately dented. Matured in 100 to 110 days.

Our House is the introducer of this valuable corn and we control all of the supply. Can be planted earlier than most kinds. The corn we will send you will look just as good as that in this picture.

Price. Same as Farmers Interest.

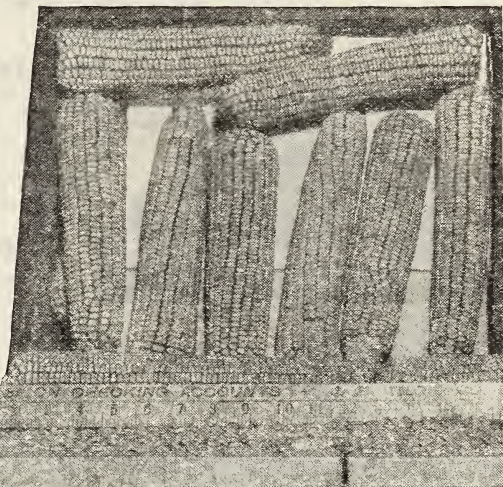

The Farmers Interest and Mortgage Lifter Seed Corn are the best white and yellow corn raised in this country according to my experience, and I am using no other kind. F. P. Jordan, College Grove, Tenn.

Mortgage Lifter

Farmers Interest White Dent This variety of corn has been awarded more Gold and Silver Medals and Cash prizes than any other variety of corn that ever existed.

Our house named and introduced this famous corn many years ago. Since then it was called Johnson County White Dent, and has been sold, also, under that name. It has continuously been the subject of selection and breeding. The Farmers Interest strain is a late corn, but not the latest of this type. It is suited for planting in the latitude of Indianapolis and 50 miles north and in an average season even farther north. For the South, it is par excellence, but new seed should be obtained each three years. We feel safe in guaranteeing this corn to outyield any other corn in sections where it is seasonably adapted. Matures in 120 days. Sample ear 30c; 1 lb., shelled 30c; 5 lbs., \$1.00, delivered. 1/4 bu. \$1.00; 1/2 bu. \$1.85; 1 bu. \$3.50; 5 bu. or more at \$3.00. Not delivered. Bags free.

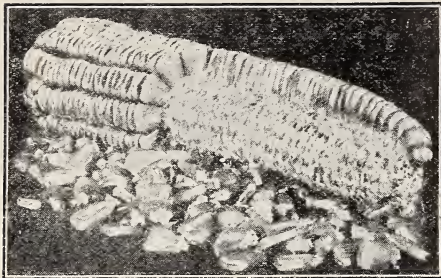

Long Measure

Mortgage Lifter Makes Money Grow. This is the yellow corn that will make such big yields that you can pay off the mortgage if there is one. It is a strong grower and on rich soil makes yields 80 to over 100 bu. to the acre. Mortgage Lifter is taking a place among yellow corn that the Farmers Interest occupies among whites—the most productive hence the most profitable variety to grow. Matures in 110 days.

We want to sell enough of this corn to each corn grower who receives this catalogue to plant at least one field, where our claims will be proved and favorable comparisons made with the varieties he is now growing.

Price: Same as Farmers Interest.

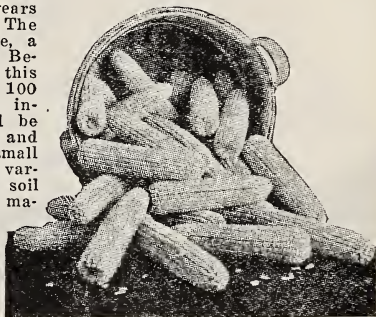

Ten-To-One White Dent The name means 10 lbs. of cobs. The one purpose of the originator of this corn was to produce an Extra Early White Dent Corn That would Yield as much grain as the later varieties.

There is a place on every farm for this valuable corn. Some farmers now plant no other kind. While it is early maturing, it is not exactly a small-eared variety. Ears frequently grow 10 inches long and weigh 12 to 14 ounces. The illustration to left, from a photograph, but reduced in size, shows very well the appearance of an ear, the shelled corn and the cob. Maturing in 90 days.

Price: Same as Farmers Interest.

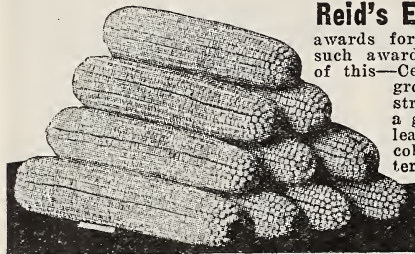

20 Year Leaming Yellow Dent We call this 20-Year Leaming, because the seed was procured from Mr. Leaming in Ohio, twenty-one years ago and it has been grown on the same farm all these years. The grower said: "It has never failed to produce, and mature, a good crop. Last year I had 70 bu. per acre on 100 acres." Because of the frequent bad seasons to mature the corn crop, this variety has been much sought after, coming as it does in 100 days and making very heavy yields. Our sales of it have increased enormously the last few years and this year will be heavier than before. The stalk is medium height, stocky and leafy, bearing usually two good ears, grain deep on a small tapering cob. A very superior corn for feeding cattle. This variety does well on any soil, but has peculiar value on thin soil where it would not pay to plant other kinds. 100 days maturity. Price, the same as Farmers Interest.

I obtained from you and raised Farmers Interest corn. I challenge the country to compete with it. My son got first prize on it in his club work. I am not ashamed to sign my name to this report.—E. C. Owens, R. R. D. 1, Hebron, W. Va.

20-Year Leaming

Reid's Early Yellow Dent This fine yellow corn has been awarded for yellow corn at shows and expositions for years, and such awards quite uniformly have been to breeders and farmers of this—Central—part of Indiana. It has been the most generally grown yellow corn over most of the corn territory. A good strain of the variety possesses practically every merit that a good corn should possess. Stalk medium size. Moderately leafy. Ears good large size with deep grains on a medium cob. Matures in 110 days. Price the same as Farmers Interest.

10 Prize ears Reid's Yellow Dent

King Philip Are you afraid of frost catching your corn crop? Well, many farmers have been and the King Philip corn has been planted extensively in numerous sections and those farmers had sound corn the next winter. While this is a very early corn—90 to 100 days—it is not a small eared corn, nor a lighter yielder. Our growers report excellent yields comparing favorably with later varieties with the great advantage that the crop is always sound, and worth 100 per cent for feeding. The color of the grain is not a true yellow, but on the market would be classed as "Mixed corn." Price the same as Farmers Interest.

Bloody Butcher or Calico. This is a very early mixed-colored corn that is not so good to market as the straight yellow and white varieties, but for feeding it is scarcely approached by any other. The grains are variegated and blotched in colors, white and red stripes and shades. It matures early, is a vigorous grower of medium size, leafy stalks. Grains good depth on a small cob. We do not urge its planting for shipping trade but for home and neighborhood feeding where color is not a consideration, we cannot recommend it too highly.

Price: the same as Farmers Interest.

Pride of the North Extra Early Yellow Dent. This is frequently called "90 Day" Corn because of its rapid growth and early maturity. It is a variety that is suited right up to the Northern border of the corn belt and to very late planting in Southern latitudes.

Price—By mail postpaid: 1 lb., 30c; 5 lbs., \$1.00. By freight or express: ¼ bu., 75c; ½ bu. \$1.50; 1 bu. \$3.00; 5 bu. at \$2.50.

St. Charles White The Famous Red Cob Ensilage Corn. This is a double standard or double purpose corn. While it is probably planted more extensively for ensilage than any other corn, its value as a grain-cropping corn should be kept in mind.

Price—By mail postpaid: 1 lb., 30c; 5 lbs., \$1.00. By freight or express: ¼ bu., 75c; ½ bu. \$1.25; 1 bu. \$2.25; 5 bu., at \$2.00 Bag Included in Prices of Seed Corn.

Eureka Ensilage Besides being one of the very best ensilage corns it ranks high as a grain corn. Yields heavily. It should be planted on strong ground when the stalks will grow 12 to 15 feet high and very leafy. Price the same as Farmers Interest.

NOTE—We aim to have our leading varieties of corn in selected ears at the same price. If you prefer ears say so on your order, but we suggest that you give us permission to send shelled, if no ears of the kind.

FULGHUM OATS--A Red Oats

Superior Points Extra early. Matures right after wheat. The harvester can go directly from wheat to the oats. Its earliness is a great advantage when clover or alfalfa is seeded on the ground. Is rust proof. Outyields and outweighs later oats. Grows medium tall. Does not lodge.

Ohio State University Reports January 6, 1926: "Fulghum oats is the best yielding variety we have tried on the University farm. In a 7 years test the average was more than 5 bushels per acre ahead of the next best. On my own farm 25 acres of Fulghum averaged 81 bushels. In unfavorable seasons I find Fulghum yields relatively more than others and the weight has always been high. It is a good nurse crop for clovers because of its short straw and early maturity." Prof. J. B. Parks.

The color of these oats is red. This will be an objection on the shipping market, but wherever oats are needed for feeding at home, or in the neighborhood, this variety will prove very satisfactory because of its certainty to make a crop, even in bad seasons, its earliness, heavy weight, and good quality for feeding. Our seed will test 35 to 38 pounds.

PRICE—By parcels post, 1 lb., 25c; 5 lbs., \$1.00. By freight or express, 1 bu. \$1.50; 2½ bu. \$3.50; 5 bu. or more at \$1.25. Bags free. Ask for price on large lots.

Northwestern White Oats These oats were brought from the cool northwest, some from North Dakota and some from Canada. They are plump and heavy, testing from 35 to 40 lbs. to the bushel. It pays to get seed oats from Northern districts, occasionally. The unsatisfactory yields of oats, we believe, are mainly because of being "run out" through long growing in a warm climate. Get seed grown in the north.

PRICE—By parcels post, 1 lb., 25c; 5 lbs., \$1.00. By freight or express, 1 bu. \$1.25; 2½ bu. \$3.00; 5 bu. at \$1.10 per bu. Bags free. For large lots ask for prices.

Early, heavy Productive.

Spray and Dust

On the Crops - - In the Poultry House

There are some crops which if you don't intend to spray or dust, you might as well not plant. You know this is true. So if you have not got satisfactory outfits, we will be pleased to supply them. Little Giant Brass Bucket Spray Pump—Entirely of brass. Throws spray and solid stream \$4.30; Same with 8 feet pipe extension \$5.05.

Compressed Air Sprayer—With hose and nozzle. 2½ gal. galvanized tank, \$5.50; Same with brass tank, \$8.25; 4½ gal. galvanized tank, \$6.25; Same with brass tank \$10.50. Cog Gear Barrel Spray Pump No. 1521 With agitator, but without hose or nozzle, \$12.00; same with 15 ft of hose and nozzle, \$16.00; 8 ft. pipe extension, extra \$1.25; Barrel with directions for setting up, \$10.00; All-steel cart, ready to attach to barrel, \$16.00.

Note—The barrel can be procured at home and attached.

Lowell Sprayer or Atomizer—A handy little machine, even can do quite large jobs of spraying with them. Tin, 50c; with galvanized tank, 75c; 25c for delivery.

Lowell Continuous Spray (See illustration) Tin \$1.00. With galvanized tank, \$1.20. 25c extra for delivery.

Dusters—These are for distributing powdered insecticides. They are guaranteed to give satisfaction.

Model D—See illustration. With extension pipe. For vine crops, potatoes, tobacco, beans, small trees, etc. Price \$4.50, 50c for delivery.

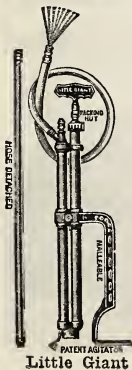

Model A—Same as D without extra powder chamber and extension pipe. \$3.50, 50c for delivery.

Model B—The right size for a moderate size garden. \$1.00, 25c for delivery. Model C—Select this for house plants and where just a few outside plants. Also for roaches, etc. 75c, 25c for delivery.

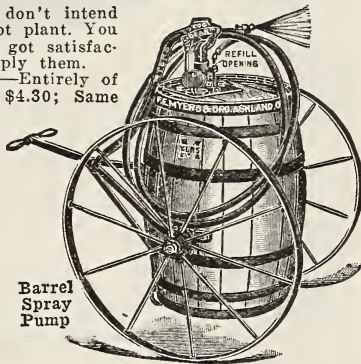

10 Per Cent Discount—Take 10 per cent off on Little Giant, Compressed Air, and Cog Gear Barrel spray pump toward delivery.

Seed Potatoes

On account of the uncertainty of the supply of seed potatoes and lacking knowledge of a fair price that they can be sold at next Spring, About February first, and as frequently as necessary through the season, we will issue a price list of seed potatoes, and other reasonable seeds. If you want to buy Seed potatoes please send your name in. It will be free.

Dependon will
Improve Your Crop

Get New
Blood

Showing shape of the New Potato. The Biggest Early and The Best Extra Early. This new potato is earlier than the Ohio. Grows larger than Cobbler and yields twice the crop of either of them. Remarkable to say there have been numerous cases where Dependon made a profitable crop where the two standby varieties were not worth digging. The tubers are white, smooth, nearly round, never hollow. The flesh is pure, white and "tasty" enough to eat raw. They bake or boil like balls of flour. Even before ripe they will bake white and mealy. Dependon beats

Ohio and Cobblers making table size tubers from the time of planting and as matured tubers they are larger. If planted late, they are ideal for winter keeping. The supply to sell is quite limited this year and we recommend early orders to be sure of getting them.

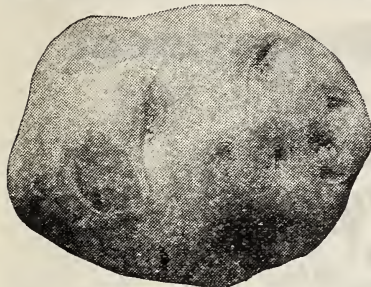

Price for 1927—1 lb., 50c; 3 lbs., \$1.25; Larger quantities at 25c a pound. If requested to do so, we will send a plan for planting along that will make each pound in planting go as far as 10 pounds as usually planted.

AN AGREEMENT—It is to be understood that each purchaser of any Dependon Seed Potatoes in 1927, will send a report of his crop by or before November 1, 1927.

Hybridized Potato Seed

New varieties of potatoes are originated by planting the seeds from the seed ball that grows on the tops. Hybridized seed has far the best chance to produce valuable varieties. This seed contains the blood from two or more of our best kinds mingled. A packet of this seed will give you potatoes of every shape like in the illustration and various colors, among them may be a valuable kind that may make you a fortune. At any rate nothing is more interesting to grow. Full directions on pkt. Price. Pkt., 10c; 3 for 25c.

Green Mountain

Green Mountain Notwithstanding that we introduced this great potato many years ago, we sell large quantities each year both to customers of former years, who want to get a change of seed, and new ones. It is a medium late potato. A very strong grower and is extraordinary in productiveness. The skin is inclined to cream color, making it very beautiful. Covered with a netting which usually denotes good table qualities.

PRICE By mail postpaid, 1 lb., 30c; 4 lbs., \$1.00. By freight or express; 1/4 bu. 75c; 1/2 bu. \$1.25; 1 bu. \$2.25; 2 bu. \$4.00.

Bliss Triumph (Extra Early) This is the standard variety in most of the Southern producing sections to ship to Northern markets and has numerous warm friends in the North. The plant grows rapidly and the tubers are medium size, light red color, with whitest flesh. Its extra earliness productiveness and handsome appearance and fine table qualities make it a favorite with growers, and buyers.

Early Ohio The best known early potato. Skin light pink, with small white blotches. It is a good yielder of shapely potatoes of splendid quality. Makes a good Fall and early Winter potato if planted late.

Irish Cobbler (Medium Early) An excellent variety. One of its good qualities is that it is not apt to set on more tubers than it brings to marketable size. Vines grow short and upright, permitting of close planting. Skin is white and flesh is white. Superior quality. In many sections is preferred to all other early kinds.

Early Rose This is the good old favorite, known by everybody. Our seed is Northern grown.

Rural New Yorker A main crop potato noted for its heavy yields, good keeping and eating qualities and the esteem in which is held on all markets. The tubers are white, large oval many of them flattened with few eyes even with the surface. Flesh white and of excellent quality. A very heavy yielder on good ground.

PRICE—of all except otherwise priced lb. 30c; 4 lbs., \$1.00; postpaid. By express or freight 1/4 bu. 75c; 1/2 bu., \$1.25; 1 bu. \$2.25; 2 bu., \$4.00. For certified Seed of Early Ohio and Irish Cobbler add 25c per bu.

FERTILIZERS

On brands of fertilizers not delivered at the prices, we will allow 10 per cent off which will pay the freight in some instances.

The prices do not include delivery unless otherwise so stated.

STIM-U-PLANT Fertilizer tablets for House plants. Very convenient to use. Very effective. Pkgs. 15c, 25c, and 75c. Delivered to 4th zone.

NITRATE OF SODA If you want to see your garden and lawn at their very best, top dress with this fertilizer. It makes grass and crops hump themselves, or can be applied in liquid. 1 oz., to 1 gal. of water. 1 lb. 15c; 5 lbs. 50c; 10 lbs., 75c.

SHEEP MANURE The most popular garden and lawn fertilizer. 10 lbs., 50c; 25 lbs., \$1.00; 50 lbs. \$1.75; 100 lbs. \$3.00; 500 lbs., \$12.00.

ATLAS WEED KILLER Simply dilute with 20 parts of water and apply on weeds that you want killed, or undesired vegetation, with a sprinkling can. If you have a drive way or path you want to appear neat and clean, you should use Atlas. Qt. 75c; gal. \$2.00; 5 gal. \$8.00; 3 gal. \$37.50. Not mailable.

ATLAS
NON-POISONOUS
WEED KILLER
PATENTED

OYAMA For house and garden plants. House size 30c; garden size \$1.10. Delivered to 4th zone.

PHOSPHATE A safe effective fertilizer. Apply liberally. It is not very expensive but is very effective. 10 lbs. 30c; 25 lbs. 60c; 50 lbs. \$1.00; 100 lbs. \$1.75; 500 lbs. \$8.00.

BONE MEAL Fine Ground. Is pure animal bone finely ground. Unusually rich in nitrogen and phosphoric acid. Unexcelled for permanent results on lawns and in gardens. 10 lbs. 45c; 25 lbs. \$1.00; 50 lbs., \$2.00; 100 lbs., \$3.75; 500 lbs., \$16.50.

SUPERIOR PLANT FOOD For House plants. Pkgs. 50c; \$1.00 delivered to 4th zone.

PLANT MARVEL For house plants. Pkg. 25c. Delivered to 4th zone.

S A C C O A complete fertilizer for Gardens, Lawns and House plants, at a very moderate price. Analysis: Nitrogen 3.29 per cent. Available Phos. acid, 10 per cent, Potash 4 per cent. Price 1 lb., 10c; 5 lbs., 40c; 10 lbs., 60c; 25 lbs., \$1.25; 50 lbs., \$2.00; 100 lbs., at \$3.75.

Don't Forget

ly, bacteria with the seed will improve the crops of Beans, Peas, besides attracting nitrogen fertilizer from the air, that none of the other fertilizers will. Full directions on packages. Priced on page 3 and 54.

No matter how fertile your ground is, or what fertilizers you will use, the simple act of introducing some new, live-

After having planted and raised crops from your O. K. Seeds for a number of years I want to tell you that I have found them the best that I have ever planted. J. W. McWharther, Haytonville, Ky.

I have been using your seeds and shrubbery for a number of years and have had wonderful success, and have always found them true to name. O. F. Hamieson, Pershing, Ind.

- PUPPY MEAL (Fine ground) 1 1/2 lb., 30c; 25 lbs. at 14c lb.

Cyclone Seed Sower

Well known for its accuracy in sowing nearly all kind of seeds, fertilizers, etc., broadcast. Carried comfortably by strap over shoulder, not around neck. Built right and works right. Directions. Price \$2.50; 25c more will deliver to 4th zone.

The "Royal" Line

OF POULTRY HOUSE EQUIPMENT

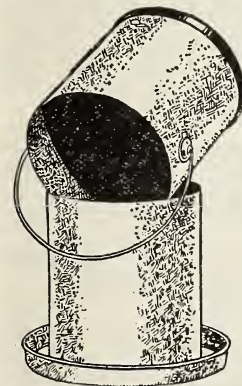

This line is of the very highest quality and at the lowest cost, as our prices will show you. To enable our customers to get these articles rather than something not as good at their home market, we will allow 10 per cent (one tenth) off of the prices. This will usually more than pay transportation, if a fair size order is sent.

Mason Jar Fount

Royal Thermic Fount

Two-Piece Fount

If the full price is sent, we will deliver \$2.00 worth or more.

ROYAL THERMIC FOUNTAIN—Cleanable, Sanitary, Non-Freezing. Keep water cool in Summer and from freezing in Winter. Galvanized iron, 2 gal. size, \$3.25 3 gal., \$3.75; 5 gal. \$4.50.

ROYAL THERMIC FOUNTAIN—Cleanable, Sanitary. For grown fowls or baby chicks. Galvanized iron, 2 gal. size, \$1.50; 3 gal. \$1.75; 5 gal., \$3.00.

ROYAL MASON JAR FOUNTAIN—We furnish the base, you have the jar. You ought to have plenty of these good "tricks." Can be used for chick feed as well as water. Made of three materials at following prices: Galvanized iron, 10c; 3 for 25c; Blue Enameled, 10c; 3 for 25c; Charcoal tin, 15c; 2 for 25c. The charcoal tin is for feeding buttermilk.

ROYAL TWO-PIECE CLEAN OUT FOUNT—Keeps the water cool in Summer and retards freezing in winter. Can be put on floor or hung on wall. Galvanized iron. 3 gal., \$1.50; 5 gal. \$2.25; 8 Gal. \$3.00.

ROYAL CHICK FEEDER—For baby chicks with snap tops. Galvanized iron. Note extremely low prices. 9 in. 15c; 12 in. 25c; 18 in. 35c; 24 in., 45c.

ROYAL CHICK FEEDER—With Slide tops, for baby chicks and larger chickens. 12 in. 35c; 18 in., 45c; 24 in. 50c.

ROYAL BUTTERMILK FEEDER—Made of charcoal tin. It is the feeder that should be used with buttermilk. 12 in. 40c; 18 in. 50c; 24 in. 60c.

ROYAL DRY MASH CHICK HOPPER—The best mash hopper ever made for the price. Galvanized Iron. 24 in. \$2.50; 36 in. \$3.50.

DRY MASH HEN HOPPER—For mash Galvanized Iron. When closed is water and mice proof. 12 in. \$1.75; 18 in. \$2.00; 24 in. \$2.50; 36 in. \$3.50.

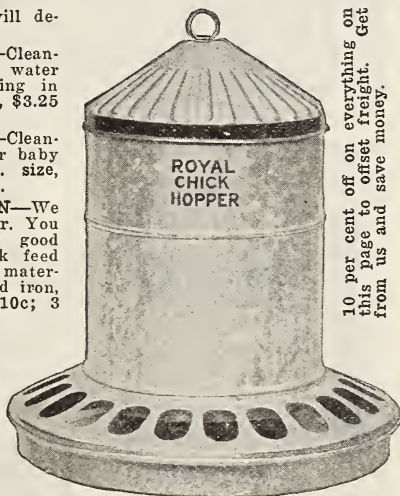

ROYAL POULTRY PUNCH—For marking baby chicks. Each 25c.

ROYAL STOVE BROODERS—Guaranteed to burn soft or hard coal. This outfit, wherever used, is conceded to be the most satisfying one made. 500 chick size has 56 in. hover and 5 inch smoke pipe. The magazine holds 56 lbs. of coal. Special Price, \$25.00.

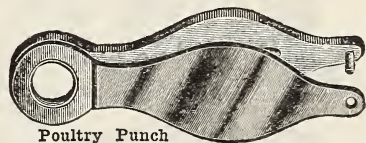

USUAL REMARKS ABOUT ROYAL BROODERS

"The Royal Brooder is just the one I have hunted for for years. Gives best of satisfaction."—Dan Gillen, Wabash, Ind.

"I wish I could sell all my other Brooders and replace them with the Royal Coal Burner." J. E. Montgomery, Trotwood, O.

the Royal Coal Burner." J. E. Montgomery, Trotwood, O.

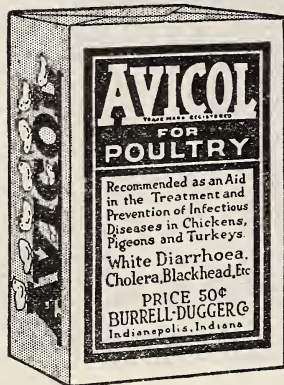

Dry Mash Hopper

Poultry Remedies We Recommend

Following will be delivered to 4th zone at the prices, except as noted.

DON SUNG—Makes hens lay. Add it to the mash you feed and it will cause more eggs to be laid by making the hen more healthy and toning her up, without any injury. To prove this, divide a flock and feed one-half Don Sung one month and note from which you get the most eggs. Mrs. S. Bloom, 941 Harlan Ave., St. Louis, wrote December 7, 1926: "I received the Don Sung tablets for egg laying several weeks ago. I must state that I have found quite an improvement in my chickens." Price 50c and \$1.00 per package.

Roup-Over

ROUP OVER—The "Over Night" Roup Remedy.—Have it on hand and use it at the first symptom of colds or Roup. Easy to use. Full directions. Pkgs. 50c and \$1.00.

AVICOL—It stops chicks dying. Drop an Avicol tablet in the drinking water occasionally. It will stop disease and prevent its spread. Cures white diarrhoea in chicks. Should always be on hand for preventive and cure. Pkg. 50c and \$1.00.

TRADE MARK REG. U. S. PATENT OFFICE

BARNES WORM EMULSION—Ejection of worms will not clear your flock, but digestion of the worms and their ejection will. This is the way the Barnes Emulsion works. Guaranteed. Many flocks have worms when not suspected. Yes, most flocks have. Pt. 60c; qt., \$1.00; gal., \$3.00; 5 gal., \$12.50. 10 per cent extra for delivery.

SODIUM FLURIDE—Best "kill" for lice. Destroys both old and young, and the unhatched ones. Full directions. Pkt., 40c, 70c.

EVAPOMETER—As indispensable as a thermometer in the complete success of incubating. Measures evaporation and tells when moisture is needed. Adapted to every incubator. No incubator should be run without it. Price with all instructions, \$1.00.

LITTLE PUTNAM STOVE—You can keep the water in the Poultry Yard from freezing with one of these stoves. Use under any fountain or even under a bucket of water. Use for heat in Oats Sprouter and numerous other ways. 3 pints of coal oil runs it a month without any attention. Not even trimming the wick. A big little thing at a little price, only \$1.95 each, in galvanized iron. Aluminum, \$2.95 each, 25c extra will deliver it to 4th zone.

"Please send another of your Little Putnam Stoves. I have one in use for water in my hen house and notwithstanding the temperature went to 27 below zero the last two nights, the water kept summer temperature. Its a wonder."—W. G. Seely, Sherburn, N. Y.

"Please send two more stoves. I got four a year ago and they have done so well I can't get along without them." Joe Lang, Irondale, Wash.

"The Little Putnam Stove has been O. K. No ice water for the chickens this winter, but they layed about 50 per cent more eggs." Chas. A. Mason, Phillipsburg, N. J.

The Farmers Interest Seed corn I purchased from you last Spring did fine and made a better crop than any other corn. C. L. Norwood Dutton, Ala.

I think the Mortgage Lifter Corn is fine and it stands the drought. Elzono Caylor, R. 4. Talking Rock, Ga.

The Farmers Interest and Mortgage Lifter Seed Corn are the best white and yellow corn raised in this country according to my experience, and I am using no other kind. In fact, all seeds I ever bought from you were first class without exception. F. P. Jordan, College Grove, Tenn.

Your seed corn was fine. Should I plant a garden, will send to you for seed. Mrs. M. F. Hunt, 313 N. 3rd. St. Lafayette, Ind.

Am well pleased with results of my Farmers Interest Seed corn, especially for early planting. W. P. Hampton, Sorrento, Ill.

We got five bushels of yellow seed corn and was well pleased with results. Had big yield of big eared corn. James W. Reavis, Ross-ville, Ind.

The roses I bought of you came in good condition and were fine healthy plants. They grew fine and bloomed all summer. I was very much pleased with them. Mrs. J. J. Hoffman, Loogootee, Ind.

Purchased some shrubs and rose bushes, and am glad to state that they proved very satisfactory both in price and quality and expect to purchase more this year. C. L. Singleton, Bloomington, Ind.

I planted some of your white and ever-bearing cucumber seed last year and raised a bountiful crop of the nicest, uniform cucumbers my neighbors said they ever saw. Mrs. E. E. Gossett, R. 1, Lizton, Ind.

Little Putnam Stove

INSECTICIDES

Sprayed Potatoes, 291 Bushels per Acre

Unsprayed Potatoes, 99 1/2 Bu. per Acre

We solicit the orders of large users of **INSECTICIDES** and **FUNGICIDES**. Let us Know your needs and get our prices. We will send Circulars on request of any Article.

The cost of spraying material and the time to apply it represents the smallest part of the whole expense of growing a crop. Labor, seeds, fertilizer and everything that enters into the production of fruits, vegetables and potatoes are high; therefore, after the heavy investments are made, no wise person will abandon his crops to the numerous insects and fungi and blight to destroy. But he will send his order for what he needs of the following insecticides and fungicides and exterminate them off the earth. The preparation and the spraying machine we offer are unexcelled.

All powders and dust should be applied when the foliage is wet.

Poisons are not admissible to the mails, so they must be sent by freight or express.

PARIS GREEN

For Leaf Eating Insects

Paris Green is the old standard and reliable poison that has been used for years by potato, tobacco, cotton and fruit growers and others. **PRICE**— $\frac{1}{4}$ lb., 20c; $\frac{1}{2}$ lb., 30c; 1 lb., 50c; 14, 28, or 56 lbs. at 45c a lb.

ARSENATE OF LEAD (Powder)

For Leaf Eating Insects

This is one of the most efficient poisons for the control of plant, vine and tree insects. It can be applied in the form of a spray or mixed with lime or plaster or other bases, or can even be applied in its original form without fear of injury. It never "burns" the foliage and has extraordinary adhesive qualities. It is preferred by many to Paris Green. **PRICE**—1 lb., 35c; 4 lbs., \$1.25; 12, 25 or 40 lbs., at 25c.

CALCIUM ARSENATE

Used as a dust or spray on potatoes and other plants to kill bugs and protect from fungus. $\frac{1}{2}$ lb., 25c; lb., 40c; 5 lbs., \$1.25.

BORDO MIXTURE (Powder)

For Blight and is a Plant Stimulant

The use of this preparation will stimulate plant life and prevent blight or rust on any kind of plants during the growing season and the rot of potatoes in the field or after storing. **PRICE**—1 lb., 35c; 4 lbs., \$1.25; 12, 24 or 48 lbs. at 30c.

LIME-SULPHUR (Powder)

For Scale Insects and Fungicide

One lb. to 12 to 15 gal. hot or cold water as a Winter Spray, 30 to 50 gallons as a Summer Spray. **PRICE**—1 lb., 35c; 5 lbs., \$1.30; 25 lbs., \$4.50; 100 lbs. or more at 15c.

BLACK LEAF 40 (Nicotine-Sulphate)

For Sucking Insects

This is the most generally used remedy for all sucking insects, such as Aphis, on apples, pears, peaches, currants, strawberries, melons cucumbers, peas, beans, peppers, potatoes, cabbage, egg plant, cauliflower, Brussels sprouts, tomatoes, flowers and shrubs. To kill these insects their body must be wetted by the spray made from Black Leaf 40. It is also widely used for dipping sheep, cattle, hogs, etc. to rid them of vermin. 1 oz., makes 6 gallons of spray. 35c; 8 ozs., makes 50 gallons of spray, \$1.25; 2 lbs., \$3.50; 10 lbs., \$13.50.

SLUG SHOT (Powder)

For Leaf Eating Insects

This is the old standard preparation for the eradication of insects injurious to house and garden plants, trees, vines, potatoes, melons, cabbage, currants, fruits and vegetables generally. The preparation does not injure the foliage. **PRICE**—5 lbs., 60c; 10 lbs., \$1.25; 25 lbs., \$2.00.

"SURE-NOXEM"

An Insecticide and Fungicide

A can of this insecticide should always be kept handy for nearly every insect pest that is likely to attack your cabbage, tomato, cucumber, melon, currant, gooseberry and other plants. Also is effective on rose bushes and flower plants. A sifter top, Safe, Sure. Pkgs., 25c and 80c.

LIME

For garden, whitewashing, etc. 10 lbs., 25c; 25 lbs., 50c; 50 lbs., 75c; 100 lbs., \$1.25.

GYPSUM OR LAND PLASTER

20 parts of gypsum with 1 part of Calcium Arsenate, applied with a Duster, protect vines from striped beetles. 10 lbs., 20c; 25 lbs., 45c; 50 lb., 75c; 100 lbs., \$1.25; Ton, \$20.00.

TOBACCO DUST FOR Leaf-Eating Insects

This dust destroys some kinds of leaf-eating insects. It is particularly valuable against rose slug, lice, cut worms, vine bugs, tomato worms, currant worms and cabbage worms. Tobacco dust will not burn or injure the plants. **PRICE**—Lb., 15c; 5 lbs., 40c; 10, 25 or 50 lbs., at 6c.

HELLEBORE

For the destruction of slugs, worms, caterpillars, etc. The accepted remedy for currant and gooseberry worms. Safe for use when vegetables or fruit are about ripe. $\frac{1}{2}$ lb., 35c; 1 lb., 65c.

SCALE BILE

For scale insects. Kills by contact. Spray in Spring before leaves or blossoms appear, also in Fall or Winter after leaves fall and when weather is not freezing. Qt. 60c; Gal., \$1.40; 5 Gal., \$6.25.

TREE TANGLEFOOT

A paste preparation for painting around the trunks of trees, in the form of a band. Caterpillars and other crawling pests cannot get over it. Lb., 50c; 5 lb., can \$2.25; 10 lb., can, \$4.25.

PARADICHLOROBENZINE

(Write it "Para" for short.) Kills peach tree borers. Don't use on trees younger than 6 years. One pound to 16 trees. Directions on packages. Lb. 55c; 5 lbs., \$2.25; 10 lbs., \$3.80.

WHALE OR FISH OIL SOAP

For Sucking Insects

For mild forms of scale, and is an excellent summer spray, when something stronger cannot be used. Good for washing off ferns, and almost anything that would be infected with any kind of insects. $\frac{1}{2}$ lb., 15c; lb., 25c; 5 lbs., \$1.10; 10 lbs., \$2.00.

KAYSO

Spreads the Spray and Makes It Stay

If you have never used this in your poison solution get a package now, try it and you'll find it will make the liquid go much farther and be far more effective. Kayso causes the spray to Spread" and cover the entire surface and holds it to the surface. Pkgs., 25c; and 50c; 10 lb., \$2.50; 100 lbs., \$20.00.

Seed & Soil Disinfectants

These preparations sterilize seeds, roots, etc. of parasitic diseases. They also stimulate germination and early growth. Full directions for use with each package.

USPULUM 2 oz., 50c; 1 lb., \$2.75; 5 lbs., \$13.00. SEMESAN 2 oz., 60c; 4 ozs., \$1.00; 8 oz., \$1.60; 1 lb., \$2.75; 5 lbs., \$13.00.

Vegetable Plants

All our vegetable plants, except the Frost Proof have been transplanted and prices must not be compared with "bed" plants. All prices include delivery as far as the 4th zone.

CABBAGE. Early varieties. Ready March 15th. Doz. 25c; 50 for 75c; 100 for \$1.25; per 1000, \$7.50.

CABBAGE. Late. Ready May 1. Doz., 25c; 50 for 60c; 100 for \$1.00; per 1000 \$5.50.

CAULIFLOWER—Same as Early cabbage.

TOMATO. Early varieties. Ready April 15th, doz. 30c; 50 for \$1.00; 100 for \$1.85; per 1000 \$15.00.

PEPPER. Sweet or Hot—Same as tomato plants.

CELERY—Ready June 1. Same price as late Cabbage.

SWEET POTATO—Ready May 15. Same price as late Cabbage.

Frost Proof Cabbage

These plants can be set in the open ground as early as the ground is fit, usually a month earlier than local grown plants, and will make full-grown heads a few weeks before the ordinary cabbage plants.

VARIETIES—Early Jersey Wakefield; Charleston Wakefield, Early Flat Dutch, and Copenhagen Market.

PRICES—500 for \$1.60; per 1,000 \$3.00 delivered.

Garden Spot Special Offer

500 Crystal Bermuda Onion Plants -----\$1.25
500 Crystal Wax Onion Plants -----1.25
4 Dozen Assorted Cabbage Plants ----- .50

All for \$2.50 postpaid, delivered.

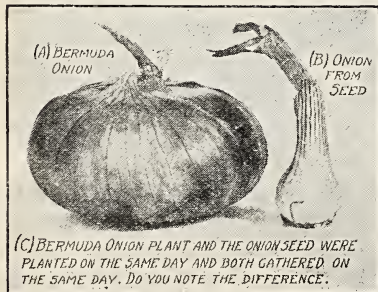

ONION PLANTS

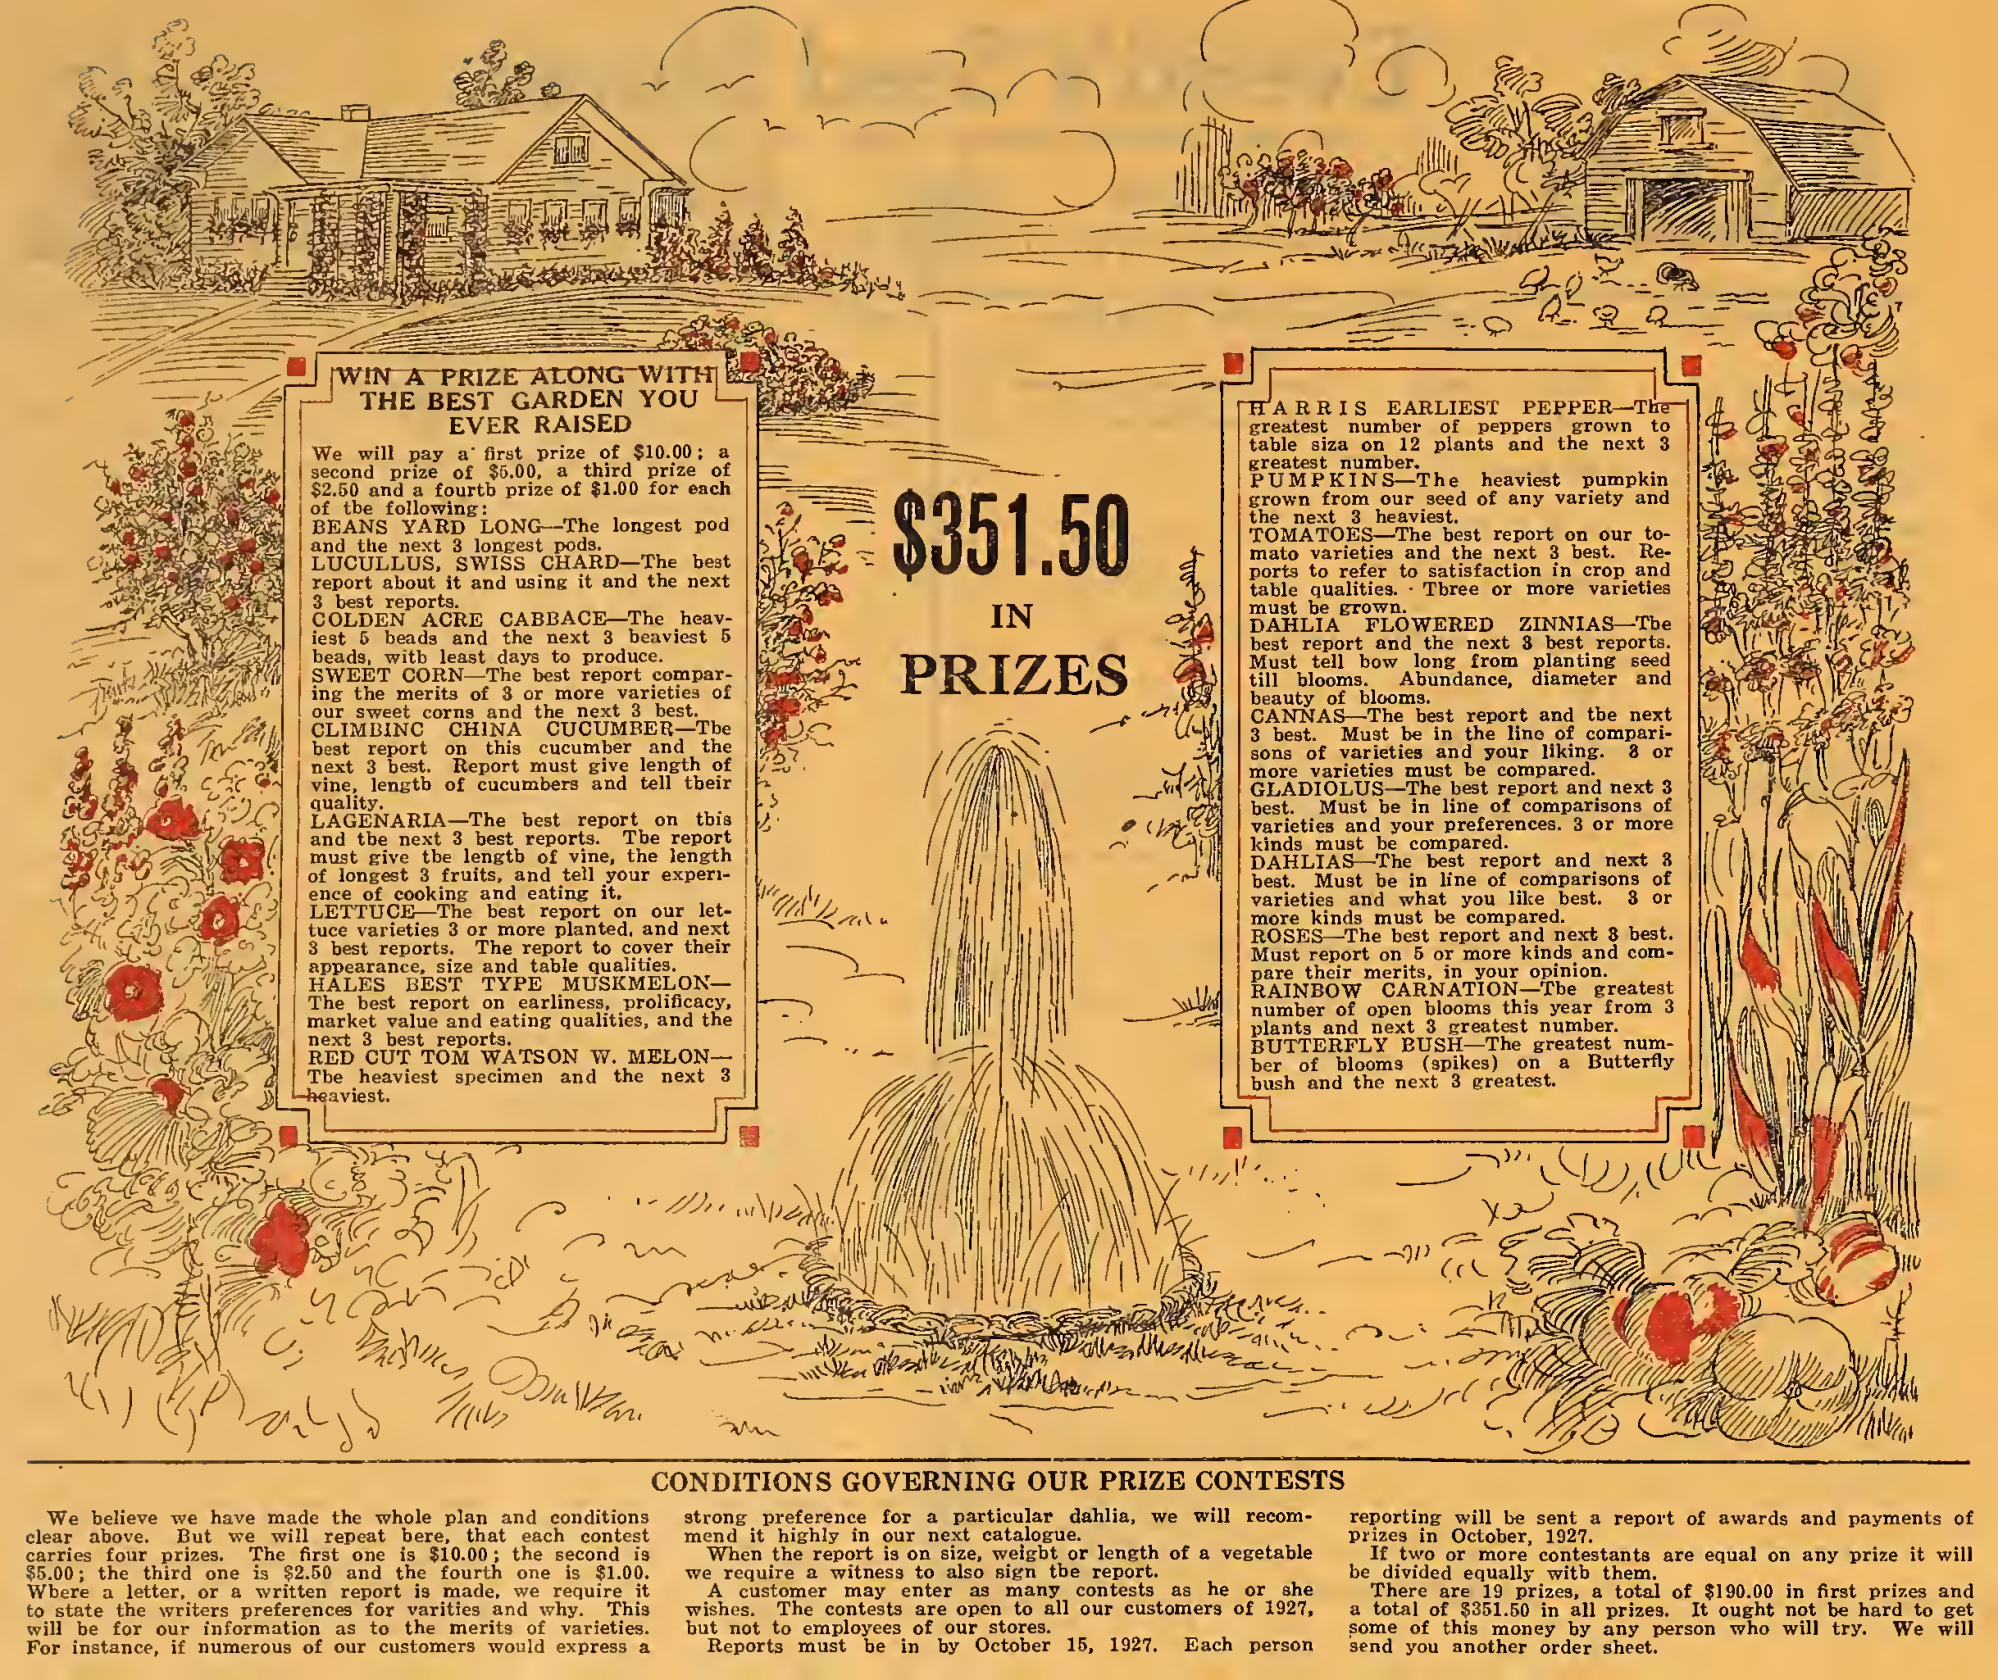

Our onion plants are grown in the south by a company that has a capacity of 15 million plants a day. It is quite well established in sections where the plants have been used that the dry sets are no longer wanted. Every onion plant will produce a good green onion, or a good matured onion, which cannot be said of dry sets, nor for seed. Onions from plants, also mature weeks earlier than from seed sown. See an example in the illustration.

VARIETIES—Crystal White Wax and Yellow Bermuda. 500 plants \$1.25; 1000, 2,500, 5,000 and up in thousand units at \$2.25 per thousand. Express or Parcel Post paid to purchaser.

LEST YOU MAY NOT KNOW

Set Canna bulbs 5 inches deep; Gladiolus bulbs 5½ inches deep; Dahlia bulbs 7 inches deep; Peony bulbs 9 inches deep. The greatest mistake in planting bulbs is to set them too shallow.

**WIN A PRIZE ALONG WITH
THE BEST GARDEN YOU
EVER RAISED**

We will pay a first prize of \$10.00; a second prize of \$5.00, a third prize of \$2.50 and a fourth prize of \$1.00 for each of the following:

BEANS YARD LONG—The longest pod and the next 3 longest pods.

LUCULLUS, SWISS CHARD—The best report about it and using it and the next 3 best reports.

COLDEN ACRE CABBAGE—The heaviest 5 heads and the next 3 heaviest 5 heads, with least days to produce.

SWEET CORN—The best report comparing the merits of 3 or more varieties of our sweet corns and the next 3 best.

CLIMBING CHINA CUCUMBER—The best report on this cucumber and the next 3 best. Report must give length of vine, length of cucumbers and tell their quality.

LAGENARIA—The best report on this and the next 3 best reports. The report must give the length of vine, the length of longest 3 fruits, and tell your experience of cooking and eating it.

LETTUCE—The best report on our lettuce varieties 3 or more planted, and next 3 best reports. The report to cover their appearance, size and table qualities.

HALES BEST TYPE MUSKMELON—The best report on earliness, prolificacy, market value and eating qualities, and the next 3 best reports.

RED CUT TOM WATSON W. MELON—The heaviest specimen and the next 3 heaviest.

\$351.50
IN
PRIZES

HARRIS EARLIEST PEPPER—The greatest number of peppers grown to table size on 12 plants and the next 3 greatest number.

PUMPKINS—The heaviest pumpkin grown from our seed of any variety and the next 3 heaviest.

TOMATOES—The best report on our tomato varieties and the next 3 best. Reports to refer to satisfaction in crop and table qualities. Three or more varieties must be grown.

DAHLIA FLOWERED ZINNIAS—The best report and the next 3 best reports. Must tell how long from planting seed till blooms. Abundance, diameter and beauty of blooms.

CANNAS—The best report and the next 3 best. Must be in the line of comparisons of varieties and your liking. 3 or more varieties must be compared.

GLADIOLUS—The best report and next 3 best. Must be in line of comparisons of varieties and your preferences. 3 or more kinds must be compared.

DAHLIAS—The best report and next 3 best. Must be in line of comparisons of varieties and what you like best. 3 or more kinds must be compared.

ROSES—The best report and next 3 best. Must report on 5 or more kinds and compare their merits, in your opinion.

RAINBOW CARNATION—The greatest number of open blooms this year from 3 plants and next 3 greatest number.

BUTTERFLY BUSH—The greatest number of blooms (spikes) on a Butterfly bush and the next 3 greatest.

CONDITIONS GOVERNING OUR PRIZE CONTESTS

We believe we have made the whole plan and conditions clear above. But we will repeat here, that each contest carries four prizes. The first one is \$10.00; the second is \$5.00; the third one is \$2.50 and the fourth one is \$1.00. Where a letter, or a written report is made, we require it to state the writers preferences for varieties and why. This will be for our information as to the merits of varieties. For instance, if numerous of our customers would express a

strong preference for a particular dahlia, we will recommend it highly in our next catalogue.

When the report is on size, weight or length of a vegetable we require a witness to also sign the report.

A customer may enter as many contests as he or she wishes. The contests are open to all our customers of 1927, but not to employees of our stores.

Reports must be in by October 15, 1927. Each person

reporting will be sent a report of awards and payments of prizes in October, 1927.

If two or more contestants are equal on any prize it will be divided equally with them.

There are 19 prizes, a total of \$190.00 in first prizes and a total of \$351.50 in all prizes. It ought not be hard to get some of this money by any person who will try. We will send you another order sheet.
